COMMONWEALTH OF PENNSYLVANIA
GOVERNOR'S OFFICE
HARRISBURG

December 20, 2007

MICHAEL J. MASCH
SECRETARY
OFFICE OF THE BUDGET

To the Honorable Governor, Lieutenant Governor, Members of the General Assembly, and Citizens of the Commonwealth of Pennsylvania:

We are pleased to present this Comprehensive Annual Financial Report (CAFR) of the Commonwealth of Pennsylvania as of and for the fiscal year ended June 30, 2007. The Office of the Budget, Office of Comptroller Operations, prepared this report, which includes the Basic Financial Statements (BFS), pursuant to the power vested in the Governor under Section 701 of the Administrative Code and delegated to the Secretary of the Budget by Executive Order No. 1984-3, dated October 11, 1984.

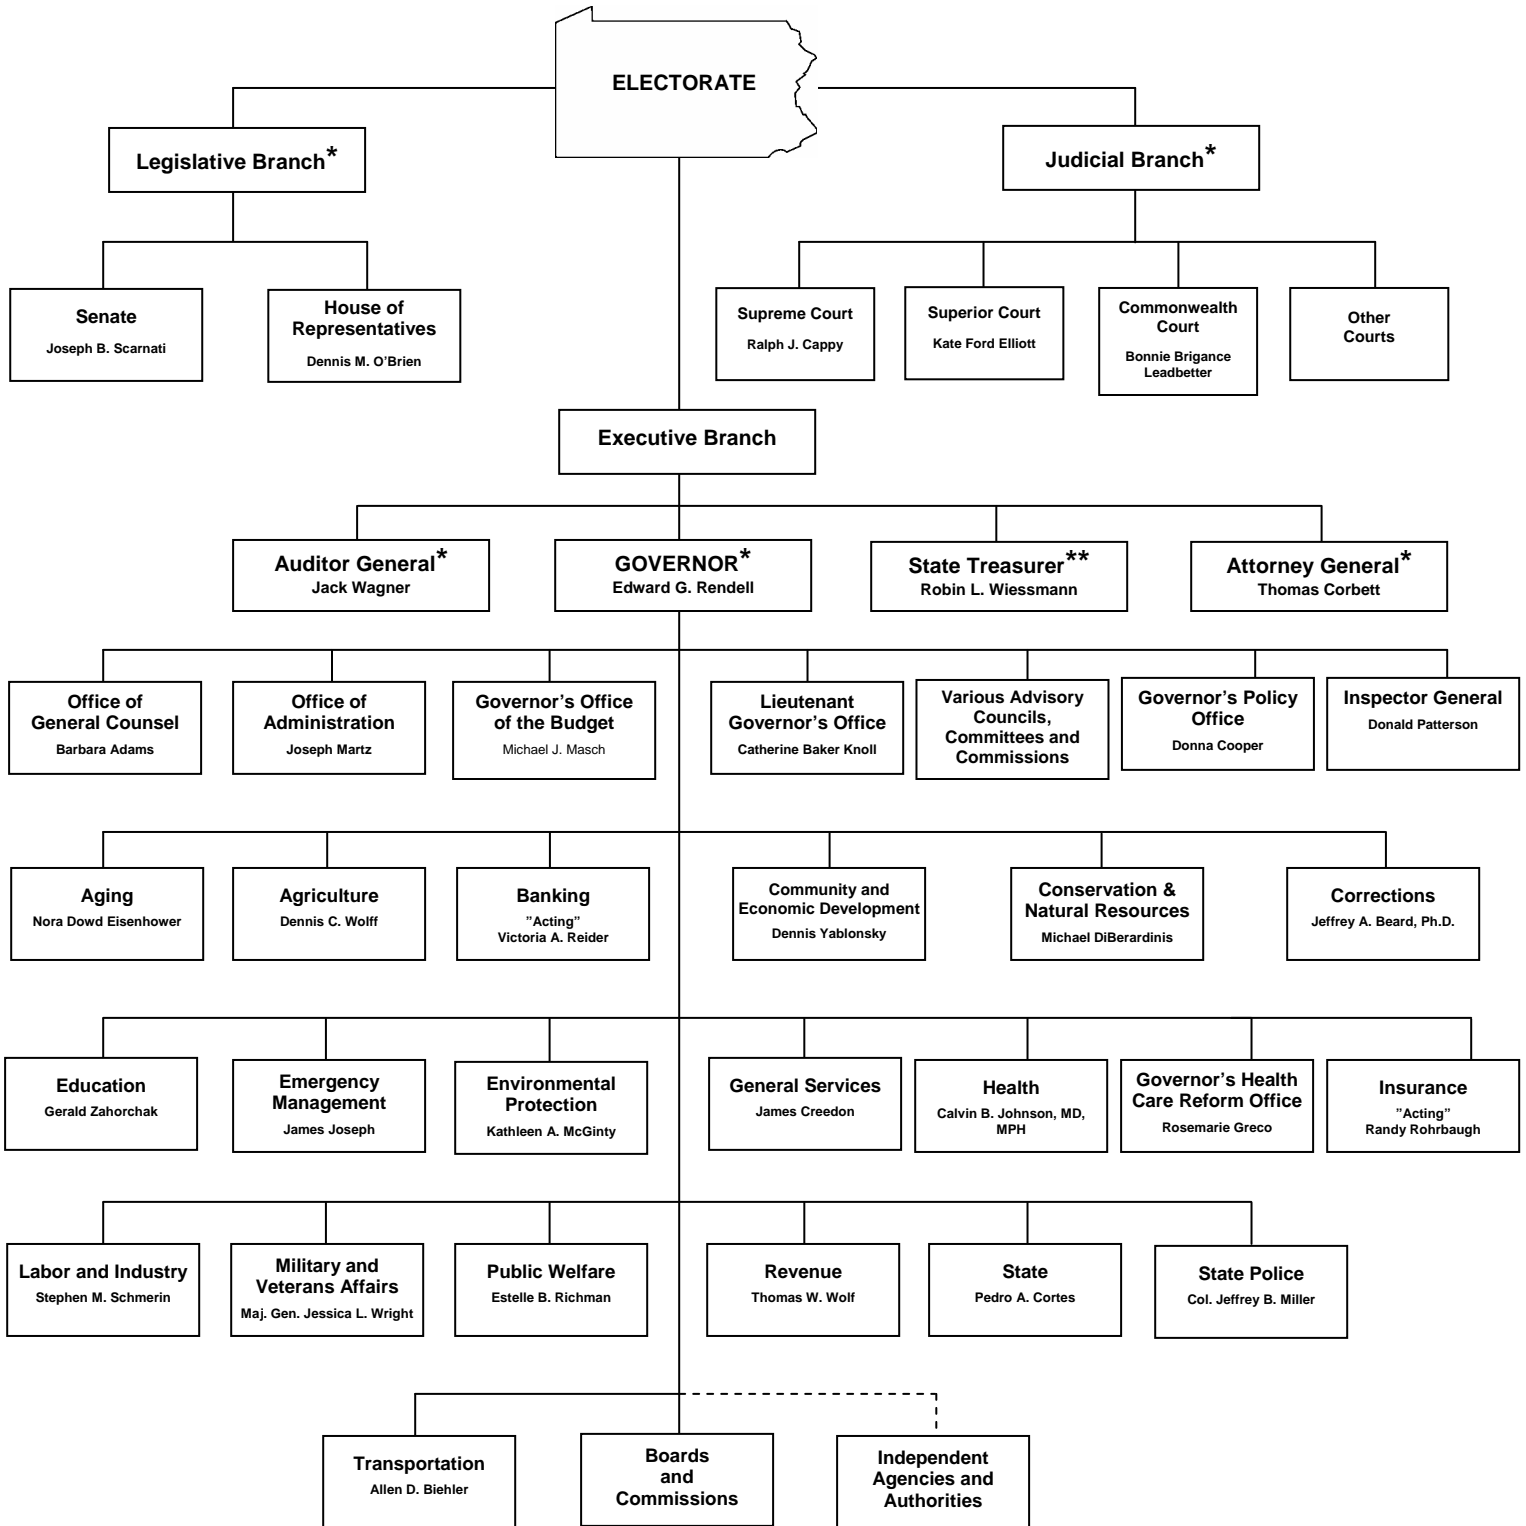

The BFS were prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). We believe the financial statements are fairly stated in all material respects; that they are presented in a manner designed to fairly report the Commonwealth's financial position, results of operations, and changes in net assets/fund balances. All disclosures necessary to enable the Governor, the members of the General Assembly, the public, and the financial community to fully understand the Commonwealth's operations and financial affairs have been included. The BFS include information about discretely presented component units, which are legally separate organizations for which the Commonwealth is financially accountable. Responsibility for the completeness and fairness of the presentation, including all disclosures, rests with the Commonwealth of Pennsylvania, Office of the Budget, Office of Comptroller Operations. The Commonwealth relies on its comprehensive framework of internal control in the preparation of basic financial statements. The Commonwealth has established a cost-effective system of internal controls; that is however, subject to inherent limitations, as is in any system of internal controls, in that there is reasonable, but not absolute, assurance as to the effectiveness of the internal control system.

Management's Discussion and Analysis (MD&A) precedes the June 30, 2007 BFS, provides an overview of the Commonwealth's financial position and activities thus helping readers to understand the government-wide statements. This section immediately follows the auditors' opinion. In addition to the MD&A and BFS, this CAFR includes: budgetary comparison schedules, combining fund financial statements; supporting schedules; certain narrative information describing individual funds; and statistical tables presenting financial trends, revenue capacity, debt capacity, demographic and economic information, capital asset and operating information about the Commonwealth.

PROFILE OF THE GOVERNMENT

Located in the Mid-Atlantic region, the Commonwealth of Pennsylvania is committed to providing a wide range of services to ensure the well-being of the people. It was the second of the 13 original colonies to ratify the Constitution, but was the first state with a hospital, zoo, newspaper, and home computer. The state capitol, located in Harrisburg, is where a strong foundation is laid for Pennsylvania's government system, which strives to better the lives of the 12.5 million individuals who call the state home. Operating through a system of checks and balances, Pennsylvania's government consists of three branches. The Senate and the House of Representatives make up the legislative branch. The executive branch consists of the Governor, Auditor General, State Treasurer, and the Attorney General. The Supreme Court, Superior Court, Commonwealth Court, and other courts compose the judicial branch. The following organization charts identify specific Commonwealth officials and staff within Comptroller Operations, at June 30, 2007:

**THE GENERAL FUND
BUDGETARY BASIS**

The General Fund, the Commonwealth's largest operating fund, may be used to assess Pennsylvania's financial position and activities for the fiscal year ended June 30, 2007. It accounts for all revenues and other receipts that are not required by law to be accounted for or deposited in other special funds, and reflects a significant portion of Commonwealth expenditures. Tax revenues, principally personal and corporate income, and sales and use taxes, constitute approximately 88.8 percent of the non-federal General Fund budgetary basis revenues. General Fund expenditures are reported in the following functional assignments, along with the related percentage of non-federal expenditures: direction and supportive services (3.52), protection of persons and property (11.89), health and human services (38.40), public education (37.66), recreation and cultural enrichment (1.14), economic development (3.02), transportation (1.42) and transfers to debt service funds (2.95) for all obligations except those incurred for highway or other special revenue fund purposes.

**BUDGET ADOPTION AND LEGAL COMPLIANCE
BUDGETARY COMPARISON SCHEDULE**

A discussion of the Commonwealth's annual budget process is included as Required Supplementary Information (RSI) immediately following the Notes to the Financial Statements. The legally adopted budget provides statutory control over spending. Under Commonwealth law, expenditures cannot exceed amounts appropriated. Budgetary control is exercised by specific, line-item appropriation. The Budgetary Comparison Schedule, included as RSI, provides original budget, final budget and actual budgetary results for the fiscal year ended June 30, 2007.

**BUDGETARY BASIS FUND BALANCE INCREASE/(DECREASE)
FIVE MOST RECENT FISCAL YEARS**

The following table shows the General Fund's year end unreserved/undesignated fund balance and increases or decreases on a budgetary basis at the end of the five most recent fiscal years (amounts in millions):

General Fund <u>At June 30</u>	<u>Unreserved/ Undesignated Fund Balance</u>	<u>Budgetary Basis Increase (Decrease)</u>
2003 (restated)	\$ 196.2	\$ 53.7
2004 (restated)	77.5	(118.7)
2005	364.8	287.3
2006 (restated)	522.2	157.4
2007	530.9	8.7

During the fiscal year ended June 30, 2007, total General Fund revenues and other sources exceeded expenditures and other uses by \$8.7 and, at June 30, 2007, the Commonwealth reported an unreserved/undesignated fund balance (budgetary basis) of \$530.9 in the General Fund. This compares to a budgetary basis fund balance of \$522.2 (restated) at June 30, 2006. The budgetary basis results for the fiscal year ended June 30, 2007 include revenue collections totaling \$44,797.5, less appropriation authorizations totaling \$44,696.3, less other net financing uses totaling \$92.5. Included in the \$44,696.3 appropriation authorizations are \$197.1 of state supplemental appropriations and \$94 in Federal supplemental appropriations authorized during the fiscal year ended June 30, 2007 (amounts in millions).

ECONOMIC OUTLOOK

The national economy slowed dramatically during the first quarter of 2007, 0.6 percent growth in gross domestic product (GDP), before rebounding during the second quarter to 4.0 percent growth in GDP. This rapid turnaround supported continued gains in employment both nationally and within the Pennsylvania economy. Improvements in personal income, government finances, and jobs growth were recorded during the recently completed fiscal year. Overall, growth in the national economy averaged 2.5 percent during fiscal year 2006-07.

From mid-2007 to mid-2008, growth in the national economy, as measured by GDP, is expected to average 2.4 percent, below recent performances. Continued weakness in the housing market will likely lead to slower growth in the economy. Significant increases in oil prices will negatively impact the economy and likely reduce consumer expenditures. More cautious consumer spending and weakened foreign trade will adversely impact the national and Pennsylvania economies in during fiscal year 2008.

LONG-TERM FINANCIAL PLANNING

Based on the Governor's Executive Budget for 2007-2008, issued in February 2007, during each of the five fiscal years ending June 30, 2012, the Commonwealth expects to receive General Fund revenues between \$28 billion and \$32 billion along with similar, but lower, expenditures. During the same five fiscal years, it is estimated surpluses ranging from \$3.8 million to \$87 million, after General Fund transfers to the Budget Stabilization Reserve Fund (expected to be between \$1 million and \$29 million for each of the five years.) For all Funds included in the Executive Budget, total revenues and available balances carried forward of between \$60 billion and \$65 billion are expected, along with corresponding but lower expenditures. The next Executive Budget is expected to be available in February 2008 and includes planned revenues and expenditures for five fiscal years, through the fiscal year ending June 30, 2013.

RISK MANAGEMENT

The Commonwealth maintains ongoing training and information programs to reduce risks associated with employee injury and negligence, contract compliance, tort liabilities and property losses. As more fully described in Note M to the financial statements, the Commonwealth became self-insured for employee disability and medical claims on July 1, 1983. The Commonwealth is also self-insured for annuitant medical/hospital benefits and tort liabilities, including automobile, employee and transportation-related claims. Reserves have been established to fund self-insured claims. First-party coverage is obtained for property losses in excess of \$1 million per occurrence, to a limit of \$250 million (\$350 million, as of September 19, 2007) per occurrence. Coverage for property losses less than \$1 million or in excess of \$250 million (\$350 million, as of September 19, 2007) is maintained through the Commonwealth's self-insurance program.

INDEPENDENT AUDIT

The Commonwealth's June 30, 2007 Basic Financial Statements have been jointly audited by the Department of the Auditor General and Ernst & Young LLP, an independent public accounting firm. The independent auditors' opinion is included in the beginning of the Financial Section of this CAFR. The auditors' opinion provides a reasonable basis for users to rely on the information included in the BFS.

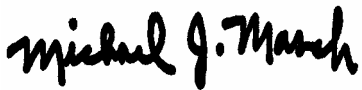

CERTIFICATE OF ACHIEVEMENT

The CAFR will be submitted to the Government Finance Officers Association of the United States and Canada (GFOA) to determine its eligibility for the GFOA's Certificate of Achievement for Excellence in Financial Reporting. The GFOA awarded a Certificate of Achievement for Excellence in Financial Reporting to the Commonwealth of Pennsylvania for its Comprehensive Annual Financial Report as of and for the fiscal year ended June 30, 2006. This represents the twenty-first consecutive year the Commonwealth of Pennsylvania has received this award.

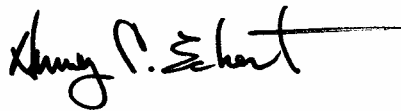

To merit a certificate of achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, which conforms to GFOA standards and satisfies both generally accepted accounting principles and applicable legal requirements. A certificate of achievement is valid for a period of one year only. We believe the Comprehensive Annual Financial Report of the Commonwealth of Pennsylvania as of and for the fiscal year ended June 30, 2007 conforms to the GFOA's award criteria.

ACKNOWLEDGMENTS

We wish to express our appreciation to the staff of the various Commonwealth agencies whose time and dedicated effort made this report possible and, at the same time, to reaffirm our commitment to you to maintain the highest standards of accountability in financial reporting to the citizens of the Commonwealth.

Report of Independent Auditors

The Honorable Edward G. Rendell, Governor
Commonwealth of Pennsylvania
Harrisburg, Pennsylvania

We have jointly audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Commonwealth of Pennsylvania (the Commonwealth), as of and for the year ended June 30, 2007, which collectively comprise the Commonwealth's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Commonwealth's management. Our responsibility is to express opinions on these financial statements based on our audit.

We did not jointly audit the financial statements of the Tobacco Settlement Fund, a major Special Revenue Fund, the Tuition Payment Fund, a major Enterprise Fund, and certain component units, which represent 99 percent of total assets, 99 percent of total net assets and 99 percent of total revenues of the aggregate discretely presented component units, and certain agencies, which represent 2 percent of expenditures of the General Fund and 1 percent of expenses of Governmental Activities. We also did not jointly audit 100 percent of the total assets, 100 percent of total net assets and 100 percent of the total revenues of the Pension (and Other Employee Benefit) and Private Purpose Trust Funds. This comprises 91 percent of total assets, 96 percent of total net assets and 87 percent of total revenues of the aggregate remaining fund information. The financial statements of the Tobacco Settlement Fund, Tuition Payment Fund, and these component units, agencies, and Pension (and Other Employee Benefit) and Private Purpose Trust Funds were audited by other auditors, including Ernst & Young LLP acting separately, whose reports thereon have been furnished to us, and our opinions, insofar as they relate to the amounts included for the Tobacco Settlement Fund, Tuition Payment Fund, and those component units, agencies, and the Pension (and Other Employee Benefit) and Private Purpose Trust Funds, are based solely on the reports of the other auditors. Ernst & Young LLP has audited, separately, 100 percent of the Tuition Payment Fund, 16 percent of total assets, 28 percent of total net assets and 16 percent of total operating revenues of the discretely presented component units, as well as 2 percent of expenditures of the General Fund and 1 percent of expenses of Governmental Activities.

