Accessing and Printing Electronic W-2/W-2c via Employee Self Service (ESS)

ESS provides personalized and role-based access. It is a web-based service that puts you in control of managing your information. ESS gives you the flexibility and convenience of having more control of your information as it relates to commonwealth employment.

Step 1: ESS can be accessed either from home or work, using the internet or the commonwealth's intranet at www.myworkplace.pa.gov

Step 2 (If accessing from work, or through VPN, skip to step 3): When accessing ESS from *HOME*, using the internet, once logged on to your computer, you can access ESS by opening Internet Explorer and typing the web address in the address bar.

You are then prompted to log into the commonwealth network using “cwopa\Network User Name” (e.g. cwopa\johndoe) and Password.

This is the logon page for MyWorkplace.

For issues with authentication, please double check your user ID and password. If you continue to have problems with authentication, please contact your network administrator or ASA to check the status of your network account.