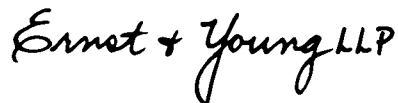

The transactions of the Department of the Auditor General are included in the basic financial statements and are immaterial to the overall presentation of the basic financial statements. The expenses of the Department of the Auditor General equal less than 1 percent of the expenses reported for Governmental Activities on the Statement of Activities and less than 1 percent of the expenditures reported for the General Fund on the Statement of Revenues, Expenditures and Changes in Fund Balance. Agency Fund assets and liabilities of the Department of the Auditor General equal less than 1 percent and less than 2 percent, respectively, of the total assets and liabilities reported for the aggregate remaining fund information. The Auditor General is the Commonwealth's independently-elected auditing officer. Article VIII, § 7, of the Pennsylvania Constitution mandates the Auditor General to act jointly with the Governor and State Treasurer to vote on the incurrence of debt. Title 72 of the Pennsylvania Statutes, § 1102, mandates the Department of the Auditor General to approve the disposition of petitions for corporate tax resettlements filed with the Pennsylvania Department of Revenue's Board of Appeals, which may be appealed to the Board of Finance and Revenue. Title 71 of the Pennsylvania Statutes, § 115, mandates the Auditor General to be one of the six members of the Board of Finance and Revenue, which is an independent board whose decisions may be appealed to Commonwealth Court. The above-mandated responsibilities are performed by personnel separate from those involved in the performance of the audit of the Commonwealth's basic financial statements, and are being disclosed as required by and in accordance with auditing standards generally accepted in the United States.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Commonwealth's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Commonwealth's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Commonwealth of Pennsylvania as of June 30, 2007, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with United States generally accepted accounting principles.

Management's discussion and analysis and budgetary comparison information on pages 16 through 36 and 128 through 132 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Commonwealth of Pennsylvania's basic financial statements. The introductory section, combining non-major fund and component unit financial statements, budgetary comparison schedules for budgeted non-major funds, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining non-major fund and component unit financial statements and budgetary comparison schedules for budgeted non-major funds have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the reports of other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, accordingly, we express no opinion on them.

December 11, 2007

Management's Discussion and Analysis

Pocono Raceway, Long Pond

Monroe County

The Management's Discussion and Analysis (MD&A) of the Commonwealth of Pennsylvania's Comprehensive Annual Financial Report (CAFR) is presented as Required Supplementary Information and provides a review and analysis of the Commonwealth's financial statements for the fiscal year ended June 30, 2007 and a comparison to the prior fiscal year. The MD&A should be reviewed in conjunction with the Letter of Transmittal, which begins on page 4 of this report, and with the Commonwealth's financial statements, which follow.

Executive Summary

Government-wide Statements at-a-glance

Net Assets – Governmental activities net assets totaled \$24.3 billion at June 30, 2007, compared to \$22.6 billion at June 30, 2006. This represents a year over year increase in net assets of \$1.7 billion, following a prior year increase in net assets of \$1.8 billion. For business-type activities, net assets were \$3.6 billion at June 30, 2007, an increase of \$0.3 billion compared to \$3.3 billion at June 30, 2006. This represents a year over year increase in Total Net Assets of \$2.0 billion for the primary government.

General Obligation Bonds – During the fiscal year, total general obligation bond indebtedness increased by \$.6 billion (\$.4 billion issued and \$.2 billion repaid) from \$7.6 billion to \$8.2 billion, while total governmental activities liabilities increased by \$1.0 billion.

Fund Statements at-a-glance

Governmental Funds – Fund Balances – Were \$8.526 billion at June 30, 2007 compared to \$7.650 billion at June 30, 2006, for a year-over-year increase of \$.876 billion.

General Fund – Fund Balance – Was \$3.371 billion at June 30, 2007, compared to \$2.970 billion at June 30, 2006, for a year over year increase of \$.401 billion.

Overview and discussion of basic financial statements

The Financial Section of the CAFR consists of several parts: the Independent Auditors' Report, Management's Discussion and Analysis, Basic Financial Statements (BFS), Required Supplementary Information, Combining Financial Statements, and Statistical Section. The BFS includes two sets of statements that present different views of the Commonwealth – the government-wide financial statements and the fund financial statements. The Notes to the Financial Statements present additional details and clarification regarding the information presented in these statements.

Government-wide financial statements

Government-wide financial statements portray the Commonwealth's overall financial position (Statement of Net Assets) at June 30, 2007 and its aggregate revenues and expenses (Statement of Activities) for the fiscal year ended June 30, 2007. The Statement of Net Assets presents the assets, liabilities, and net assets for the Commonwealth as a whole. The Statement of Activities presents, by function or program, the expenses, offsetting revenues, and changes in net assets. Both statements classify amounts by Governmental Activities, Business-Type Activities, and Component Units. The component units are organizations that are legally separate from the Commonwealth's primary government. Information related to component units is not included in the MD&A. Each component unit is identified and described in Note A – Summary of Significant Accounting Policies. Audited financial statements for component units are available through the Commonwealth Comptroller.

The government-wide financial statements are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. This basis of accounting is similar to the basis used by most business entities and recognizes revenues and expenses when they occur, regardless of when related cash was received or paid.

Fund financial statements – governmental funds

Funds are groups of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The Commonwealth uses fund accounting to demonstrate compliance with finance related legal requirements. The Commonwealth's funds are categorized as governmental funds, proprietary funds or fiduciary funds. Further discussion of these fund categories can be found in Note A – Summary of Significant Accounting Policies. Fund financial statements differ from government-wide financial statements in a few ways:

- 1) While the government-wide statements focus on the government taken as a whole, the fund statements reveal more detailed, fund-specific information for major governmental and proprietary funds, and for aggregated, non-major fund information.
- 2) Unlike the aggregated columns for governmental and business-type activities in government-wide statements, the fund statements report individual funds which are established by state law and used to account for specific, mandated activities. Two examples of specific funds are the Motor License Fund, a special revenue fund where gasoline taxes and motor vehicle registration fees are collected and used to repair and build highways, and the Unemployment Compensation Fund, an enterprise fund, used to collect amounts from employers to pay for unemployment compensation to workers.
- 3) The government-wide statements use the full accrual basis of accounting. In the funds statements, governmental funds use the modified accrual basis of accounting and current financial resources measurement focus; whereas the proprietary funds and fiduciary funds use the accrual basis of accounting and economic resources focus.

Government-wide financial analysis

The following presents condensed financial statement information from the Statement of Net Assets (amounts in billions):

	Governmental Activities			Business-Type Activities			Total		
	2007	2006	Change	2007	2006	Change	2007	2006	Change

Changes in assets and liabilities

As of June 30, 2007, total governmental activities cash and investments increased by \$1.5 billion, primarily as a result of increases in governmental activities tax revenues, caused by improving economic conditions during the fiscal year, and relatively smaller increases in governmental activities expenses. This cash and investments increase follows a \$1.1 billion

increase for the prior year. The net capital assets increase of \$1.1 billion follows a \$0.9 billion increase in the prior year and reflects an expansion of, and improvements to, the Commonwealth's reported highway and bridge infrastructure, along with other capital assets. Governmental activities current liabilities accounts payable and accrued liabilities, increased by \$.4 billion due to overall expense increases and the timing of voucher payment requests. Other governmental activities current liabilities increased by \$0.3 billion, net, resulting primarily from 1) relatively larger Treasury securities lending program obligations (\$0.13 billion); and 2) an increase in tax refunds payable (\$.06 billion) as of June 30, 2007. General obligation bonds payable, non-current portion, increased by \$0.55 billion over the prior year; roughly \$1.32 billion were issued, and \$.0761 billion was repaid during the fiscal year. Year over year changes in business-type activities assets and liabilities resulted in a net increase in net assets of \$0.3 billion; total assets increased by \$0.8 billion and total liabilities increased by \$0.5 billion. Total assets increased primarily as a result of increases in investments reported by the Unemployment Compensation Fund, the State Workers' Insurance Fund, the State Lottery Fund and the Tuition Payment Fund. Among these four Funds, the Unemployment Compensation Fund reported an increase in net assets of over \$0.2 billion.

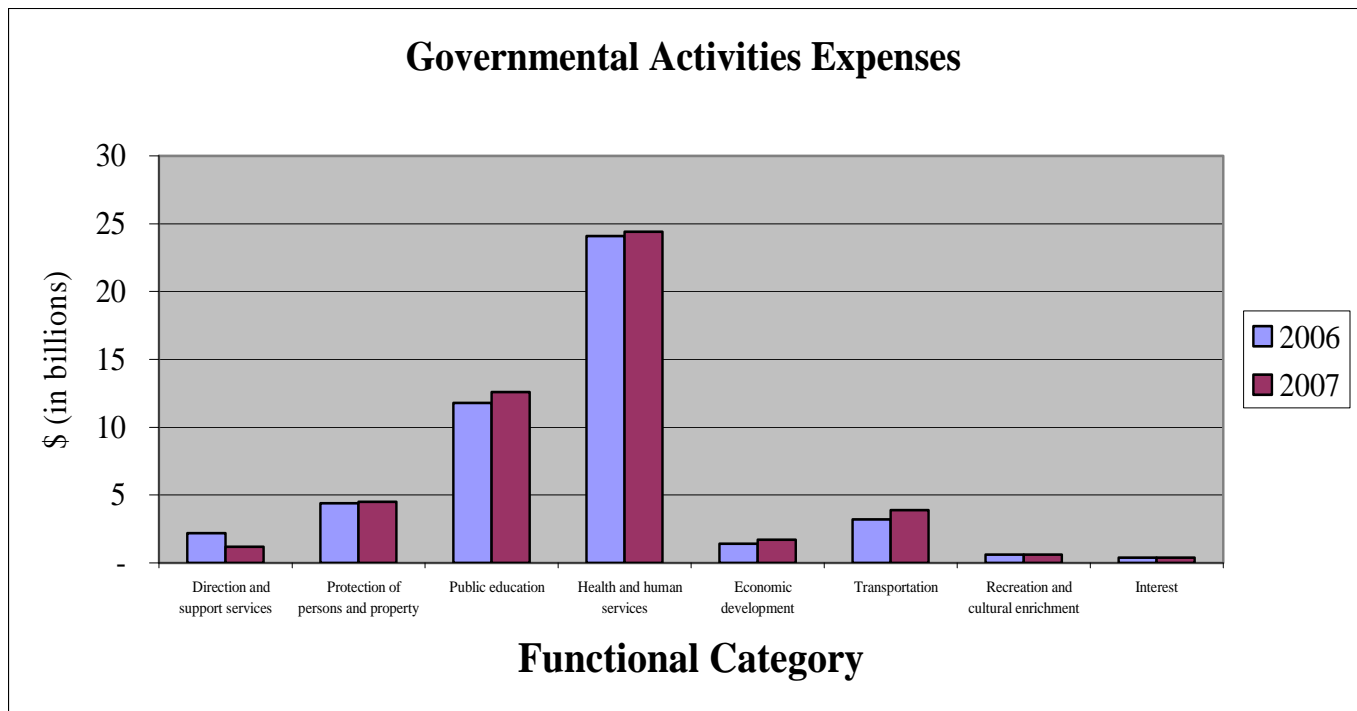

The following presents condensed, financial statement information from the Statement of Activities (amounts in billions):

	Governmental Activities			Business-Type Activities			Total

The following chart provides a year-over-year comparison of governmental activities revenues:

Below is a chart comparing governmental activities expenses by fiscal year:

Overall changes in net assets

During the fiscal year ended June 30, 2007, the overall financial position (net assets) of the Commonwealth, including both governmental and business-type activities, increased by \$2.0 billion, or 7.7 percent of total beginning net assets of \$25.9 billion. For governmental activities, the net increase in net assets was \$1.8 billion or nearly 8.0 percent of beginning net assets of \$22.6 billion. Total investments, excluding the State Employees' Retirement Fund and all other fiduciary funds, totaled over \$17.6 billion and total cash balances were over \$1.9 billion. These amounts represent considerable financial resources for the current and future fiscal years. The increase in governmental activities net assets (\$1.7 billion) almost equaled the prior year change, where revenues, transfers and special items also exceeded expenses by \$1.8 billion. These increases represent significant year-over-year improvements in the Commonwealth's overall financial position, respectively, during the fiscal years ended June 30, 2007 and 2006.

The \$.3 billion increase in total net assets for business-type activities follows a \$.7 billion increase during the prior fiscal year. The \$.4 billion year over year decrease is primarily attributable to a net assets increase of \$.2 billion in the unemployment compensation program, where the prior year net assets increase was over \$.5 billion. During the current fiscal year, unemployment compensation revenues decreased while expenses increased; in the prior year revenues increased and expenses decreased by a large amount. Statutory contribution decreases occurred during the current fiscal year, while increases occurred during the prior year. (Such prior year increases are intended to eliminate or avoid net assets decreases in the unemployment compensation program.) During the fiscal year ended June 30, 2007, combined decreases in net assets of the State Workers' Insurance Fund and the State Lottery Fund (\$103 million) more than offset an increase in net assets of the Tuition Payment Fund (\$52 million), after net transfers to other Funds.

Changes in revenues and expenses

For governmental activities, general revenues increased by \$1.3 billion, largely as a result of significant increases in General Fund tax revenues during the fiscal year ended June 30, 2007. Such increases were the result of improving overall economic conditions in the Commonwealth; the largest of such increases was in personal income taxes. Program revenues for charges for sales and services decreased \$.8 billion because of 1) a reported decrease in revenues of \$1.4 billion related to cash receipts and disbursements related to Commonwealth employee benefit costs which are charged to Commonwealth agencies on a biweekly basis. (Such cash receipts and disbursements were formerly reported on a 'gross' basis and reported as part of General Fund revenues (Charges for sales and services) and expenditures (Direction and supportive services)) and 2) a reported net increase of \$.6 billion, consisting primarily of new Gaming Fund revenues (\$.32 billion) and escheated property (\$.29 billion). Operating grants and contributions, which includes Federal participation in specific General Fund and other programs, increased by \$.8 billion during the fiscal year. Federal revenues in General Fund programs increased \$.5 billion, while Federal revenues in Motor License Fund programs were nearly flat. Investment income, also reported as part of operating grants and contributions, increased by \$.34 billion during the current fiscal year. Program charges for business-type activities increased by \$.1 billion, net, primarily because of increases in alcoholic beverage sales (\$.09 billion), lottery sales (\$.03 billion), tuition payment credit sales (\$.04 billion) and other programs, offset by decreases in unemployment compensation revenues (\$.2 billion), and state workers insurance program revenues (\$.05 billion). Operating grants and contributions for business-type activities increased by \$.2 billion largely due to increases in investment income (over \$.16 billion); Federal participation revenues were only slightly higher than the prior year.

For governmental activities, total expenses increased \$1.1 billion (less than 2.3 percent) largely because of significant increases in expenses for public education (\$.8 billion), and transportation (\$.7 billion). There were less significant increases in reported expenses for direction and supportive services (\$.4 billion, before the effects of the above-mentioned \$1.4 billion reporting change), health and human services (\$.3 billion) and economic development (\$.3 billion).

During the current fiscal year, total business-type activities revenues exceeded total expenses by \$0.6 billion; in the prior fiscal year, total revenues were \$1.2 billion higher than expenses. Including the effects of net transfers to other funds of \$.3 billion (\$.5 billion in the prior year), business-type activities net assets increased by \$.3 billion versus a \$.7 billion increase in the prior year. The primary reason for this increase was a \$.2 billion improvement in Unemployment Compensation Fund net assets. Current-year Fund revenues decreased \$257 million but expenses increased by \$76 million; this follows a net increase in net assets of \$.5 billion during the prior fiscal year.

Overall, expenses for business-type activities increased by \$.9 billion, a 14 percent increase over the prior fiscal year. Expenses for different programs increased as follows: state lottery (\$.4 billion), workers' compensation (\$.14 billion), tuition payment (almost \$.13 billion) and unemployment compensation (over \$.07 billion) during the current fiscal year. Net expenses for other programs increased almost \$.1 billion.

General Fund – economic factors during the fiscal year ended June 30, 2007

Continued weakness in the housing sector and escalating oil prices were two of the main factors that resulted in slower growth of the national economy during fiscal year 2006-07. Growth in real gross domestic product (GDP) finished at 2.5 percent for the fiscal year ended June 30, 2007, down from 3.4 percent for the prior fiscal year. Corporate profits, growth in wages and salaries and consumer expenditures were all lower during fiscal year 2006-07 than in the prior fiscal year. Economic growth proved erratic as said growth was 0.4 percent in the first quarter of 2007 but rebounded to reach 4.0 percent in the second quarter of 2007. Job growth continued during the fiscal year and the unemployment rate continued to drop throughout the fiscal year. Overall, economic conditions positively impacted state revenue growth, as revenues exceeded the budget estimate. These additional revenues were used in part to replenish portions of reserve funds and to support an increased demand for governmental goods and services, particularly in the area of health care costs.

Budgetary Comparison

Budgetary Comparison Schedules are included as required supplementary information for the General Fund and the Motor License Fund immediately following the Notes to the Financial Statements. Budgetary comparison schedules for nonmajor Special Revenue Funds are included as supplementary information following combining statements for Special Revenue Funds. These schedules provide a measurement of compliance with legally adopted budgets.

General Fund – budgetary basis – comparison between original budget and final budget

The Budgetary Comparison Schedule for the General Fund for the fiscal year ended June 30, 2007 is presented immediately following the Notes to the Financial Statements. In the Final Budget, State Program revenues were adjusted to include revenues received by fiscal year-end (but not included in the Commonwealth's official revenue estimate), in an amount equal to fiscal year 2006-07 supplemental appropriations passed on July 17, 2007 by Act 8A.

Final budgeted revenues for total state programs exceed the original budget by \$469 million. This increase includes a net \$204 million increase in tax revenues resulting from a \$197 million adjustment for supplemental appropriations referred to in the preceding paragraph and a \$50 million change in revenue refunds from original to final budget. The \$469 million increase also includes a net increase of \$222 million in departmental services revenue. This increase is attributable primarily to a \$520 million decrease in the Department of Public Welfare's Health Care Provider Retention program where original budgeted revenues were not realized, and transfers of \$418 million in augmenting revenues from the Motor License Fund for State Police protection of Commonwealth highways (in this case there is no true increase in funds available to the State Police).

The General Fund Schedule also discloses that the final budget includes \$638 million more expenditures than the original budget. The \$638 million increase includes \$427 million in state program expenditure increases and \$211 million of increased Federal participation in various programs. Of the \$427 million net state program difference, a \$498 million increase in Protection of Persons and Property expenditures results primarily from a \$418 million increase in spending authority for State Police protection of Commonwealth highways. Further, a \$66 million decrease in Public Education expenditures includes \$72 million reported as estimated augmentations in the original budget for the Pennsylvania Higher Education Assistance Agency for which no actual augmentations were received. Also, supplemental appropriations increased by \$20 million and Public Utility Realty Tax (PURTA) and the State Tax Equalization Board (STEB) were originally included as Original Budget amounts, but were later removed. The increase of \$211 million in Federal programs relates primarily to additional appropriations and executive authorizations passed or authorized throughout the fiscal year.

General Fund – budgetary basis – comparison between final budgeted and actual results

Actual budgetary State Program revenues exceeded the final budgeted State Program revenues by \$453 million. The \$453 million net increase results primarily from improving national and state economic conditions which exceeded expectations and produced a \$355 million increase in tax revenues and a \$78 million increase in investment income. Budgetary lapses for a variety of specific appropriations and executive authorizations in the amount of \$21 million were also posted to reduce State Program spending authority. Actual Federal revenues and corresponding expenditures were \$178 million lower than budgeted for the following agencies: Executive Offices, \$81 million; Public Welfare, \$37 million; Health, \$34 million; Education, \$12 million; and all other affected agencies, \$14 million.

Measurement focus and basis of accounting – governmental funds

The General Fund, special revenue, debt service and capital projects funds are reported using the current financial resources measurement focus and modified accrual basis of accounting. Under this measurement focus, only current assets and current liabilities are normally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets. Unreserved fund balance represents a measure of available, spendable resources. Under the modified accrual basis of accounting, governmental funds recognize revenue in the year that it becomes susceptible to accrual (both measurable and available) to pay current fiscal year liabilities. Grant revenues, including Federal government grant revenues, are recognized when earned. Revenue recognition from most other sources occurs at receipt. Recognition of expenditures generally occurs in the fiscal year the goods or services are received and the related fund liability is incurred. Debt service expenditures for principal and interest on general long-term obligations are recognized when due. Prepaid items and inventory purchases are reported as current fiscal year expenditures, rather than allocating a portion of related cost to the fiscal year when the items are actually used.

Expenditures for claims, judgments, compensated absences and employer pension contributions are reported as the amount accrued during the fiscal year that normally would be liquidated with expendable available financial resources.

Discussion of individual funds, balances, and transactions

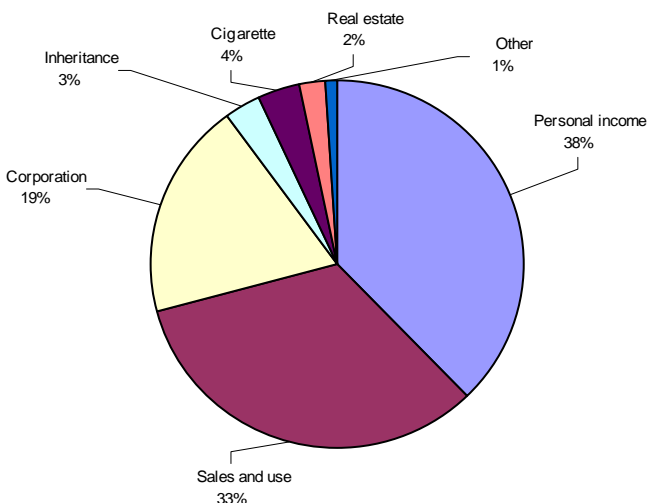

General Fund

Revenues and Other Financing Sources

The General Fund, the Commonwealth’s largest fund, accounts for 82 percent of the total governmental fund type revenues and other financial sources and 82 percent of the total governmental fund type expenditures. The General Fund collects 91 percent of the total tax revenues and is the primary funding source for most Commonwealth agencies. The charts depicted on this page and the following page present a comparison of the major types of revenues and expenditures reported in the General Fund. Taxes and intergovernmental revenues represent the largest sources of revenue, while health and human services and education represent the largest outflows or expenditures (amounts in millions).

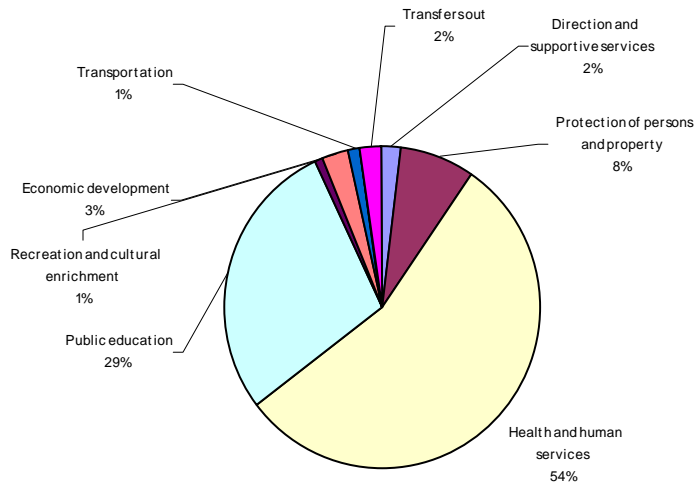

Tax Revenues

The largest significant source of tax revenue-net of refunds (\$25,992) is Personal Income Tax (PIT). Reported PIT (\$9,813) accounts for 38 percent of all taxes reported. Sales tax, which represents a tax on various items purchased by consumers, is the second largest category. Reported sales tax (\$8,614) accounts for 33 percent of all taxes reported. Corporate income tax, which represents different taxes (including the Corporate Net Income Tax and the Capital Stock/Foreign Franchise Tax) on various corporations, is the third largest category. Reported corporate income tax (\$4,976) accounts for 19 percent of all taxes reported. These three tax categories represent the Commonwealth’s largest own-source revenues. Although not available for the current year, prior year statistical information for these three tax categories is presented in the Revenue Capacity portion of the Statistical Section (amounts in millions).

The General Fund reported a total of \$43,350 in total expenditures (\$42,308) and other financing uses (\$946) during the fiscal year ended June 30, 2007. Expenditures for health and human services (\$23,574) accounted for 54 percent of all General Fund expenditures and other financing uses. Of these health and human services expenditures, 95 percent (\$22,443) were reported by the Department of Public Welfare. The second largest category, public education, accounts for 29 percent (\$12,372) of the reported expenditures. Of the public education expenditures, 92 percent (\$11,463) are reported by the Department of Education (amounts in millions). The following chart shows the percentages expended in each category:

Expenditures and Other Financing Uses

Condensed comparative General Fund balance sheets at June 30, 2007 and 2006 are as follows (amounts in millions):

	<u>2007</u>	<u>2006</u>	Increase (Decrease)	
			<u>Change</u>	<u>Percent</u>
Assets:				
Cash and investments.....	\$ 6,072	\$ 5,192	\$ 880	17%
Receivables, net.....	3,511	3,419	92	3%
Due from other funds/governments/advances/other.....	1,579	1,789	(210)	-12%

Due to other funds/governments/advances/other.....	1,113	1,178	(65)	-6%
Unearned revenue.....	2,014	1,896	118	6%
Total liabilities.....	<u>7,791</u>	<u>7,430</u>	<u>361</u>	5%
Fund Balance:				
Reserved.....	2,078	1,460	618	42%
Unreserved:				
Designated.....	924	720	204	28%
Undesignated.....	369	790	(421)	-53%
Total fund balance.....	<u>3,371</u>	<u>2,970</u>	<u>401</u>	14%
Total liabilities and fund balance.....	<u>\$ 11,162</u>	<u>\$ 10,400</u>	<u>\$ 762</u>	

During the fiscal year ended June 30, 2007, cash and investments increased by \$880 million (17 percent) compared to the prior year. This increase is attributed to three factors: 1) total liabilities increased \$361 million during the fiscal year, due to the timing of voucher payment requests involving ordinary vendors (\$194 million); tax refunds increased (\$63 million); and unearned revenue increased (\$118 million) because of the higher deferral of the unavailable portion of modified accrual taxes receivable; 2) the timing of cash collections during the fiscal year caused total receivables to decrease by \$118 million, net, and 3) aggregate revenues and other financing sources exceeded aggregate expenditures and other financing uses by \$401 million.

Fund balance reservations increased \$618 million primarily due to a \$405 million increase in restricted revenues and a \$367 million increase in the statutory Budget Stabilization Fund, which is reported as part of the General Fund. Offsetting these two increases was a \$139 million decrease in amounts reserved for encumbrances. Fund balance designations increased \$204 million, net, due primarily to changes in specific designations as follows: 1) increases: \$128 million increase for Commonwealth employee health benefits and life insurance, \$49 million for Public Welfare and medical assistance programs, \$35 million for State Police statewide radio project, \$25 million for job creation tax credits, \$14 million for judicial computer system and, 2) offsetting decreases: \$38 million for Corrections programs (which were new in the prior year) and \$23 million for volunteer fire companies programs (which were new in the prior year). Overall fund balance increased by \$401 million during the fiscal year ended June 30, 2007, and unreserved/undesignated fund balance decreased by \$421 million, as a result of the aforementioned increases in fund balance reservations and designations exceeding the overall fund balance increase of \$401 million.

Condensed, comparative, General Fund operating statements for the fiscal years ended June 30, 2007 and 2006 follow (amounts in millions):

General Fund tax revenues increased overall by 5 percent during the fiscal year ended June 30, 2007. Although most of the overall increase is attributable to economic growth, increases/decreases within several specific tax types were larger or smaller. Personal income tax (PIT) revenues rose by 8 percent - most of this growth occurred in estimated PIT tax types, that is, non-employer-withheld PIT. This growth can be attributed to strong capital gains that caused regular, quarterly PIT payments in April 2007 being 19.5 percent over April 2006. Overall corporation tax revenues increased by 3 percent due to strong corporate profit growth and both telecommunications and electric company gross receipts tax revenues that were higher than the prior year. However, these increases were offset by a scheduled decline in Capital Stock/Foreign Franchise Tax revenues due to the continuance of the capital stock and foreign franchise tax phase-out. Finally, cigarette tax revenues decreased by 5 percent due to a decline in consumption.

Charges for sales and services decreased by \$1.416 billion due almost exclusively to a \$1.411 billion decrease related to the reporting of cash receipts and disbursements related to Commonwealth employee benefit costs which are charged to Commonwealth agencies on a biweekly basis. Such cash receipts and disbursements were formerly reported on a 'gross' basis and reported as part of General Fund revenues (Charges for sales and services) and expenditures (Direction and supportive services). Intergovernmental revenues increased by \$498 million, net, resulting primarily from certain newer Federal programs and higher amounts accrued for certain Federal programs. Total General Fund revenues increased by \$590 million (1.36 percent) during the fiscal year.

Total General Fund expenditures increased by less than 1 percent during the fiscal year ended June 30, 2007, by \$284 million. Reported expenditures for direction and supportive services decreased by \$1,170 million, net, due primarily to 1) a \$1,378 million decrease related to the reporting of cash receipts and disbursements related to Commonwealth employee benefit costs which are charged to Commonwealth agencies on a biweekly basis. Such cash receipts and disbursements were formerly reported on a 'gross' basis and reported as part of General Fund revenues (Charges for sales and services) and expenditures (Direction and supportive services) and 2) on a net basis, other increases of \$208 million, including a higher expenditure posting (\$107 million) associated with intra-fund expenditure/transfer eliminations, higher Revenue Department (\$19 million) collection and enforcement efforts (including new expenditures for Gaming compliance) and higher interest payments on tax refunds/credits, and higher General Services Department (\$14 million) expenditures for structural repair/maintenance. Public education expenditures increased by \$706 million due primarily to increases in basic education (\$294 million), school employee retirement (\$114 million) and several other subsidies to school districts (\$298 million), including newer state-funded programs; net changes in higher education subsidies were not significant. Health and human services expenditures increased by \$402 million, caused by a higher aggregate need for child protection and development services, medical services, and income or cash grant assistance. Overall, Federal funding of health and human services declined by \$187 million and state funding increased by \$589 million during the fiscal year. Expenditures for economic development increased by \$247 million primarily because of 1) much higher budgetary control waivers (\$98 million), new programs (\$30 million), higher grant awards (\$10 million) and higher amounts appropriated (\$6 million) for the Community and Economic Development Department and 2) higher Labor and Industry Department expenditures for modernization and training programs (\$85 million).

Actual, final General Fund expenditures (budgetary basis) increased by 3.1 percent over the prior fiscal year, while revenues (budgetary basis) increased 2.8 percent.

Reported Transfers to the General Fund increased by \$112 million primarily because of 1) a \$70 million increase in the State Stores Fund profits transfer, 2) a new \$25 million transfer from the State Gaming Fund, and 3) a new \$17.5 million transfer from the Manufacturing Fund. Reported Transfers from the General Fund increased by \$119 million, net, mainly because of 1) a \$136 million increase to debt service funds, and 2) offsetting that increase, no current year transfer to Emergency Energy Assistance, which was over \$19 million in the prior year.

The overall increase in fund balance, \$401 million, during the fiscal year was \$300 million more than the prior fiscal year increase in fund balance \$101 million.

Motor License Fund

Condensed, comparative, financial statement information for the Motor License Fund is as follows (amounts in millions):

Description	2007		2006		Increase (Decrease)

Net change in fund balances.....	\$ (130)		\$ 272	\$ (402)		

Overall, total revenues increased by \$117 million during the fiscal year ended June 30, 2007; this represents a 3 percent increase over last fiscal year. The most significant factor in the increase was a \$47 million increase in investment income (Other revenues). The next largest factor was higher tax revenues (\$39 million). This represents a combination of decreased consumption in the current year (\$10.9 million less revenue) netted against the increase in the average wholesale gas and diesel price (affecting Oil Company Franchise Taxes) that took effect halfway through the prior year (\$43.7 million more revenue). Federal revenues increased \$35 million due to increases in certain Federally-reimbursable expenditures; reimbursement for flood-related costs from 2004 and 2006 floods, bridge construction, and highway maintenance alone totaled \$32.9 million.

On a net basis, the combination of Transportation (\$648 million increase) and Capital Outlay (\$253 million decrease) expenditures increased by \$395 million over the prior fiscal year. The Highway Maintenance and the Highway and Safety Improvements appropriations increased by \$357.5 million over last year with a large portion of that (\$255.8 million) attributable to road and bridge repairs and construction. This was due to a combination of damage from severe flooding in June and July of 2006 and the exceptionally good construction weather the remainder of the fiscal year. Two programs within the Highway Maintenance appropriation, Inventory Procurement and Maintenance and Operation of Equipment & Machinery, were affected by the rising costs of fuel and oil, with increases of \$31.7 million. Another program, Winter Traffic Services, was affected by the 2007 Valentine's Day snow storm. Snow removal and related highway/bridge treatments caused increases in payroll and equipment rental costs amounting to \$24 million.

The Motor License Fund includes State Police appropriations for highway patrols and other public safety functions, reported as part of Protection of Persons and Property expenditures; these increased by \$113 million, or 20 percent, over the prior last fiscal year. The largest portion of this increase, \$69.9 million is attributable to an increase in the state (employer) share of Retired State Police healthcare benefits, along with general salary increases. Also, a new appropriation this fiscal year, Additional State Troopers, caused additional expenditures of \$17 million. Accounts Payable increased by \$91 million, primarily as a result of overall increases in expenditures.

Tobacco Settlement Fund

Condensed, comparative, financial statement information for the Tobacco Settlement Fund is as follows (amounts in millions):

The year-over-year increase in cash and investments of \$196 million is due to 1) a \$90 million increase in the size of Treasury's Securities Lending program, 2) the successful active management of specific portfolios (investment income increased by \$54 million), and 3) the timing of reimbursements received from the Federal government. Other Liabilities decreased by \$39 million because of 1) a prior year \$29 million accrual for the PACE program, 2) a prior year \$6 million accrual for the Medical Assistance for Workers with Disabilities program (during the current fiscal year both of these items were remitted and posted), and 3) unearned revenue related to the Community Health Reinvestment (CHR) and Master Settlement Agreement (MSA) estimated receivables decreased by \$5 million.

During the fiscal year, CHR revenues decreased by \$44 million; \$135 million was collected in the prior year while only \$92 million was collected in the current year. CHR revenues are calculated based on the performance of the participating insurance companies. MSA revenues increased \$16 million; \$336 million was collected in the prior year compared to \$352 million in the current year. MSA revenues are based on tobacco product sales. The net year-over-year changes in both CHR and MSA programs caused a \$28 million decrease in Other Revenues. Protection of Persons and Property expenditures increased by \$32 million due to an increase in CHR expenditures for the Adult Basic Insurance Program administered by the Department of Insurance. Expenditures for Economic Development increased \$3 million due to expenditures for Life Science Greenhouses administration.

Measurement focus and basis of accounting – proprietary funds

The enterprise funds and internal service funds (proprietary funds) are reported using the economic resources measurement focus and the accrual basis of accounting. Under this measurement focus, all assets and liabilities associated with the operations of these funds are included on the statement of net assets. Under the accrual basis of accounting, revenues are recognized in the fiscal year earned, and expenses are recognized in the fiscal year incurred. Enterprise funds that report loan, insurance and tuition payment programs report most revenues as operating revenues; non-operating revenues are reported for other programs and include grant revenues and all investment income. Four enterprise funds are reported as major funds and are discussed below (amounts in millions).

Unemployment Compensation Fund

During the fiscal year ended June 30, 2007, employer assessment revenues decreased by \$200 million based, mostly, on the overall employer tax rate dropping from 5.4 percent in fiscal years ended 2005 and 2006 to 5 percent during the current fiscal year. The employer tax rate is established by the Department of Labor & Industry’s Unemployment Compensation Tax Services Unit. This rate is based on an employer’s experience. Experience is computed using a formula that takes into account how much unemployment benefits an employer was charged versus how much unemployment taxes were paid over the last three years for that particular employer. New employers are given a base rate. Businesses that experience a higher percentage of layoffs, such as construction, are assessed a higher rate compared to businesses that do not have as many layoffs. The reason the rate has dropped is due to the balance maintained in Pennsylvania’s Trust Fund (a component of the overall Fund). Once the balance rises to a certain amount, a solvency ‘trigger’ causes the employer tax rate to drop. Currently the average rate is on a downward trend, which is why fewer employer assessments are being collected.

Although layoffs actually decreased during the current fiscal year, expenses for unemployment compensation benefit claims increased by \$76 million during the fiscal year. The average benefit payment increased based on inflationary factors; the average benefit payment is based on average wages. Since wages have increased, so have benefit payment amounts. Also, during calendar years 2005 and 2006, a 2.3 percent benefit reduction was in place. This reduction ended with the beginning of calendar year 2007, which also explains the increase in benefit payments.

Overall revenues exceeded expenses by \$243 million, exactly matching the net increase in total assets during the fiscal year, compared to \$506 million during the prior fiscal year.

Investment income was reported as operating revenues for the fiscal year ended June 30, 2006 and was reported as nonoperating revenues for the fiscal year ended June 30, 2007.

State Workers' Insurance Fund (December 31, 2006)

During calendar year 2006, reported year over year premium revenue (Sales and Services) decreased from \$427 million to \$374 million. A review of application statistics shows that new applications are up by 1 percent from 2005 (17,603 vs. 17,457) while renewals are down 6 percent (41,485 vs 44,198). These statistics also indicate that private insurance carriers are beginning to provide coverage that they have not recently been providing and that a continuing decline in applications for benefits can be expected. Insurance loss liability increased as a result of SWIF's experience and changes to actuarial assumptions. Investment income increased due to realized gains on sales of investments and relatively higher investment fair values. Investment income was reported as operating revenues for the prior year and was reported as nonoperating revenues for the current year.

State Lottery Fund

Condensed, comparative, financial statement information for the State Lottery Fund is as follows (amounts in millions):

During the fiscal year ended June 30, 2007, the relatively small year-over-year increase in overall sales (\$29 million) was primarily attributable to increased Instant Game sales of \$119 million and increased online sales of \$58 million. The increase in on-line sales was the result of new games: Mix & Match and Treasure Hunt. Those increases were offset by decreases in online sales of Powerball/Powerplay (\$122 million) and Lucky for Life (\$13 million). The increase in cash and investments of \$121 million was primarily the result of a transfer from the Gaming Fund, which is described in the following paragraph. Cost of sales and services increased by \$396 million; much of this increase (\$248 million) was related to the initiation of the Medical Assistance – Long Term Care program. This program was administered by the Department of Public Welfare and provided a continuum of services that ranged from at-home independent living with community support to institutional care.

Transfers in from other funds increased by \$100 million; funding was transferred from the Gaming Fund to help meet the requirements of the expansion of the Property Tax Rent Rebate (PTRR) program. This program was administered by the Department of Revenue and was significantly expanded by Act 1 of Special Session 1 of 2006. The Act expanded both the population of citizens who are eligible for the rebate and the dollar amount of the rebate. The Gaming Fund was required to reimburse the Lottery Fund for the PTRR program expansion. This expansion increased expenses by \$195 million. Implementation of the Federal Medicare Part D program pharmacy benefit reduced demand for the Pharmaceutical Assistance Contract for the Elderly (PACE) program. This, in turn, reduced the amount of transfers out from the Lottery Fund to the PACE Fund by \$176 million.

Tuition Payment Fund

Condensed, comparative, financial statement information for the Tuition Payment Fund is as follows (amounts in millions):

Description	2007		2006		Increase (Decrease)

Increase in net assets.....	\$ 52		\$ 50	\$ 2		

Net assets increased by \$2 million during the fiscal year, resulting in total net assets of \$52 million at June 30, 2007, from \$50 million at June 30, 2006. The Fund is 104 percent funded at June 30, 2007, compared to 101 percent funded at June 30, 2006.

Total revenues for the current fiscal year were \$132 million more than the total revenues for the prior fiscal year. Increases in tuition credit purchases of \$37 million and increases in investment earnings of \$95 million accounted for the majority of the increased revenues between the two fiscal years. The increase in revenue was offset by an increase in total expenditures of \$130 million. Increases of \$123.1 million for tuition benefit expenses account for the majority of increased expenses.

The fair value of the Fund's net investments (short-term and long-term investments net of securities lending investments) increased to \$1,295 million at June 30, 2007, from \$1,094 million at June 30, 2006. Effective September 26, 2006, the Fund initiated a limited partnership agreement with GKM Newport Pennsylvania Fund I, L.P. with a total commitment of \$60 million at June 30, 2007. The purpose of the new investment vehicle was to enhance investment returns and improve the overall performance of plan assets. Tuition benefits payable increased to \$1,231 million at June 30, 2007 from \$1,078 million at June 30, 2006.

Actual payments to educational institutions increased to \$94.6 million in the June 30, 2007 fiscal year from \$74.8 million in the June 30, 2006 fiscal year as 10,047 beneficiaries used 240,002 credits in the current fiscal year compared to 8,544 beneficiaries using 203,347 credits in the prior fiscal year.

Investment income was reported as operating revenues for the fiscal year ended June 30, 2006 and was reported as nonoperating revenues for the fiscal year ended June 30, 2007.

Capital asset activity during the fiscal year ended June 30, 2007

Throughout the fiscal year, Commonwealth agencies acquire or construct capital assets. In governmental fund statements, expenditures for capital assets are typically reported as capital outlay. Funding for a significant portion of capital asset acquisition is provided by proceeds of general obligation bonds issued; such proceeds are generally accounted for in the capital projects funds in the funds financial statements as an other financing source. In the government-wide statements, bond proceeds are reported as additions to long-term bond liabilities and completed project expenditures and construction in progress at fiscal year end are reported as part of general capital assets. Construction in progress for Department of General Services (public works) and Department of Transportation (highway and bridge) projects at June 30, 2007 amounted to \$0.4 and \$1.8 billion, respectively. Authorized but unissued general obligation bonds at June 30, 2007 totaled \$57.2 billion.

General capital assets of the Commonwealth are those used in the performance of specific governmental functions during more than one fiscal year. Capital assets of the proprietary funds are reported in both fund statements and in government-wide statements. Fiduciary fund capital assets are reported in fund statements; fiduciary funds are not included in government-wide statements. General capital assets as of June 30, 2007 amounted to \$23.8 billion at actual or estimated historical cost, net of accumulated depreciation of \$12.6 billion. In the government-wide statements, depreciation expense for all capital assets is reported to recognize the cost of "using up" capital assets over their estimated useful lives. This treatment differs from reporting capital outlay as current year expenditure in governmental funds. Highway and bridge infrastructure assets are typically funded with Motor License Fund taxes, license and registration fees and Federal revenues. The Motor License Fund reports transportation and capital outlay expenditures in fund statements; a portion of such expenditures is reported as additions to capital assets in government-wide statements. Depreciation of highway and bridge infrastructure assets is not related to the quality or relative value of these assets; rather, it is a specific accounting treatment to recognize the cost of "using up" the assets over long periods of time (25 years for highways and 50 years for bridges.) Depreciation is an allocation of an asset's cost over its estimated useful life and is reported in government-wide statements. Note E to the financial statements provides more information on capital asset activities during the fiscal year ended June 30, 2007.

Long-term debt activity during the fiscal year ended June 30, 2007

The constitution of the Commonwealth of Pennsylvania permits the incurrence of debt, without approval of the electorate, for capital projects specifically authorized in a capital budget. Capital project debt outstanding cannot exceed one and three quarters (1.75) times the average of the annual tax revenues deposited in all funds during the previous five fiscal years. The certified constitutional debt limit at August 31, 2007 was \$51.3 billion. Outstanding capital project debt at August 31, 2007 amounted to \$6.9 billion, for a remaining legal debt margin of \$44.4 billion. In addition to constitutionally authorized capital project debt, the Commonwealth may incur debt for electorate-approved programs, such as economic revitalization, land and water development, water facilities restoration, and certain environmental initiatives; and for special purposes approved by the General Assembly, such as disaster relief.

Total general obligation bond indebtedness outstanding at June 30, 2007 was \$8.246 billion. Total debt service fund transfers paid from General Fund and Motor License Fund appropriations to make principal and interest payments to bondholders during the fiscal year ended June 30, 2007 amounted to \$849 million and \$41 million, respectively. The table that follows shows total outstanding long-term indebtedness for general obligation bonds at the end of the eight most recent fiscal years (expressed in billions).

<u>At June 30</u>	<u>Outstanding Bond Indebtedness</u>
2000	\$ 5.367
2001	5.545
2002	6.072
2003	7.031
2004	7.225
2005	7.151
2006	7.658
2007	8.246

Note K to the financial statements provides more specific details on long-term debt balances and activity during the fiscal year ended June 30, 2007.

Debt administration – fiscal year ending June 30, 2008

During the fiscal year ending June 30, 2008, the Office of the Budget currently plans general obligation bond issuances, excluding refundings, amounting to \$981 million, a decrease of \$92 million as compared to actual bond issuances of \$1,073 million, excluding refundings, during the fiscal year ended June 30, 2007. This plan reflects the need to make continued investments in the Commonwealth's capital infrastructure, local capital projects and mass transportation. Additionally, a significant portion of the projected issuances for the 2008 fiscal year is attributable to two major environmental programs which would target capital improvements to water supply and sewage treatment facilities associated with economic development, as well as, general environmental capital improvement projects. Debt principal retirements of \$555.3 million are currently planned for the fiscal year ending June 30, 2008.

The Commonwealth continues to evaluate refunding opportunities for its outstanding bonds to reduce interest costs. During the fiscal year ended June 30, 2007, the Commonwealth closed a refunding issue that refunded \$239 million of outstanding bonds and will produce \$14 million of interest savings over the remaining life of those bonds. As market conditions provide additional opportunities, the Commonwealth may pursue additional refundings.

In addition to general obligation bonds, the Commonwealth may issue tax anticipation notes to meet operating cash needs during certain months of the fiscal year. Tax anticipation notes may be issued only for the General Fund and the Motor License Fund. They may not exceed 20 percent of the funds' estimated revenues for the year and must mature during the fiscal year in which they were issued. Cash shortages may occur during the fiscal year because tax receipts, unlike cash disbursements, are concentrated in the last four months of the fiscal year. The Commonwealth has not issued tax anticipation notes during the past ten fiscal years and has no plans to issue any during the 2008 fiscal year. There were no changes in credit ratings, and there were no debt limitations, restrictions or commitments during the fiscal year ended June 30, 2007 that may affect the Commonwealth's plans during the fiscal year ending June 30, 2008.

Legislative changes during fiscal year 2007-2008

During the fiscal year that began July 1, 2007, the legislature approved several new laws which are expected to change the Commonwealth's financial position in the future.

Act 44, signed July 18, 2007 provides for a new system of funding public transportation and highway and bridge repair in Pennsylvania. On average, the new law will make \$532 million available annually over the next 10 years to fund state and local road and bridge repairs and \$414 million available to support the 73 public transit systems that provide more than 400 million rides a year to residents in all of Pennsylvania's 67 counties. The new transportation funding law replaces a patchwork transit funding system with the new Public Transportation Trust Fund, which will be funded by sales and other taxes, lottery proceeds and amounts from the Pennsylvania Turnpike Commission.

Act 45, signed July 20, 2007 contains the enabling legislation for a number of important education initiatives funded in Act 8A, the General Appropriations Act of 2007 including: \$75 million for the Pre-Kindergarten Counts program, \$6 million for School Nutrition Incentives, \$20 million additional Accountability Block Grant funds to promote Full-Day Kindergarten. The Act also includes the enabling legislation for the basic education subsidy which will provide \$4.9 billion to local school districts. There is also an increase in the Education Improvement Tax Credit which will reduce tax revenues by \$16 million during the fiscal year ending June 30, 2008.

Act 55, signed July 25, 2007 amends the Tax Reform Code to make a number of changes including 1) the creation of a Film Tax Credit and the Resource Enhancement and Protection Tax Credit, 2) the treatment of credit losses (bad debts) for the purposes of calculating certain taxes and 3) various other revisions to the Tax Reform Code. The estimated tax revenue decrease for all changes included in Act 55 is approximately \$50 million for the fiscal year ending June 30, 2008.

General Fund fiscal year 2007-2008 budget

The General Fund's fiscal year ending 2008 enacted budget increases General Fund expenditures by \$864 million, or 3.3 percent. Major increases include education funding at \$597.2 million, or 5.5 percent, public welfare funding at \$358 million or 3.8 percent, and corrections institutional funding at \$18 million or 12.7 percent. In education, the Basic Education appropriation is increased \$167.2 million or 3.5 percent and Special Education funding is increased by \$54.7 million or 4.3 percent. The new Pre-Kindergarten Counts program provides \$75 million to expand early learning

opportunities. Classrooms for the Future provides a \$70 million increase in funding for technology in high schools. Additionally, the Pennsylvania Accountability Block Grant to school districts is increased by \$25 million to \$275 million annually and the Commonwealth's contribution to the Public School Employees' Retirement System is increased \$68.4 million in the fiscal year ending 2008.

In public welfare, cost savings initiatives hold the line on increases in some medical assistance funding; however long term living costs increase by \$67 million or 9.7 percent. The Cover All Kids program, providing the second year of expanded access to affordable health care for uninsured children, funds an enrollment increase of 10 percent at a cost increase of \$16 million.

Funding for administration of state government maintains efficient and effective operations at minimal increases, totaling 2.3 percent less than the fiscal year 2002-03 costs. Cost reductions in the General Fund include non-recurring funding for certain grant programs and disaster relief programs.

Management's discussion and analysis is intended to enhance the reader's understanding of the basic financial statements, which immediately follow. This supplementary information should be read in conjunction with the government-wide financial statements, the fund financial statements and the notes to financial statements.

**RECONCILIATION OF THE BALANCE SHEET
GOVERNMENTAL FUNDS TO THE STATEMENT OF NET ASSETS**

June 30, 2007

**COMMONWEALTH OF PENNSYLVANIA
(Expressed in Thousands)**

The governmental funds balance sheet reports total fund balance for all governmental funds. In the governmental activities column in the Statement of Net Assets, amounts are reported for all governmental funds and are adjusted to account for specific items that are treated differently on the Statement of Net Assets than on the governmental funds balance sheet. Under the modified accrual basis of accounting, numerous governmental assets are not reported because they may not be "available," (that is, they are not current financial resources) and, similarly, numerous governmental liabilities are not reported because they are not due and payable until after fiscal year end. The following reconciliation begins with total governmental funds fund balance and ends with total net assets for governmental activities. It includes all of the adjustments made to "convert" governmental fund information in the fund financial statements to governmental activities information in the Statement of Net Assets.

Total Fund Balances--Governmental Funds..... \$ 8,525,717

General capital assets used in governmental activities are not financial resources and are therefore not reported in the governmental funds balance sheet. (Refer to Note E.)
These assets consist of:

Land.....	\$ 1,998,687	
Land improvements.....	477,506	
Buildings and building improvements.....	5,481,642	
Machinery and equipment.....	744,506	
Infrastructure.....	25,560,332	
Construction in progress.....	2,200,232	
Accumulated depreciation.....	<u>(12,638,726)</u>	
Net general capital assets.....		23,824,179

Certain revenues are earned but not available at fiscal year-end and therefore are reported as unearned revenues in the governmental funds balance sheet..... 2,161,971

Certain receivables are not reported as governmental fund assets because they are not collected during the availability period under the modified accrual basis of accounting..... 324,550

Internal service funds are proprietary in nature and charge the costs of certain goods and services to governmental funds. Therefore, the assets and liabilities of the internal service funds are included in the Statement of Net Assets as governmental activities..... 73,831

The Statement of Net Assets includes inventories that are not reported in the governmental funds balance sheet because they are not current financial resources..... 77,504

Certain general long-term liabilities are not due and payable at fiscal year-end and therefore are not reported in the governmental funds balance sheet. (Refer to Note K.)
These liabilities are:

Bonds payable.....	\$ (8,245,673)	
Accrued bond interest payable.....	(143,048)	
Capital lease and installment purchase obligations.....	(40,649)	
Compensated absence liability.....	(691,100)	
Self-insurance liabilities.....	(758,693)	
Other liabilities.....	(711,738)	
		<u>(10,590,901)</u>

Total Net Assets---Governmental Activities..... \$ 24,396,851

- The notes to the financial statements are an integral part of this statement. -

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES-GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Fiscal Year Ended June 30, 2007

COMMONWEALTH OF PENNSYLVANIA
(Expressed in Thousands)

The governmental funds Statement of Revenues, Expenditures and Changes in Fund Balances reports events and activities that affect, on a current financial resources basis, fund balance changes during the fiscal year. The governmental activities column on the government-wide Statement of Activities conveys information on an economic basis. In effect, the government-wide statement demonstrates all expenses and revenues related to the operation of the government for the fiscal year ended June 30, 2007. Expenses such as depreciation and certain claims and judgments and revenues that may not be collected for several months after fiscal-year end are included in the government-wide statement but are not included in the governmental funds statement. This reconciliation reports all economic events during the fiscal year that appear on the government-wide Statement of Activities but are not included in the governmental funds statement.

Net change in total fund balances of governmental funds..... \$ 875,835

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported as expenditures in governmental funds; however, in the government-wide statements capital outlays are reported as increases in capital assets (not expenses) and the cost of general capital assets is allocated over their estimated useful lives and reported as depreciation expense. All depreciation is reported as part of functional program expenses. (Refer to Note E) The current amounts were:

Capital asset acquisitions (net).....	\$ 2,131,495	
Depreciation expense.....	(998,468)	
Capital lease, installment purchase and related payments.....	<u>3,146</u>	
Net excess of capital asset additions/installment purchase payments over depreciation expense.....		1,136,173

Bond proceeds provide current financial resources to governmental funds; however, issuing bonds increases general long-term liabilities in the statement of net assets. During the current fiscal year, proceeds were received from:

General obligation bonds, including a premium/discount of \$54,673.....	\$ (1,062,779)	
Refunding bonds, including a premium of \$3,336.....	<u>(253,892)</u>	
Total bond proceeds		(1,316,671)

Repayment of general long-term liabilities is reported as an expenditure in governmental funds, but the repayment reduces general long-term liabilities in the statement of net assets. During the current fiscal year, these amounts consisted of:

Bond principal retirement.....	\$ 521,773	
Payments to refunded bond escrow agent.....	<u>253,892</u>	
Total long-term debt repayment.....		775,665

Internal service funds charge the costs of certain goods and services to individual funds. The net loss of the internal service funds is reported as part of governmental activities expenses..... (34,880)

Certain tax and other revenues due by fiscal year end will not be collected for several months or years after fiscal year end; they are not considered available revenues in the governmental funds, but they are reported as revenues in the statement of activities..... 167,245

Certain expense adjustments are reported in the statement of activities because they are due and payable and are funded with future economic resources rather than current available financial resources..... 201,522

Net change in governmental net assets in the statement of activities..... \$ 1,804,889

- The notes to the financial statements are an integral part of this statement. -

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**Basis of Presentation**

The basic financial statements of the Commonwealth of Pennsylvania have been prepared in accordance with accounting principles generally accepted in the United States applicable to governments. The Governmental Accounting Standards Board (GASB) establishes accounting and financial reporting requirements for governments.

Government-Wide Financial Statements

Government-wide financial statements report financial position and results of activities for the Commonwealth of Pennsylvania as a whole. Separate columns are presented for governmental and business-type activities within the primary government (defined below) and discretely presented component units. The Statement of Net Assets reports all economic resources (assets) and all liabilities for the primary government of the Commonwealth. The Statement of Activities reports the total cost of providing governmental services, by function, net of related program revenues, and, after including general revenues, reports whether the total net assets of the government increased or decreased during the fiscal year ended June 30, 2007. The government-wide financial statements do not include any fiduciary fund assets, liabilities or activities for the primary government or component units (defined below) that are fiduciary in nature. Governmental activities within government-wide financial statements include specific balances and transactions related to Internal Service Funds that are reported as proprietary funds in fund financial statements. Business-type activities include information for all Enterprise Funds.

Financial Reporting Entity

Government-wide financial statements include separate columns and/or rows for the primary government and discretely presented component units. Fiduciary component unit balances are reported in the Statement of Fiduciary Net Assets and combining statements for all discretely presented component units are presented following fund financial statements as a Statement of Net Assets and a Statement of Activities.

Primary Government: For financial reporting purposes, the Commonwealth of Pennsylvania is a primary government (PG). The PG includes all publicly elected members of the executive, legislative, and judicial branches of the Commonwealth. The PG also includes all Commonwealth departments, agencies, boards, and organizations that are not legally separate.

Component Units: In addition to the PG, the financial reporting entity includes discretely presented component units. Component units include all legally separate organizations for which the PG is financially accountable, and other organizations for which the nature and significance of their relationship with the PG are such that exclusion would cause the financial statements to be misleading or incomplete. The criteria used to define financial accountability includes appointment of a voting majority of an organization's governing body and (1) the ability of the PG to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the PG. Fiscal dependency is also considered. The following organizations are included in the financial reporting entity as component units, either by discrete presentation or as a Fiduciary Fund:

State Employees' Retirement System (SERS) (Fiduciary Fund) - The SERS is a public employee retirement system that covers Commonwealth employees. The PG appoints all voting board members and, on a very limited basis, imposes its will on the SERS. The PG uses the SERS to provide pension benefits to PG employees. The PG makes essentially all employer contributions to the SERS; PG employees make almost all of the employee contributions to the SERS (virtually all PG employees are required to join the SERS). The PG is responsible for all of the SERS pension obligations. The SERS provides services and benefits almost exclusively to the PG. The SERS administers both a defined benefit plan and a defined contribution plan. The defined benefit plan is funded through a combination of employee contributions, employer contributions and investment earnings. The defined contribution plan is funded by voluntary employee contributions and investment earnings. The SERS is reported for its fiscal year ended December 31, 2006.

State Public School Building Authority (SPSBA) and Pennsylvania Higher Educational Facilities Authority (PHEFA) - The SPSBA and the PHEFA issue limited obligation revenue bonds, the proceeds of which are used to finance the construction of facilities for school districts and public/private colleges and universities. These bonds are repaid solely from lease/loan payments from the schools. The PG appoints all nine voting members of the SPSBA and the PHEFA governing boards; nine high-ranking members of the PG serve as ex-officio members of each board. As a result, the PG is able to impose its will. The PG's Department of Education approves the SPSBA projects (which indicates imposition of will and fiscal dependency). Neither the PG nor the Authorities are obligated for debt service payments (beyond lease/loan payments from schools).

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Ben Franklin Technology Development Authority (BFTDA) - Similar to the predecessor Ben Franklin/IRC Partnership, the BFTDA promotes economic development through interaction of technology development, modernization and training programs. Industrial resource centers and technology centers, established through the BFTDA, also increase Pennsylvania business competitiveness. The BFTDA works closely with the Department of Community and Economic Development (DCED) and includes a Revolving Loan Program. The PG appoints all 21 voting members of the governing board. The PG may appropriate funding for the BFTDA from the **General Fund**.

Port of Pittsburgh Commission (PPC) - The PPC promotes economic development throughout waterways in southwestern Pennsylvania by constructing and/or financing transportation and recreation facilities. The PG appoints all 15 voting members of the governing board and can remove board members at will. The PG provides funding for the PPC but is not required to do so.

Insurance Fraud Prevention Authority (IFPA) - The IFPA assists in the prevention, discovery, investigation and prosecution of insurance fraud. The IFPA is funded through assessments paid by the insurance industry and through certain criminal and civil fines, penalties and awards. The PG appoints six of seven voting members of the IFPA governing board; the Attorney General serves ex-officio as one of these six members. A significant portion of IFPA expenditures funds the Section on Insurance Fraud in the Office of Attorney General; this indicates a financial benefit/burden. The IFPA is not fiscally dependent on the PG.

Philadelphia Shipyard Development Corporation (PSDC) - The PSDC was created as a nonprofit corporation to assist the PG and other governmental entities in financing a shipbuilding facility at the former Philadelphia Naval Shipyard. The PSDC obtains funding from the PG and a variety of other governmental sources to fund development, construction and job recruitment and training costs. The PG appoints three of five voting board members and provides a significant portion of funding for the PSDC. The PSDC is reported for its fiscal year ended December 31, 2006.

Philadelphia Regional Port Authority (PRPA) - The PRPA operates a port facility and manages port-related activities to promote commerce and economic development in southeastern Pennsylvania. The PRPA charges rental and other fees to port users and obtains other funding from the PG. The PRPA also issues revenue bonds to finance its activities. The PG appoints all eleven voting board members and can remove board members at will. The PG provides operating and capital subsidies and pays rent in amounts equal to PRPA debt service requirements. The PRPA is fiscally dependent on the PG, as the Governor must approve the issuance of its debt.

Pennsylvania Higher Education Assistance Agency (PHEAA) - The PHEAA makes grants and loans to students to help fund the cost of higher education. Lending institutions and post-secondary schools are involved in the loan program. The PG funds the PHEAA grant program; the PHEAA issues revenue bonds to fund the student loan program. Revenue bonds are repaid from student loan repayments. The PHEAA also services student loan portfolios for lending institutions. The PG appoints all 20 voting board members but does not significantly impose its will on the PHEAA. A significant PG financial burden exists through subsidizing the grant program; also, although the PG is not obligated for the PHEAA revenue bonds, the PG could take certain actions to satisfy bondholders. The PHEAA is fiscally dependent, as the Governor must approve the issuance of its debt.

Pennsylvania Housing Finance Agency (PHFA) - The PHFA makes loans to eligible individuals and organizations to purchase or construct housing. The loans benefit older adults, persons of modest means, persons with disabilities, and low and moderate-income individuals and families. The PG appoints all voting board members; four of the fourteen members may be removed at will. The Secretary of Banking, the Secretary of Community and Economic Development, the Secretary of Public Welfare, and the State Treasurer serve as ex-officio members. The Governor is required to request an appropriation from the General Assembly for the PHFA whenever a deficiency exists in the capital reserve account or if additional funds are needed to avoid a default on the PHFA debt. This represents a PG moral obligation for the PHFA debt. The Governor must approve the issuance of the PHFA debt.

Patient Safety Trust Authority (PSTA) - The PSTA is charged with taking steps to reduce and eliminate medical errors by identifying problems and recommending solutions that promote patient safety in hospitals, ambulatory surgical facilities and birthing centers. The Board of Directors has 11 members: the Pennsylvania Physician General, who serves as the Board chair, six members appointed by the Governor representing specific professional occupations, and four members appointed by the General Assembly. The Pennsylvania Department of Health determines whether or not PSTA recommendations will be adopted, establishing PG imposition of will; further, the enabling legislation limits the amount of assessments PSTA charges medical facilities to fund PSTA activities.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Pennsylvania Industrial Development Authority (PIDA) - The PIDA collaborates with local industrial development corporations to make loans that help preserve or expand the work force, assist targeted economic areas or assist specific companies. Loans are made at lower-than-market interest rates; the interest rates are based on local unemployment and other economic conditions. The PIDA issues revenue bonds to finance the loan program. Loan repayments are used for debt service payments. The PIDA operates closely with the DCED. The PG appoints all voting board members and is able to impose its will on the PIDA. The PG has provided contributed capital; "excess" PIDA funds are transferred to the **General Fund**. The PG is not obligated for the PIDA debt, but the PG could take certain actions to satisfy bondholders.

Pennsylvania Infrastructure Investment Authority (PENNVEST) - The PENNVEST makes grants and low-interest loans to local governments and authorities, businesses and nonprofit organizations for the construction, improvement, repair or rehabilitation of drinking and waste water systems. The PENNVEST obtains funds through Commonwealth general obligation bond proceeds (approved by referendum), revenue bonds, the Federal government and contributed amounts from Commonwealth funds. Loan repayments finance the PENNVEST debt service costs. The PENNVEST operates closely with the Department of Environmental Protection. The PG appoints all voting board members; there are limitations on three of the thirteen appointments. By issuing general obligation debt and providing the proceeds to the PENNVEST as contributed capital, the PG creates a significant financial burden. The PG is not obligated for the PENNVEST debt, but the PG could take certain actions to satisfy bondholders. Upon dissolution, the assets of the PENNVEST revert to the Commonwealth.

Pennsylvania Turnpike Commission (PTC) - The PTC was created to construct, maintain and operate a turnpike system in the Commonwealth. Activities are financed through user tolls and the issuance of revenue bonds. Debt service payments are funded through user tolls. The PTC works closely with the Department of Transportation. The PG appoints all voting members. When all the PTC bondholders have been satisfied, the PTC assets revert to the Department of Transportation. The Governor must approve the issuance of all PTC debt. The PG is not obligated for PTC debt, but the PG could take certain actions to satisfy bondholders. The PTC is reported for its fiscal year ended May 31, 2007.

State System of Higher Education (SSHE) - The SSHE was created to provide instruction for postsecondary students. The SSHE is composed of fourteen universities and an administrative headquarters. Resources are provided by student tuition, grants and PG subsidies. The PG appoints all 20 voting board members, which in turn appoint the university presidents and chancellor. Five of the appointments must be trustees of universities; three must be students. The PG provides significant operating and capital subsidies to the SSHE. The PG is not obligated for the SSHE debt, but the PG could take certain actions to satisfy bondholders.

Commonwealth Financing Authority (CFA) - The CFA administers and funds economic stimulus programs; the programs offer financial assistance through loans, grants, guarantees, sales, leases, investments, lines and letters of credit, and other authorized financial arrangements. The PG appoints the four voting members of the Board of Directors and may remove these members at will. The Secretary of Community and Economic Development, Secretary of the Budget, and Secretary of Banking serve as ex-officio members of the Board. The CFA is authorized to issue limited obligation revenue bonds and other types of limited obligation revenue financing. The bonds are payable solely from CFA revenues or funds appropriated to the CFA by the Commonwealth. While the enabling legislation provides that CFA bonds are not a debt or obligation of the Commonwealth, it is anticipated that **General Fund** appropriations will be required to support the annual debt service cost on CFA debt. The CFA is fiscally dependent on the PG, as the Secretary of the Budget must certify that the **General Fund** can support any appropriations needed to pay the debt service payments or costs incurred in any bond issuance.

Thaddeus Stevens College of Technology (College) - Founded in the early twentieth century, the College was financially reported as part of the PG through and including the fiscal year ended June 30, 2003. Legislation effective July 1, 2003 amended the Board of Directors to a body politic and corporate constituting a public corporation, making the College an entity legally separate from the PG. The Governor, with the advice of the Senate, appoints nine members of the Board, and the Secretary of Education serves as an ex-officio member. Although the PG selects the members of the Board, the members have great latitude to manage the College subsequent to their appointment. The PG has some ability to influence the structure or content of the College's budget through overview of the Department of Education. The College presents a financial burden to the PG, as the PG appropriates monies for College operations.

Pennsylvania Life and Health Insurance Guaranty Association (PLHIGA) (Fiduciary Fund) - The PLHIGA was created to protect insurance policy owners, insured persons, beneficiaries, annuitants, payees and assignees of direct non-group life, health, annuity and supplemental policies or contracts from potential insurer failure due to the impairment or insolvency of the insurer. The PLHIGA guarantees the payment of insurance benefits and continuation of coverage by assessing member insurers. The PLHIGA is also authorized to assist the Pennsylvania Insurance Commissioner in the prevention and detection of

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

insurer impairments or insolvencies. The PG has appointment approval authority for all governing board members and the Insurance Commissioner has broad authority to impose will on the PLHIGA. There is a minor financial burden on the PG. The PLHIGA is reported for its fiscal year ended December 31, 2006.

Pennsylvania Property and Casualty Insurance Guaranty Association (PPCIGA) (Fiduciary Fund) - The PPCIGA was created to provide for the payment of insured property and casualty policy claim losses and to avoid losses to claimants or policyholders as a result of insurer insolvency. The PPCIGA guarantees the payment of insurance benefits and continuation of coverage by assessing member insurers. The PG has appointment approval authority for all governing board members and the Insurance Commissioner has broad authority to impose will on the PPCIGA. There is a minor financial burden on the PG. The PPCIGA is reported for its fiscal year ended December 31, 2006.

Public School Employees' Retirement System (PSERS) (Fiduciary Fund) - The PSERS was created to administer and provide pension benefits to public school employees in Pennsylvania. The PSERS covers almost all such employees. Covered elementary and secondary school employers make employer contributions with the PG reimbursing each employer at least half their required annual contribution. Employer contributions for covered employees of higher education institutions and covered employers and the PG share state-owned schools equally; all covered public school employees also contribute. The PG appoints eight of fifteen voting board members; the seven other members are appointed by active or retired public school employees or are appointed by public school boards. In addition to making significant contributions to the PSERS, the PG guarantees the payment of all annuities and other pension benefits. This represents a compelling PG financial burden.

Pennsylvania Economic Development Financing Authority (PEDFA) - The PEDFA was created to lend money primarily to businesses to promote economic development in the Commonwealth. The PEDFA issues revenue bonds to fund specific projects only and repayments are derived solely from project revenues. The debt is considered non-recourse, as the Authority is not obligated to bondholders beyond amounts received by the Authority from the funded projects. Financial statement information for the PEDFA is not reported because its only activity involves conduit debt. The PG appoints all sixteen board members; five members are ex-officio. The PG is not obligated for the PEDFA debt, but the PG could take certain actions to satisfy bondholders. Upon dissolution, the assets of PEDFA revert to the Commonwealth.

Pennsylvania Energy Development Authority (PEDA) - The PEDA was created to promote the development of energy sources within the Commonwealth. The PEDA issued revenue bonds and lent the proceeds to fund four specific projects. Loan repayments are derived solely from project revenues. The debt is considered non-recourse, as the PEDA is not obligated to bondholders beyond amounts received from the funded projects. The PEDA has not issued any debt since 1990. Financial statement information for the PEDA is not reported because its only significant economic activity involves conduit debt. The PG appoints all 19 board members; six members are ex-officio. The Governor must approve the issuance of Authority debt. The PG is not obligated for the PEDA debt, but the PG could take certain actions to satisfy bondholders. The PEDA board reviewed and approved funding for certain alternative energy grant applications during the fiscal year ended June 30, 2007.

Financial Statements for Component Units and Investment Trust Fund

Audited financial statements for component units are available by writing to the Commonwealth Comptroller, 303 Walnut Street, Sixth Floor, Verizon Tower, Harrisburg, PA 17101. The Commonwealth sponsors the INVEST Program for Local Governments, an external investment pool, which is reported as an Investment Trust Fund. Audited financial statements for that Program are also available through the Commonwealth Comptroller.

Related Organizations

The Commonwealth created the **Pennsylvania Municipal Retirement System (PMRS)**. The PG appoints all eleven governing board members but is not financially accountable, as there is no imposition of will, no financial benefit/burden, nor fiscal dependency associated with the PMRS. Local governments are the only participants in the PMRS. Participation is voluntary and there are variations among different municipal pension plans. Local participating governments are financially responsible only for their own plan obligations. The Commonwealth provides accounting services to the PMRS on a cost reimbursement basis.

The Commonwealth also created the **Automotive Theft Prevention Authority (ATPA)**. The PG appoints all seven governing board members but is not financially accountable due to a lack of imposition of will and no financial benefit/burden. The

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

ATPA is not fiscally dependent on the PG. The operation of the ATPA is funded by an annual assessment paid by companies providing automobile insurance in the Commonwealth. The PG processes cash receipts and disbursements for the ATPA.

The **Philadelphia Parking Authority** (Authority) is financially reported as a discretely presented component unit in the City of Philadelphia's (City) financial reporting entity. Act 22 of 2001 provided, in part, for the Commonwealth to appoint a voting majority of the Authority's governing board. The Act provided for an increase from five to eleven board members; the Commonwealth appointed six new members by June 30, 2001. Effective June 30, 2006, the terms of board members appointed prior to June 2001 expired. No replacement appointments for those positions were made, pursuant to the provisions of the Act. Beginning June 1, 2006, the board consists of the six members appointed in 2001, whose terms expire in 2010, 2011 and 2012.

The **Philadelphia School District** (School District) is financially reported as a discretely presented component unit in the City of Philadelphia's (City) financial reporting entity. During 2001, the General Assembly passed Senate Bill 640 that provided, in part, for several changes to the Public School Code. Among other things, the changes provide for the Commonwealth to appoint a voting majority of the School Reform Commission that now governs the School District. Despite these changes, the School District remains fiscally dependent on the City.

Joint Venture

The Commonwealth, through its Office of Administration, created the Pennsylvania Employees' Benefit Trust Fund (PEBTF) using a contractual agreement with various Commonwealth employee labor unions. The PEBTF establishes and provides Commonwealth employee health and welfare benefits. A governing board administers the PEBTF; one-half of the board is appointed by the Commonwealth and one-half is appointed by the various unions. Neither the Commonwealth nor the unions control the governing board or the PEBTF; administration is jointly and equally shared. The Commonwealth and certain of its employees pay for the cost of providing benefits. Contribution amounts are based on the terms contained in collective bargaining agreements. Employee unions are not financially responsible for making contributions. Neither the Commonwealth nor the employee unions have an equity interest or any ongoing financial interest in the PEBTF. Aside from its obligation to make periodic, established contributions, the Commonwealth is not responsible for any obligations of the PEBTF.

Excluded Organizations

School districts, local governments and counties are considered separate, stand-alone primary governments because they are governed by popularly elected officials. Secondary vocational-technical schools, intermediate units and community colleges were considered as potential component units, but have been excluded from the financial reporting entity. These schools may receive significant PG operating and/or capital subsidies, but the PG does not appoint a voting majority of governing board members, nor does the PG impose its will on these organizations. Although various Commonwealth laws affect or strongly influence these organizations, the PG does not control day-to-day operating decisions. These organizations are not fiscally dependent. The PG appoints a portion, but not a voting majority, of the governing boards at the following four universities (commonly referred to as state related): Pennsylvania State University, University of Pittsburgh, Lincoln University and Temple University. The PG provides significant subsidies; however, given the absence of PG appointment of a governing board voting majority and the lack of fiscal dependency, these universities are excluded from the financial reporting entity.

Primary Government – Fund Structure

Fund Accounting: In governmental accounting, a fund is defined as an independent fiscal and accounting entity, with a self-balancing set of accounts, recording cash and/or other resources together with all related liabilities and equities which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with the fund's special regulations, restrictions or limitations. In the Commonwealth, funds are established by legislative enactment or, in certain rare cases, by administrative action.

The fund financial statements include: three major governmental funds and total nonmajor governmental funds; four major enterprise funds and total nonmajor enterprise funds; and all fiduciary funds. The Commonwealth uses the following fund categories to account for each fund included in the primary government:

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Governmental Funds

General Fund—Accounts for all financial resources except those required to be accounted for in another fund.

The **General Fund** is the Commonwealth's main operating fund and is reported as a Major Fund. Other Major Funds are displayed in bold print in the Notes to the Financial Statements.

Special Revenue Funds—Account for the proceeds of specific revenue sources (other than debt service or capital projects funds) that are legally restricted to expenditures for specified purposes. The **Motor License Fund** and the **Tobacco Settlement Fund** are reported as Major Funds.

The **Motor License Fund** receives revenues from liquid fuels taxes, licenses and fees on motor vehicle registrations and operating privileges, aviation fuel taxes, federal aid for highway and aviation purposes, contributions from local subdivisions for highway projects and other miscellaneous revenues. The Fund makes expenditures for highway and bridge improvement, design, maintenance, and purchases of rights-of-way, as well as aviation activities and transportation licensing and safety activities. It also finances State Police highway patrol operations and pays subsidies to local subdivisions for construction and maintenance of roads.

The **Tobacco Settlement Fund** was originally established to deposit all payments received by the Commonwealth pursuant to the Master Settlement Agreement with tobacco product manufacturers. Deposits into this fund include: jurisdictional payments received by the Commonwealth from the master agreement, strategic contribution payments from the master agreement, quarterly payments from certain Pennsylvania health insurance companies and earnings from investments. Expenditures from this fund are determined by the annual budget appropriated to each program. For the fiscal year ended June 30, 2007 payments from the Master Settlement agreement were distributed as follows: 8 percent to the Health Endowment Account; 13 percent for Home and Community Based Services; 9 percent for Tobacco Use Prevention and Cessation; 19 percent for Health Related Research; 10 percent for Uncompensated Care; 26 percent for Health Investment Insurance; 8 percent for the expansion of the PACENET Program and 7 percent for various health-related programs. Amounts received from the Pennsylvania health insurance companies are held in a restricted account and used exclusively for Department of Insurance initiatives.

Debt Service Funds—Account for the accumulation of resources, principally transfer from other funds, for the payment of general long-term debt principal and interest. There are no major debt service funds.

Capital Projects Funds—Account for financial resources to be used for the acquisition or construction of major capital facilities, including those provided to political subdivisions and other public organizations (other than those financed by Proprietary or Fiduciary Funds). There are no major capital projects funds.

Proprietary Funds

Enterprise Funds—Account for operations that are financed and operated in a manner similar to private business enterprises. Costs of providing goods and services to the general public on a continuing basis, including depreciation, are financed or recovered primarily through user charges. The **State Lottery Fund**, **State Workers' Insurance Fund**, **Unemployment Compensation Fund** and **Tuition Payment Fund** are all reported as Major Funds.

The **State Lottery Fund** provides for the operation of the Pennsylvania State Lottery and for programs to support older Pennsylvanians. Revenues are derived from the sale of lottery tickets, interest earned on securities and deposits, unclaimed prize monies and Federal grants. Fund expenses pay for prizes to holders of winning lottery tickets and commissions to local lottery agents. Amounts remaining after payment of lottery prizes and commissions are used to fund programs benefiting older Pennsylvanians including PENNCARE, PACE, PACENET, free mass transit and reduced fare shared-ride programs, and property tax and rent rebates.

The **State Workers' Insurance Fund** (SWIF) was created by legislation on June 2, 1915 and operates within the Department of Labor and Industry. It is a self-sustaining fund providing workers' compensation insurance to employers, including those who are refused policies by private insurance firms. SWIF is subject to underwriting rules, classifications and rates promulgated by rating bureaus authorized by the Commonwealth Insurance Commissioner. Premium rates are established by the bureaus based on the history of accidents by industry classification. Revenues are generated by premiums charged to policyholders plus investment income. Workers' compensation payments and administration costs are paid from the Fund. The **State Workers' Insurance Fund** is reported for its fiscal year ended December 31, 2006.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The **Unemployment Compensation (UC) Fund** is comprised of four basic components: the Employer Contribution Fund, the UC Benefit Payment Fund, the Special Administration Fund, and the UC Trust Fund in Rockville, MD. The purpose of these funds is to collect employer assessments for UC and transfer the assessments to the Federal government for deposit in the UC Trust Fund. As needed, these funds are drawn back to pay unemployment compensation payments to claimants. The Special Administration Fund is used to isolate penalty and interest charges from employers and claimants. It is used to supplement grant-funding shortfalls and pay audit disallowances with any remaining amounts over \$200 thousand being transferred to the UC Trust Fund each June 30. The UC Benefit Payment Fund also receives funds from the Federal government to reimburse Pennsylvania for those Federal workers who collected UC benefits from Pennsylvania.

The **Tuition Payment Fund** offers a college savings program with a guaranteed rate of return based on increases in the cost of tuition. The program is administered by the Tuition Account Program Bureau within the Treasury Department with oversight by the Tuition Account Program Advisory Board. Revenue is derived primarily from application fees, participant contributions and investment income. Fund expenses consist mainly of payments to educational institutions and administrative costs.

The State Stores Fund is reported for its fiscal year ended June 26, 2007.

Internal Service Funds—Account for the financing of goods or services provided by one department or agency to other departments or agencies of the Commonwealth, or to other governmental units, on a cost-reimbursement basis. The Purchasing Fund is used to purchase materials, supplies, services, and equipment for use by departments, agencies, boards, and commissions of state government, and to pay costs associated with administering the fund. The fund receives reimbursements from the various Commonwealth departments, boards, and commissions for the materials, services, and supplies they obtain from appropriations and periodic loans from the **General Fund**, from the sale of vehicles and unserviceable property and from interest earned on securities. The Manufacturing Fund is a fund that uses inmate labor to produce items for the Department of Corrections and other state agencies. The revenue source is the sale of items produced or services provided. Expenses are for raw materials, inmate labor, and general and administrative costs.

Fiduciary Funds

Trust and Agency Funds—Account for assets held by the Commonwealth in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. These include Pension (and other employee benefit) Trust Funds, an Investment Trust Fund, a Private Purpose Trust Fund and Agency Funds.

The State Employees' Retirement System, a pension trust fund, is a component unit and accounts for the payment of retirement, disability and death benefits to members of the State Employees' Retirement System and their beneficiaries. The Deferred Compensation Fund is an other employee benefit pension trust fund that collects and administers amounts contributed by Commonwealth employees who are deferring a portion of their income until future years, in accordance with Internal Revenue Code Section 457.

The INVEST Program for Local Governments is an Investment Trust Fund that invests amounts owned by local governments and school districts. The Tuition Account Investment Program is a Private Purpose Trust Fund that invests amounts on behalf of participants who are saving for college tuition costs.

The largest Agency Fund, the Statutory Liquidator Fund, converts the remaining assets of insolvent insurance companies to cash for remittance to policyholders, creditors and stockholders in accordance with the order of distribution established in Article V of the Pennsylvania Insurance Department Act of 1921 and on a Commonwealth Court approved percentage of claim basis. Although not yet determined, the actual amounts to be paid based on the amount of the remaining assets are expected to be less than the amounts actually claimed by creditors, policyholders and stockholders. The Underground Storage Tank Indemnification Fund holds assets on behalf of owners and operators of underground storage tanks who incur a liability for taking corrective actions associated with underground storage tank releases. The Municipal Pension Aid Fund holds a portion of casualty insurance company tax assessments, which are remitted to municipalities to help defray municipal police and fire fighter pension costs.

The State Employees' Retirement System, a pension trust fund, the Deferred Compensation Fund, an other employee benefit trust fund, and the INVEST Program for Local Governments, an Investment Trust Fund, are reported for their fiscal years ended December 31, 2006.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**Measurement Focus and Basis of Accounting- Government-Wide Financial Statements**

The government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting. This means that the Statement of Net Assets reports all assets (including receivables regardless of when collected and capital assets, such as heavy trucks, highways and bridges) and liabilities regardless of when payment is due. The Statement of Activities includes all revenues and expenses, regardless of when cash is respectively received or paid. The Statement of Activities reports program revenues, which are revenues derived directly from a specific governmental function and are reported by the function, which generates the revenue. Charges for goods or services, most investment income, grant revenues and fines are reported as program revenues. Neither program revenues nor expenses are reported for donated works of art, historical treasures or similar assets received during the fiscal year because such donations are not material. Except for unemployment compensation tax revenues, which are reported as charges for sales and services program revenues, all tax revenues are classified as general revenues in the Statement of Activities. The Statement of Activities also reports governmental activities expenses that include governmental fund expenditures (those which are not eliminated or reclassified) and current year depreciation on capital assets, which recognizes the cost of ordinary use of the assets over their estimated useful lives. The costs of most employee benefits earned during the fiscal year (such as vacation time earned) and increases in self-insurance liabilities are also reported as expenses in the statement, regardless of when the benefits are used or the liabilities are paid.

Measurement Focus and Basis of Accounting – Fund Financial Statements**Governmental Funds**

The **General Fund**, special revenue, debt service and capital projects funds (governmental funds) are reported using the current financial resources measurement focus and modified accrual basis of accounting. Under this measurement focus, only current assets and current liabilities are normally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets. Unreserved fund balance represents a measure of available, spendable resources. Under the modified accrual basis of accounting, revenues of governmental funds are recognized in the year that they become susceptible to accrual (both measurable and available) to pay current fiscal year liabilities. The Commonwealth accrues the following major revenue sources that are both measurable and available (available is treated as being received within 60 days of fiscal year end for these revenues): sales and use taxes, cigarette taxes, corporation taxes, personal income taxes, liquid fuels taxes, inheritance taxes, liquor taxes, investment income, institutional revenues and sales of goods and services.

Grant revenues, including Federal government grant revenues, are recognized when earned. Revenues from most other sources are recognized when received. Expenditures are generally recognized in the fiscal year the goods or services are received and the related fund liability is incurred. Debt service expenditures for principal and interest on general long-term obligations are recognized when due. Prepaid items and inventory purchases are reported as current fiscal year expenditures, rather than allocating a portion of related cost to the fiscal year when the items are actually used. Expenditures for claims, judgments, compensated absences and employer pension contributions are reported as the amount accrued during the fiscal year that normally would be liquidated with expendable available financial resources.

Proprietary Funds, Pension (and other employee benefit) Trust Funds and Investment Trust Fund

The enterprise, internal service (proprietary funds), pension (and other employee benefit) trust funds and the investment trust funds, are reported using the economic resources measurement focus and the accrual basis of accounting. Under this measurement focus, all assets and liabilities associated with the operations of these funds are included on the Statement of Net Assets. Under the accrual basis of accounting, revenues are recognized in the fiscal year earned and expenses are recognized in the fiscal year incurred.

Proprietary Funds classify revenues and expenses as either ‘operating’ or ‘nonoperating’, depending on the nature of the activities reported in the individual Fund. The majority of transactions are reported as ‘operating’; however, investment income is reported as ‘nonoperating’ revenues by all Proprietary Funds. Under the Governmental Accounting Standards Board’s (GASB) Statement 20, “Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting,” the Commonwealth has elected not to adopt the Financial Accounting Standards Board pronouncements issued after November 30, 1989.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**Agency Funds**

Assets and liabilities of agency funds are reported using the accrual basis of accounting. Agency funds do not report operating statements.

Significant Accounting Policies

Pooled Cash: In accordance with the Fiscal Code, cash balances of most Commonwealth funds are pooled by the Treasury Department. Cash balances are segregated by fund, but accounted for centrally for receipt and disbursement purposes. The law requires that collateral be pledged by banks and other financial institutions to guarantee the Commonwealth's cash on deposit.

Cash Equivalents: No investments that could be defined as cash equivalents have been treated as such on the Statement of Cash Flows; therefore, only net changes in cash are displayed.

Investment Pools: The Fiscal Code provides the Treasury Department with investment control over most Commonwealth funds. The Treasury Department uses a variety of sophisticated internal investment pools that seek to provide preservation of principal, liquidity, diversification and income for Commonwealth funds. All participating funds report amounts invested in such pools as temporary and/or long-term investments; the pools themselves are not financially reported. The Treasury Department maintains an external investment pool, the INVEST Program for Local Governments, which separately issues audited financial statements and is reported as an Investment Trust Fund. Financial statements for the INVEST Program include a Statement of Net Assets and a Statement of Changes in Net Assets prepared using the economic resources measurement focus and the accrual basis of accounting.

Temporary Investments: The Treasury Department manages the Treasury Investment Program (TIP); practically all individual funds that are part of primary government are participants in the TIP. The Treasury Department accounts for each participating fund's equity (considered "shares") in the TIP on a daily basis. "Share" balances of participating funds fluctuate considerably during the fiscal year, based on the timing of cash receipts and disbursements in the participating fund, and are reported as temporary investments. The TIP is considered an internal investment pool. Periodic TIP earnings are allocated to specific participating funds based on either the weighted daily average share balance or the net asset value on redemption date combined with share balances on declaration date.

Several individual funds may directly own investments in specific securities. Such investments, which are expected to be realized in cash within twelve months after fiscal year end or less, are reported as temporary investments. Temporary investments are reported at fair value (typically using published market prices) except for nonparticipating interest-bearing contracts, which are reported at cost.

Long-Term Investments: Investments expected to be realized in cash after more than twelve months from fiscal year end are reported as long-term investments. Such investments are generally not managed by the Treasury Department. Long-term investments are reported at fair value, except for certain nonparticipating interest-bearing contracts, which are reported at cost. Fair values are based on published market prices, quotations from national securities exchanges and securities pricing services, or by the respective fund managers for securities that are not actively traded. Certain pension trust fund investments, including real estate, venture capital, private equity, private placements and alternative investments are valued based on appraisals, independent advisors or the present value of projected future income.

Investment Income: Investment income includes interest, dividends, realized gains and losses and the change in the fair value of investments, if any, during the fiscal year. Certain investment income from specific funds' investments is assigned to another fund and is reported by the receiving fund if the income is transferred for legal or contractual reasons; otherwise, the investment income is reported as a transfer by the receiving fund. Specific fund disclosures for assigned investment income are provided in Note H.

Grants: Federal grants and assistance awards made on the basis of entitlement periods are recorded as intergovernmental revenues when entitlement occurs. Federal reimbursement-type grant revenues are recorded when the related expenditures or expenses are incurred.

Inventories and Prepaid Expenses: Inventories of operating materials and supplies are reported by certain governmental activities and operating and merchandise inventories are reported by Proprietary Funds and the State System of Higher Education, a discretely presented component unit. Operating materials and supplies inventories are valued at cost (first-in,

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

first-out) and merchandise inventories are reported at the lower of cost or market. In the governmental fund financial statements, inventories are accounted for using the purchases method whereby expenditures are reported for current-year purchases of operating materials and supplies. Also, in governmental fund financial statements, prepaid expenses are not reported.

Capital Assets and Depreciation: General capital assets (including infrastructure) and other capital assets are reported at cost or estimated historical cost in the Statement of Net Assets. Donated capital assets are reported at fair market value at the time of donation. The cost of all land is reported; for other types of capital assets, the following minimum dollar reporting thresholds are used (in thousands):

Land improvements, buildings and building improvements.....	\$25
Machinery and equipment.....	\$25
Highway and bridge infrastructure.....	\$100
All other infrastructure.....	\$25

Commonwealth agencies maintain inventories of all their respective capital assets, including assets acquired for less than the above minimum amounts, which are not reported in the Basic Financial Statements. Certain waterway and other non-highway institutional infrastructure acquired prior to July 1, 2001 are not reported in the Statement of Net Assets. The Pennsylvania Historical and Museum Commission (PHMC) owns diverse collections of historical, architectural, prehistoric and artistic artifacts, archives and manuscripts and scientific specimens. The Commonwealth does not capitalize these collections, as they meet the following criteria: PHMC's mission in acquiring these collections is for the purpose of preservation, education, research and exhibition; PHMC secures and preserves all collections in order to adequately preserve Commonwealth history; and all acquisitions and deaccessions must be approved by the PHMC Collections Committee and the PHMC Executive Director. All amounts received from the deaccessioning of artifacts/collections are placed in a restricted account that can only be used for the purchase of new artifacts/collections. The Commonwealth does not capitalize expenditures for software or expenditures to protect farmland under the Agricultural Area Security Law. Capital assets (excluding land and construction in progress) are depreciated over the estimated useful lives of major capital asset classes using the straight-line method. Depreciation expense is reported in the Statement of Activities as part of direct functional expenses; all depreciation is allocated to a specific function. Capital assets reported by proprietary funds are reported in those funds at cost or estimated historical cost. Depreciation is reported on the straight-line basis over the capital assets' estimated useful lives. The following useful lives are used for primary government governmental activities:

Buildings and building improvements.....	40 years
Improvements other than buildings.....	30 years
Machinery and equipment.....	10 years
Highway heavy equipment.....	15 years
Highway infrastructure.....	25 years
Bridge infrastructure.....	50 years
Dams, dikes and pier infrastructure.....	50 years
Other infrastructure.....	20 years

Primary government business-type activities report depreciation expense using useful lives that are very similar to the above and do not report any infrastructure. Certain land, buildings and improvements owned by the Commonwealth and used by the State System of Higher Education (SSHE), a discretely presented component unit, which were acquired or constructed before July 1, 1983 (the inception date for the SSHE), are financially reported as governmental activities general capital assets. All general capital assets acquired or constructed for the SSHE subsequent to June 30, 1983 without the use of university funds or incurrence of SSHE debt are also reported as governmental activities general capital assets. This reporting treatment is used to conform to the enabling legislation for the SSHE, which includes the vesting of title for the SSHE-used property. Capital assets reported by the SSHE are stated at cost. Depreciation of SSHE capital assets is recognized over the estimated useful life of the assets.

Capital Asset Impairments: Through a variety of policies, Commonwealth management requires agencies to perform periodic assessments of general and other capital assets. Beyond initial reporting (upon acquisition), agencies must adhere to continuing policies regarding usability, function and condition of reported capital assets. With few exceptions, reported capital assets are used by Commonwealth agencies on a daily or other periodic basis and agencies must report impairments promptly. In particular, Commonwealth highways and bridges are inspected on a frequent, scheduled basis. As a matter of public safety,

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

such assets are inspected very closely as part of routine operating procedures. Other general capital assets, such as structures, are used for housing or office space. Many pieces of equipment, including rolling stock, are used almost daily.

Self-Insurance: The Commonwealth is uninsured for property losses and self-insured for annuitant medical/hospital benefits, employee disability and tort claims. Note M provides disclosures for self-insurance liabilities.

Compensated Absences: Employees earn annual leave, depending on length of credited service, from between 2.7 percent to 10 percent of regular hours paid. Generally, a maximum of 45 days may be carried forward at the end of each calendar year. Employees are paid for accumulated annual leave upon termination or retirement.

Employees earn sick leave based on 5 percent of regular hours paid. Generally, a maximum of 300 days may be carried forward at the end of each calendar year. Retiring employees that meet service, age or disability requirements are paid in accordance with the following schedule:

<u>Days Available at Retirement</u>	<u>Percentage Payment</u>	<u>Maximum Days Paid</u>
0-100	30%	30
101-200	40%	80
201-300	50%	150
over 300 (in last year of employment)	100% of days over 300	13

Accumulated annual and sick leave liabilities payable with expendable available financial resources are reported by Governmental Funds; all compensated absences payable are reported by governmental activities and Proprietary Funds and Pension Trust Funds.

Liabilities: In the Statement of Net Assets, governmental activities liabilities are presented as either “current” or “noncurrent.” Liabilities are segregated into these categories by establishing an average maturity for the liability class and classifying the portion due within one year of the statement date as current and the portion due beyond one year of the statement date as noncurrent. For liabilities without specific maturity or due dates, estimates are made of maturities. Liabilities without specific due dates include those related to self-insurance and compensated absences.

Pension Costs: The Commonwealth’s policy is to fund pension costs incurred and to amortize prior service costs over varying periods not exceeding 20 years.

Indirect Expenses: In the Statement of Activities, the full-cost allocation treatment is used, whereby reported program expenses, by function, include any expenses which could be treated as indirect expenses of another function.

Interest Expense: In the Statement of Activities, no interest expense is reported by direct program costs.

Intergovernmental Revenues: These amounts represent revenues received principally from the Federal government.

Restricted Net Assets: These amounts were primarily determined based on enabling legislation that provides for restrictions on how the resources of special (non-**General Fund**) funds may be used. At June 30, 2007, a portion of governmental activities net assets was restricted based on a Federal government purpose restriction. Practically all reported restricted net assets could become unrestricted based on possible future legislative changes.

Budget Stabilization Reserve Fund: Act 91 of 2002 provided for this Fund effective July 1, 2002 to gradually provide a budgetary reserve amounting to 6 percent of the revenues of the **General Fund**. For the fiscal year beginning July 1, 2002 and in any fiscal year thereafter in which the Secretary of the Budget certifies that there is a surplus in the **General Fund**, 25 percent of the surplus is to be deposited by the end of the next succeeding quarter into this Fund. This requirement resulted in a transfer of \$177.0 million to be deposited by the end of the next succeeding quarter for the fiscal year ended June 30, 2007; this transfer is included in the **General Fund** budgetary comparison schedule for the fiscal year ended June 30, 2007.

Tobacco Master Settlement Agreement Proceeds: In 1997, the Pennsylvania Attorney General began litigation in the Philadelphia court of common pleas against several defendant tobacco product manufacturers to recover specified damages.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Similar litigation was filed by many other states. In 1998, the Commonwealth joined in the Master Settlement Agreement which settled litigation against certain defendant manufacturers and 52 governmental entities, including Pennsylvania. As part of the settlement, the manufacturers agreed to remit periodic payments to the Commonwealth and other states in perpetuity. Amounts remitted are calculated based on a variety of specific settlement provisions; actual tobacco product sales are one key factor. The Agreement contains procedures for resolving disputes over payment or other issues that may arise. A dispute regarding the amount to be paid for cigarette sales that took place in 2003 is currently being litigated.

Due From Other Governments: This receivable represents amounts due primarily from the Federal government for various department programs.

Bond Proceeds, Bond Proceeds Premium/Discount and Bond Issuance Costs: In governmental fund financial statements, the face amount of bonds issued and related premium/discount are separately reported. Bond issuance costs are reported as expenditures. In government-wide financial statements, the face amount of bonds issued is reported as a liability and related premium/discount is amortized over the life of the outstanding debt and is reported as interest expense as part of functional governmental activities expenses. Bond issuance costs are reported as expenses.

Interfund Transactions: The Commonwealth has the following types of transactions between funds, between primary government governmental activities and business-type activities and between primary government and discretely presented component units:

Statutory Transfers—Legally required transfers from specific Funds that subsidize receiving Fund programs are reported when paid as “Transfers in” by the receiving Fund and as “Transfers out” by the disbursing Fund. Legally required payments from the primary government to component unit organizations are reported when paid as governmental activities program expenses and as either Operating Grants and Contributions or Capital Grants and Contributions by component unit organizations. Interfund balances (amounts due from/to other funds) are reported for unremitted, due and payable, transfers at fiscal year end. In the Statement of Activities, only transfers between governmental activities and business-type activities are reported as transfers.

Transfers of Expenditures (Reimbursements)—Reimbursement of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund.

Interfund Services Provided and Used—Charges or collections for services provided by one fund to another that are recorded as revenues of the recipient fund and expenditures or expenses of the disbursing fund are reclassified and treated as reimbursements (above) in fund financial statements and the Statement of Activities. Interfund balances (amounts due from/to other funds) are reported for unremitted charges or collections at fiscal year end that arise in connection with routine, ordinary governmental fund and proprietary fund operations.

Interfund balances: The composition of the Commonwealth’s interfund receivables/payables at June 30, 2007 and transfers in/out during the fiscal year ended June 30, 2007 are presented in Note H. Interfund balances between two governmental funds or two proprietary funds are not reported in the Statement of Net Assets.

New Accounting Pronouncements – Adopted: Effective July 1, 2006 the Commonwealth adopted the Governmental Accounting Standards Board’s (GASB’s) Statement No. 47, “*Accounting for Termination Benefits.*” GASB Statement No. 47 requires reporting termination benefit costs for involuntary terminations during the period the Commonwealth becomes obligated and for voluntary terminations when the termination offer is accepted. Implementation had no effect on the Commonwealth’s financial statements during the fiscal year ended June 30, 2007 as no termination programs were in effect.

New Accounting Pronouncements – To Be Adopted: In June 2004 the GASB issued Statement No. 45, “*Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions.*” GASB Statement No. 45 changes how other postemployment benefits (OPEB) costs are reported by employer governments, so that employer OPEB costs are charged during the periods when employees render services. Presently, OPEB costs for retiree healthcare benefits are reported as charged as a component of payroll expenditures to employing agencies in amounts expected to be sufficient to fund such benefits on a ‘pay-as-you-go’ basis. It is expected that reported expenses for OPEB would increase upon implementation. Actuarial valuations have been in process since early 2006; other steps necessary for implementation are being taken.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

In September 2006, the GASB issued Statement No. 48, “*Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues.*” GASB Statement No. 48 distinguishes between sales or collateralized borrowings when governments exchange their rights to future cash flows for immediate cash proceeds or other consideration. The new standard establishes new reporting and disclosure requirements for such transactions and balances.

In December 2006, the GASB issued Statement No. 49, “*Accounting and Financial Reporting for Pollution Remediation Obligations.*” GASB Statement No. 49 establishes recognition ‘triggers,’ any one of several obligating events, and requires governments to estimate expected outlays for pollution remediation costs at polluted sites. Liabilities and expenses are to be estimated using ‘expected cash flows.’

In May 2007, the GASB issued Statement No. 50, “*Pension Disclosures.*” GASB Statement No. 50 amends GASB Statement Nos. 25 and 27 (both related to pension plans) and provides for enhanced pension disclosures to be consistent with disclosure and required supplementary information requirements established by GASB Statement Nos. 43 and 45 (both related to OPEB).

In June 2007, the GASB issued Statement No. 51, “*Accounting and Financial Reporting for Intangible Assets.*” GASB Statement No. 51 clarifies pertinent provisions of GASB Statement No. 34 which address capital asset reporting requirements. Among other things, the Commonwealth must begin to report such intangible assets as computer software, which are not presently capitalized and amortized over varying periods of time.

In November 2007, the GASB issued Statement No. 52, “*Land and Other Real Estate Held as Investments by Endowments.*” GASB Statement No. 52 changes how permanent and term endowments, including permanent funds, report land and other real estate held as investments. The prior standard required reporting at historic cost; the new standard requires reporting at fair value, along with several disclosures.

The Commonwealth must adopt the new standards as follows:

GASB Statement No. 45	Effective July 1, 2007, for financial statements for the fiscal year ending June 30, 2008
GASB Statement No. 48	Effective July 1, 2007, for financial statements for the fiscal year ending June 30, 2008
GASB Statement No. 49	Effective July 1, 2008, for financial statements for the fiscal year ending June 30, 2009
GASB Statement No. 50	Effective July 1, 2007, for financial statements for the fiscal year ending June 30, 2008
GASB Statement No. 51	Effective July 1, 2009, for financial statements for the fiscal year ending June 30, 2010
GASB Statement No. 52	Effective July 1, 2008, for financial statements for the fiscal year ending June 30, 2009

NOTE B – ACCOUNTING CHANGE AND RESTATEMENTS**Primary Government – General Fund Employee Benefits Reclassification**

Effective July 1, 2006 the Commonwealth changed the method used to report certain **General Fund** activities associated with Commonwealth employee benefit costs which are charged to Commonwealth agencies on a biweekly basis. Such activities were formerly reported as part of **General Fund** revenues (Charges for sales and services) and expenditures (Direction and supportive services); for the fiscal year ended June 30, 2006 such previously reported **General Fund** revenues (\$2,750,226) and expenditures (\$2,062,113) would have been \$1,336,185 and \$648,072, respectively. For the fiscal year ended June 30, 2007, before the effects of this change, reported revenues would have been \$2,745,929 and reported expenditures would have been \$2,270,553 (amounts in thousands).

Discretely Presented Component Units - Restatements Due to Correction of Errors

Effective July 1, 2006, the previously reported net assets of the Ben Franklin Technology Development Authority are being corrected and increased from \$50,961 to \$61,338 to account for previously over-reported expenses and related accounts payable of \$10,377 during several fiscal years ended June 30, 2006 (amounts in thousands).

Effective July 1, 2006, the previously reported net deficit of the Commonwealth Financing Authority is being corrected and changed from \$(20,157) to \$(23,134) to account for previously unreported accrued interest payable and related interest expense of \$2,977 as of and for the fiscal year ended June 30, 2006 (amounts in thousands).

As a result of these two restatements, aggregate non major discretely presented component unit net assets are being corrected and increased, on a net basis, from \$392,941 to \$400,341 as of July 1, 2006. Total discretely presented component unit net assets are being corrected and increased, on a net basis, from \$6,017,460 to \$6,024,860, as of July 1, 2006 (amounts in thousands).

NOTE C – NET ASSETS/FUND EQUITY

Governmental Activities and Business-Type Activities Net Assets: Total Net Assets are the difference between Total Assets and Total Liabilities reported on the Statement of Net Assets. Total Net Assets are reported in three distinct components: Invested in capital assets, net of related debt; Restricted net assets; and Unrestricted net assets. Invested in capital assets, net of related debt represents total capital assets less accumulated depreciation and the outstanding liability for debt specifically related to the acquisition of the capital assets. At June 30, 2007, governmental and business-type activities, respectively, reported \$20,015,677 and \$56,010 in net assets invested in capital assets, net of related debt. Restricted net assets for special funds are those that are statutorily established and for which net assets may only be used for specific legislated purposes. Governmental fund balance “designations” are not treated as restricted net assets because they represent plans and can easily be changed. Restraints established by enabling legislation, on the other hand, are not easily changed. At June 30, 2007, governmental and business-type activities, respectively, reported \$4,038,012 and \$3,532,020 in restricted net assets. Net assets restricted for other purposes of \$87,077 and \$165,168 for governmental activities and business-type activities, respectively, at June 30, 2007 include amounts for a range of dissimilar statutory purposes. Unrestricted net assets represent total net assets minus the totals of invested in capital assets, net of related debt and restricted net assets. At June 30, 2007, governmental activities reported unrestricted net assets of \$343,162 (amounts in thousands).

Governmental Fund Balance Reservations: Fund balance reservations reported in governmental fund balance sheets represent portions of governmental fund balances that are legally segregated for a specific future use or are not available for expenditure.

The amount reserved for advances in the **General Fund**, \$114.1 million, is applicable to advances as follows: \$14.3 million to the Purchasing Fund, an Internal Service Fund; \$2.3 million to the **State Workers’ Insurance Fund** and \$85.0 million to the State Stores Fund, both Enterprise Funds; \$2.2 million to the **Motor License Fund**; and \$10.3 million to the Pharmaceutical Assistance Fund, both Special Revenue Funds.

The amount reserved for advances in the Hazardous Sites Cleanup Fund, a Special Revenue Fund, is applicable to a \$3 million advance to the Small Business First Fund, an Enterprise Fund.

Governmental funds reported total fund balance “other” reservations of \$2,173,936 at June 30, 2007. This amount consists of \$844,229 reserved in the **General Fund**, \$822,644 for restricted revenue and \$21,585 for continuing programs; \$1,230,107 reserved in the **Tobacco Settlement Fund** for various health-related programs; \$2,014 in the **Motor License Fund** for transportation-related programs, and \$97,586 reserved in nonmajor Funds for the following programs: (amounts in thousands):

Land reclamation and other mining operations.....	\$ 31,193
Pharmaceutical assistance.....	10,947
Recreation.....	3,189
Conservation, recycling and economic development.....	1,464
Workers compensation.....	28,508
Gaming activities.....	<u>18,489</u>
Total nonmajor Special Revenue programs.....	<u>93,790</u>
General State Authority maintenance in the	
Capital Facilities Fund.....	2,159
Land and water reclamation.....	<u>1,637</u>
Total nonmajor Capital Projects programs.....	<u>3,796</u>
Total nonmajor funds other reservations.....	<u>\$ 97,586</u>

NOTE C – NET ASSETS/FUND EQUITY (continued)

Governmental Fund Balance Designations: Designations of unreserved fund balances reported in governmental funds balance sheets reflect managerial plans for the future use of financial resources. At June 30, 2007 the Commonwealth had included the following amounts as “Designated—Other” for the **General Fund** (amounts in thousands):

General Fund:

Group medical and life insurance.....	\$ 386,402
Agency construction projects	138,583
Judicial computer system	133,826
Job creation tax credits	105,533
Waste tire and safe water programs	22,255
State Police statewide radio project.....	47,820
Conservation and Natural Resources radio project	20,786
Volunteer fire company assistance.....	1,886
Corrections programs	8,482
Public Welfare and medical assistance programs.....	51,453
Information Management & Access project.....	3,000
Probation and Parole state and county supervision	1,395
Other	<u>2,545</u>
Total General Fund	<u>\$ 923,966</u>

Governmental Fund Balance Deficits: One fund has reported a fund balance deficit in the governmental funds balance sheet. The State Racing Fund, a Special Revenue Fund, reported a fund balance deficit of \$700 at June 30, 2007 (amounts in thousands).

The Capital Facilities Fund, a Capital Projects Fund, reported a deficit unreserved/undesignated fund balance of \$447,281 at June 30, 2007. In total, the Capital Facilities Fund reported a fund balance of \$413,921 at June 30, 2007. The Land and Water Development Fund and the Local Criminal Justice Fund, both Capital Projects Funds, reported a deficit unreserved/undesignated fund balance of \$380 and \$1,961, respectively, at June 30, 2007. Total Capital Projects Funds reported reservations for encumbrances of \$945,051; other reservations of \$3,796; designations for Capital Projects of \$65,455; and a deficit unreserved/undesignated fund balance of \$449,622; for total combined fund balances of \$564,680 at June 30, 2007 (amounts in thousands).

Proprietary Fund Net Assets: Nonmajor funds reported total restricted net assets for “other purposes” of \$106,756 at June 30, 2007 for the following programs: mine subsidence insurance, \$58,735; liquor control, \$35,557; vocational rehabilitation, \$3,957; and \$8,507 for other programs (amounts in thousands).

Component Unit Net Assets: Net assets of most component units are restricted, consistent with enabling legislation for component units. Net assets are restricted to purposes specifically identified by the legislation that created the component unit entity. The Pennsylvania Industrial Development Authority reported unrestricted net assets of \$270,773 and the Commonwealth Financing Authority reported an unrestricted net assets deficit of \$92,769 (amounts in thousands).

NOTE D – DEPOSITS, INVESTMENTS AND FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK**Authority for Deposits and Investments****Treasury Department**

The deposit and investment policies of the Treasury Department are governed by Sections 301, 301.1 and 505 of the Pennsylvania Fiscal Code (Act of 1929, P.L. 343), and Section 321.1 of the Pennsylvania Administrative Code (Act of 1929, P.L. 177, No. 175).

Treasury deposits must be held in insured depositories approved by the Board of Finance and Revenue and must be fully collateralized. The Fiscal Code grants the Treasury Department the authority to invest in any deposits and investments. This authority is subject, however, to the exercise of that degree of judgment and care under the circumstances then prevailing which persons of prudence, discretion and intelligence who are familiar with such matters exercise in the management of their own affairs not in regard to speculation but in regard to the permanent disposition of the funds considering the probable income to be derived there from as well as the probable safety of their capital. Treasury Department deposits and investments may include equity securities and mutual funds.

As of June 30, 2007, the Treasury Department manages the Treasury Investment Program (TIP). Practically all Commonwealth Funds of the primary government are invested on a temporary basis in the TIP. The objectives of the TIP are preservation of principal, liquidity, diversification and income. All investments are made in accordance with the statutory authority described in the preceding paragraph. The TIP investment pool structure invests in both equity securities and fixed income securities to achieve the investment objectives of the funds of the Treasury Investment Program. Asset allocation targets between equity securities and fixed income securities are established in order to meet these overall objectives.

The TIP consists of two types of pools, currently known as The Common Investment Pool and The Treasury Liquid Asset Pool. The Common Investment Pool consists of three portfolios as follows: the Short-Term Diversified Portfolio, which consists of fixed income investments in a Short-Term Funds segment and a 2-Year Duration Target segment; the Mixed-Term Diversified Portfolio, which consists of fixed income investments, including high yield, and equity investments; and the Discretionary Assets Portfolio, which includes certain economically targeted investments deemed appropriate by the State Treasurer. The Treasury Liquid Asset Pool is a portfolio consisting of fixed income investments with a maximum term not greater than 13 months managed by the Treasury Department.

Other Investing Organizations

Certain investing organizations have statutory authority, which is comparable to the Treasury Department 'prudent person' authority above. The investments of such organizations are accounted for in the following Funds: **Tobacco Settlement**, Workers Compensation Security Trust, **State Workers Insurance**, **Tuition Payment**, INVEST Program for Local Governments (INVEST), Statutory Liquidator, and Underground Storage Tank Indemnification (collectively, other investing organizations). Among other things, the other investing organizations typically invest for longer periods of time than the TIP. Therefore, the other investing organizations own, in relative terms, more intermediate or long-term investments than the TIP. Most of the other investing organizations establish contractual arrangements with investment managers, which identify investment objectives without providing strict limitations on 'allowable' investment purchases. Most of the other investing organizations prohibit investing in certain assets, such as commodities and futures contracts, private placements, except Section 144, options, limited partnerships, real estate properties, and corporations that are engaged in the tobacco industry. Several of the organizations also prohibit short selling and marginal transactions. One notable exception is **Tobacco Settlement**; this organization permits some or all of the previously mentioned prohibited assets and transactions as well as foreign investments.

Pension Trust Funds

The State Employees Retirement System (SERS), the Deferred Compensation Program (DCP) and the Public School Employees Retirement System (PSERS) constitute Pension Trust Funds reported in the basic financial statements. Pension Trust Funds avoid deposit risks; as such deposits must be authorized by the Treasury Department. Several state laws govern investment authority for the SERS and the PSERS; such laws provide 'prudent person' investing authority. Allowable DCP investment options are established by the SERS under its applicable statutory authority. A very large portion of total Pension Trust Fund investments consists of equity securities, real estate and a wide variety of mutual funds.

NOTE D – DEPOSITS, INVESTMENTS AND FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK (continued)

Deposit Risks

At June 30, 2007, Treasury Department bank balances of \$7,718 were subject to custodial risk; \$7,468 was uninsured and uncollateralized and \$250 was uninsured, with collateral held by the pledging institution’s trust departments and not in the name of the Commonwealth. In addition, \$68,731 of Statutory Liquidator Fund deposits were subject to custodial credit risk; all such deposits were uninsured and uncollateralized. The PSERS had deposits totaling \$45,318 at June 30, 2007 that were not required to be collateralized by statute or policy at M&T Bank which has a credit rating of A/A2. None of the other investing organizations or the Pension Trust Funds was exposed to either custodial credit risk or foreign currency risk for its deposits at June 30, 2007 (December 31, 2006 for the **State Workers Insurance**, SERS, and DCP) (amounts in thousands).

Investment Risks

Risk Management Policies: The Treasury Department, which is responsible for the TIP, **Tuition Payment** and INVEST programs, has formally adopted a written investment policy. Provisions of the written investment policy and current management of the investments address custodial credit risk, concentration risk, credit risk, interest rate risk, and foreign currency risk. Most of the other investing organizations have adopted investment policies intended to reduce the various risks or, in the case of foreign currency risk, to avoid it entirely. Pension Trust Fund policies avoid custodial credit risk entirely but are exposed to credit quality, interest rate, and foreign currency risk. To a large degree, credit risk is avoided by following policies to purchase only ‘investment grade’ securities (Baa/BBB/BBB or better). Where interest rate risk policies have been adopted, risk is avoided by establishing maximum maturities. To a degree, the establishment of policies limiting investment purchases from a single issuer avoids concentration risk. The individual risk policies and related disclosures are discussed in greater detail below. Either collectively or individually, none of the five non-Treasury investing organizations subject themselves to significantly higher risks than the Treasury Department. Based on the long-term nature of Pension Trust Fund investments, those Funds are exposed to interest rate risk and foreign currency risk and, to a smaller degree, credit quality risk.

Investments by Type

At June 30, 2007 the TIP and the other investing organizations disclosed a total of \$21,341,995 in investments. This consists of 79 percent fixed income securities (\$16,800,519), 19 percent common stock securities (\$4,023,447), and the remaining two percent consists of private equity, mutual funds, annuities, foreign cash and cash equivalents, and others. The investment types and related amounts are as follows (amounts in thousands):

<u>Investment Type</u>	<u>Amount</u>
Annuities.....	\$ 1,718
Asset-backed securities.....	210,258
Certificates of deposit.....	485,986

International fixed income.....	1,374
Limited partnerships.....	6,716
Money markets mutual funds.....	3,965,653
Mortgage-backed securities.....	1,438,378
Mutual funds.....	437,188
Preferred securities.....	1,032
Private equity.....	73,094
Repurchase agreements.....	1,744,515
State and municipal obligations.....	45,223
U.S. government agency obligations.....	3,081,816
U.S. private placements.....	64,633
U.S. Treasury obligations.....	1,967,191
Total.....	\$ 21,341,995

Custodial Credit Risk: Custodial credit risk for investments is the risk that, in the event a counterparty fails to uphold its agreement to a transaction, with either the Treasury Department, the other investing organizations or the Pension Trust Funds, they would not be able to recover the value of investment or collateral securities in the possession of an outside party. In accordance with a contractual relationship between the Treasury Department and its custodial agents, substantially all

NOTE D – DEPOSITS, INVESTMENTS AND FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK (continued)

investments, where securities are used as evidence of the investment, are held by the custodians in book entry form in the name of the Commonwealth or the custodian. The TIP, **Tuition Payment** and INVEST investments are insured or registered; and the securities are held by the Treasury Department or its agent. Similarly, investments of the other investing organizations and the Pension Trust Funds are almost always registered in the name of the Commonwealth, as the Treasury Department is the statutory custodian for such investments. At June 30, 2007, only the Statutory Liquidator Fund owned investment securities subject to custodial credit risk, in the amount of approximately \$1.56 billion. Such securities are neither insured nor registered and are either held by the counterparty or the counterparty’s trust department or agent but not in the name of the Commonwealth. The investments types and related amounts are as follows (amounts in thousands):

<u>Investment Type</u>	<u>Amount</u>
Asset-backed securities.....	\$ 121,520
Commercial paper.....	30,080
Common stock.....	112
Corporate obligations.....	413,462
International fixed income.....	1,374
Mortgage-backed securities.....	302,222
Repurchase agreements.....	327,883
State and municipal obligations.....	16,600
U.S. government agency obligations.....	160,276
U.S. Treasury obligations.....	188,643
Total	<u>\$ 1,562,172</u>

Concentration Risk: Concentration risk is the risk of loss attributed to the magnitude of the government’s investment in a single issuer. The Treasury Department places a 10 percent limit on the concentration of investments in any one fixed income issuer within both the TIP, **Tuition Payment** and INVEST. This limitation excludes government-sponsored enterprises (GSEs), direct obligations of the U.S. Treasury or U.S. agencies, and repurchase agreements. The Treasury Department also places a five percent limit on the concentration of investments in one equity issuer within the Common Investment Pool. Similarly, to a degree, the five other investing organizations limit exposure to concentration risk. Several other investing organizations have adopted policies, which allow greater than five percent of portfolios to consist of securities issued by the U.S. Treasury. At June 30, 2007, over nine percent of total Treasury and other investing organization portfolio investments (\$21,341,995) consisted of U.S. Treasury obligations (\$1,967,191); this amount is over 11 percent of total fixed income investments (\$16,800,519). Also, among Treasury and other investing organizations, the following concentrations existed as of June 30, 2007 (December 31, 2006 for the **State Workers Insurance Fund**) (amounts in thousands):

<u>Issuer Name</u>	<u>Total</u>
Federal National Mortgage Association.....	\$ 2,656,963
United States Treasury.....	1,967,191
Bank of America.....	1,239,104

Among the Pension Trust Funds, the SERS disclosed that \$1.9 billion of U.S. Treasury securities were owned at its fiscal year ended December 31, 2006.

As of and during the year ended December 31, 2006 the **State Workers Insurance Fund (SWIF)** owned more equity securities at cost than allowed by applicable statutory authority. Act 41 of 2005 permits the **SWIF** to invest in equities at cost not exceeding the lesser of 1) 20 percent of the Fund’s assets or 2) the statutory surplus after discount. Based on the reported statutory surplus after discount of \$175.8 million, equity investments reported at cost exceeded the surplus by \$57.7 million. **SWIF**’s governing board has directed its investment consultant to make recommendations to rebalance the portfolio and specify action necessary to ensure compliance with Act 41.

Credit Quality Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit risk of a debt instrument is measured by nationally recognized statistical rating agencies (NRSRA) such as Moody’s Investors Service (Moody’s), Standard & Poor’s (S&P), and Fitch Ratings (Fitch). The Treasury Department requires purchases of TIP assets to be investment grade (Baa/BBB/BBB or better) at the time of purchase. The fixed income portfolio includes a provision for the asset allocation to allow up to 10 percent of the portfolio to be in high yield investments. These investments, by definition, are not restricted to the investment grade requirements and include investments rated at Ba/BB/BB or below. Generally the other investing organizations limit exposure to credit risk through policies which prevents purchasing below investment grade (Baa/BBB/BBB or better).

NOTE D – DEPOSITS, INVESTMENTS AND FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK (continued)

At June 30, 2007 approximately \$16,800,519 of total TIP and other investing organization investments of \$21,341,995 are fixed income investments, susceptible to credit quality rating; the remainder is primarily common stock (\$4,023,447), mutual funds (\$437,188) or other types of investments, including private equity (\$73,094). Of the amount susceptible to credit quality rating, \$6,045,441 is rated; ratings are not available for \$10,755,078 of fixed income investments. The following tables discloses aggregate fair value, by the lowest rating obtained by credit quality rating category, at June 30, 2007 for the Treasury Department and the other investing organizations fixed income investments (amounts in thousands):

^a U.S. Government agency obligations that were not rated by a Nationally Recognized Securities Rating Agency (NRSRA) and consists of Government Sponsored Enterprises (GSEs) and government-owned corporations. Some widely known GSEs include Federal National Mortgage Association, Federal Home Loan Mortgage Corporation and several other entities. Agency (or GSE) bonds are not normally rated. GSE bonds are not explicitly backed by the full faith and credit of the U.S. Government but they have implied government backing and an implied Aaa/AAA rating.

^b U.S. Treasury obligations not rated by a NRSRA and consists of securities issued by the U.S. Treasury. They are negotiable debt obligations of the U.S. Government secured by its full faith and credit. U.S. Treasury obligations are not usually rated by a NRSRA. Assuming they are held to maturity they are considered extremely credit worthy.

NOTE D – DEPOSITS, INVESTMENTS AND FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK (continued)

At June 30, 2007 approximately 34 percent of the Treasury fixed income portfolio is rated investment grade or better and less than two percent is rated below investment grade. Approximately 64 percent (\$10,755,078) of the fixed income portfolio in TIP and the other investing organizations is not rated by any of the NRSRA. The unrated securities consisted of U.S. Government agency obligations (\$3,258,846) U.S. Treasury obligations (\$332,613), and the remainder (\$7,163,619) consists of the following types of investments as of June 30, 2007 (amounts in thousands):

<u>Investment Type</u>	<u>Amount</u>
Annuities.....	\$ 1,718
Asset-backed securities.....	55
Certificates of deposit.....	485,987

Treasury Investment Program.....	573,720	41,935
Total.....	<u>\$ 3,956,724</u>	<u>\$ 575,252</u>

^a The Moody's rating represents all of the securities that fall within subcategories of the ratings shown in this table. For example, a security with a rating of Ba1 is shown as a rating of Ba in this table.

^b AGY rating is assigned to securities issued by Government Sponsored Enterprises (GSEs) and government-owned corporations. Some widely known GSEs include Federal National Mortgage Association, Federal Home Loan Mortgage Corporation and several other entities that do not have a Moody's ratings. Agency (or GSE) bonds are not normally rated. GSE bonds are not explicitly backed by the full faith and credit of the U.S. Government but they have implied government backing and an implied Aaa/AAA rating.

^c Represents securities that were either not rated by Moody's, or had a withdrawn rating. Unrated also includes the market value of certain swaps, which by nature do not have credit quality ratings.

^d Represents investments of the SERS' Market Neutral investment strategy and includes cash and cash equivalents. The investments represent deposits for short sales and cash collateral and are invested primarily in U.S. Treasury Obligations.

NOTE D – DEPOSITS, INVESTMENTS AND FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK (continued)

PSERS fixed income securities, which are exposed to credit quality rating, are listed below using the rating (expressed as S&P equivalent), available from Fitch, Moody’s, and/or S&P that indicates the greatest degree of risk at June 30, 2007 (amounts in thousands):

<u>Standard and Poor’s Equivalent^a</u>	<u>Amount</u>
AAA.....	\$ 7,608,036
AA.....	907,907
A.....	1,254,699
BBB.....	1,291,445
BB and below.....	957,173
Unrated ^b	1,970,560
U.S. Treasury and U.S. government agency obligations ^c	2,858,041
Treasury Investment Program.....	3,236,147
Total.....	<u>\$20,084,008</u>

^a The Standard and Poor's rating represents all of the securities that fall within subcategories of the ratings shown in this table. For example, a security with a rating of A+ is shown as a rating of A in this table.

^b Unrated represents securities that were not rated by S&P and \$1,202,848 of securities in collective trust funds at June 30, 2007.

^c Represents securities issued by U.S. Treasury, Government Sponsored Enterprises (GSEs) and government-owned corporations. Some widely known GSEs include Federal National Mortgage Association, Federal Home Loan Mortgage Corporation, and several other entities. Agency (or GSE) bonds are not normally rated. GSE bonds are not explicitly backed by the full faith and credit of the U.S. Government but they have implied government backing and an implied Aaa/AAA rating. U.S. Treasury obligations are backed by the full faith and credit of the U.S. Government and are implied to have a AAA rating.

Interest Rate Risk: Interest rate risk is the risk that an investment’s value will change, advantageously or adversely, due to a change in the absolute value of interest rates. The Treasury Department measures interest rate risk using duration. To limit Treasury’s exposure to fair value losses arising from rising interest rates, Treasury’s long-term asset allocation diversifies its fixed income core segment between intermediate duration and longer duration strategies. Duration is a measure of an investment’s sensitivity to changes in interest rates. The higher the duration, the greater the changes in fair value when interest rates change. Treasury measures interest rate risk using option-adjusted duration, which takes into account embedded options affecting cash flows. Other investing organizations use less sophisticated measurements to manage interest rate risk; several limit the maximum term-to-maturity of investment purchases. Further, to avoid interest rate risk, many other organizations deliberately hold a given percentage of total investments in very short-term securities to avoid the potential need to sell such securities at a loss. At June 30, 2007, TIP and other investing organizations, excluding Statutory Liquidator, fixed income portfolio had the following option-adjusted durations (in years) by investment type (amounts in thousands):

<u>Investment Type</u>	<u>Amount</u>	<u>Option-Adjusted Duration</u>	<u>Securities with no Duration</u>
Asset-backed securities.....	\$ 87,527	1.540	\$ 1,211

Foreign Currency Risk: Foreign currency risk is the risk of an investment’s value changing, advantageously or adversely, due to changes in currency exchange rates. The Treasury Department’s policy requires all investments to be denominated in U.S. dollars, issued under U.S. laws and regulations, designed for U.S. investors, and traded in U.S. markets. Among the other investing organizations, the **Tobacco Settlement Fund** and the **Tuition Payment Fund** are authorized to purchase securities denominated in a foreign currency. At June 30, 2007, the **Tobacco Settlement Fund** reported \$77.5 million and the **Tuition Payment Fund** reported \$42.9 million of foreign currency-denominated holdings. The foreign currency holdings make up nearly 30 percent of the **Tuition Payment Fund**’s total investment portfolio and less than six percent of the **Tobacco Settlement Fund**’s total investment portfolio. The amounts invested, by currency, are as follows (amounts in thousands):

<u>Foreign Currency</u>	<u>Short Term Holdings^a</u>	<u>Equity</u>	<u>Total</u>

^a Includes receivables and payables as of December 31, 2006 for securities sold and purchased.

One of several investing choices that may be selected by DCP participants is the European, Australian and Far East Equity (EAFE) Index Fund, which owns international equities and is managed by an external manager. The EAFE Equity Index Fund within the program seeks to track the more than 1,000 foreign stocks representing established companies in 21 countries located in Western Europe and the Pacific Rim that are a part of the Morgan Stanley Capital International EAFE Index. At December 31, 2006, the DCP had the following currency exposures related to equity securities (amounts in thousands):

<u>Foreign Currency</u>	<u>Fair Value</u>
Euro Currency Unit.....	\$ 33,512
British Pound Sterling.....	23,675
Japanese Yen.....	23,216

^a Includes investment receivables and payables.

Securities Lending Program

The Treasury Department provides a securities lending program authorized by the Fiscal Code, which provides the Treasury Department with numerous custodial responsibilities; the securities program is an integral part of the custodial function. A contract between the Treasury Department and its custodian, acting as lending agent, provides that the custodian lends securities owned by the participants to independent brokers, dealers and banks, acting as borrowers.

Lending agreements between the custodian and the borrowers require that the custodian receive collateral from the borrowers in exchange for the securities lent. For securities lent which are not denominated in U.S. dollars or whose primary trading market is located outside the U.S., the fair value of the collateral received must be at least 105 percent of the fair value of the securities lent. For all other securities lent, the fair value of the collateral received must be at least 102 percent. Securities lent consist of both domestic and foreign equity securities and U.S. Treasury and foreign debt obligations. Almost all collateral received consists of cash; a very small portion of collateral received consists of letters of credit, U.S. Treasury, corporate and/or foreign debt obligations. Collateral is marked to market daily. Additional collateral from borrowers is required if the fair value of the collateral received declines below lending agreement requirements. The lending agent cannot pledge or sell collateral securities received unless the borrower defaults. Accordingly, neither collateral securities received from borrowers nor the related obligations to borrowers are reported.

To the extent collateral received consists of cash, the lending agent may use or invest the cash in accordance with reinvestment guidelines approved by the Treasury Department. Either the participant or the borrower may terminate lending agreements on demand. Lending agreements are typically of very short duration - usually overnight. Therefore, the duration of lending agreements do not generally match the maturities of the investments made with cash collateral. The resulting rate risk is mitigated by the lending agent's ability to reallocate lending agreements among program participants.

The program requires that the lending agent indemnify the Treasury Department for all claims, liabilities and costs resulting from the lending agent's negligence or intentional misconduct. During the fiscal year ended June 30, 2007 (December 31, 2006 for the **State Workers Insurance Fund (SWIF)** and the SERS), there were no failures by any borrower to return securities lent or pay distributions thereon. Also, there were no losses resulting from a lending agent or borrower default and there were no Treasury Department restrictions on the amount of the loans that could be made.

NOTE D – DEPOSITS, INVESTMENTS AND FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK (continued)

At June 30, 2007 (December 31, 2006 for the SWIF and the SERS), there was no Treasury Department or participant credit risk to the borrowers because the fair value of collateral received was greater than the fair value of the securities lent, consistent with the lending agreements outstanding. The fair value of the securities lent, along with type of investments lent, are (amounts in thousands):

	Securities Lent Amount	U.S. Treasury Obligations	U.S. Government Agency	Corporate Obligations	Equities	Sovereign Debt

Financial Instruments with Off-Balance Sheet Risk

Tobacco Settlement Fund

The **Tobacco Settlement Fund** enters into derivatives and structured instruments primarily to enhance the performance and reduce volatility of its investment portfolio. It enters into futures contracts to gain or hedge exposure to certain investment markets and to manage interest rate risk.

Futures contracts are standardized, exchange-traded contracts to purchase or sell a specific financial instrument at a predetermined price. Gains and losses on futures contracts are settled daily based on a notional (underlying) principal value and do not involve an actual transfer of the specific instrument. Because of daily settlement, the futures contracts have no fair value.

The **Tobacco Settlement Fund** has entered into certain futures contracts maturing through March 2010. The notional value of these contracts at June 30, 2007 is as follows (amounts in thousands):

<u>Futures Contract</u>	<u>Buy Contracts</u>	<u>Sell Contracts</u>
U.S. Treasury futures....	\$ -	\$ (5,168)
Eurodollar futures.....	-	(29,837)
S&P 500 futures.....	121,990	-

State Employees' Retirement System (SERS)

The SERS enters into certain derivative and structured financial instruments primarily to enhance the performance and reduce the volatility of its investment portfolio. It enters into foreign exchange contracts and foreign currency options contracts to hedge foreign currency exposure, futures contracts to gain or hedge exposure to certain equity markets and to manage interest rate risk, and swaps to gain equity exposure on its absolute return fund-of-funds investments, as well as hedge against the effects of inflation.

Foreign exchange contracts are agreements to exchange the currency of one country for the currency of another country at an agreed upon price and settlement date. The SERS uses these contracts primarily to hedge the currency exposure of its international investments. To reduce the risk of counterparty nonperformance, the SERS generally enters into these contracts with institutions regarded as meeting high standards of credit worthiness. The unrealized gain/loss on contracts is included in

NOTE D – DEPOSITS, INVESTMENTS AND FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK (continued)

the SERS’ net assets and represents the fair value of the contract on December 31. At December 31, 2006, the SERS had contracts to purchase and sell by major foreign currency were as follows (amounts in thousands):

<u>Foreign Currency</u>	<u>Buy Contracts</u>	<u>Unrealized Gain/(Loss)</u>	<u>Sell Contracts</u>	<u>Unrealized Gain/(Loss)</u>
Japanese Yen.....	\$2,035,285	\$ (99,167)	\$2,926,774	\$ 106,071
Euro Currency Unit.....	1,494,543	34,171	1,627,684	(49,116)
British Pound Sterling.....	979,649	36,015	1,101,384	(46,925)
Swiss Franc.....	607,661	(2,890)	712,462	(3,192)
Swedish Krona.....	110,668	5,054	121,841	(6,957)
Australian Dollar.....	76,156	2,271	87,091	(3,893)
Other.....	6,390	34	8,203	(34)
Total.....	<u>\$5,310,352</u>	<u>\$ (24,512)</u>	<u>\$6,585,439</u>	<u>\$ (4,046)</u>

Futures contracts are standardized, exchange-traded contracts to purchase or sell a specific financial instrument at a predetermined price. Gains and losses on futures contracts are settled daily based on a notional (underlying) principal value and do not involve an actual transfer of the specific instrument. Because of daily settlement, the futures contracts have no fair value.

The exchange on which futures contracts are traded assumes the counterparty risk and generally requires margin payments to minimize such risk. The SERS pledges investment securities to provide the initial margin requirements on the futures contracts it buys. In addition to that collateral, the SERS also pledges securities for sales of securities that it does not presently own (short sales). The SERS enters into those short sales to neutralize the market risk of certain equity positions.

The SERS has entered into certain futures contracts maturing through June 15, 2009. The notional value of these contracts at December 31, 2006 is as follows (amounts in thousands):

<u>Futures Contract Type</u>	<u>Buy Contracts</u>	<u>Sell Contracts</u>
U.S. Treasury futures.....	\$ 236,184	\$ 28,972
Eurodollar futures.....	168,337	142,155

Swap agreements provide for periodic payments between parties based on the change in value of underlying assets, indexes, rates, or credit worthiness. During 2006, the SERS entered into commodity swaps, S&P 500 total return swaps, Russell 2000 swaps, MSCI-EAFE swaps, credit default swaps, and interest rate swaps. Under the commodity swap arrangement, the SERS receives the net return of the Goldman Sachs Commodity Index from the swap counterparty in return for a spread, which it pays to the counterparty. The commodity swaps are used as an inflation hedge and settle on a monthly basis. The S&P 500 total return swaps, Russell 2000 swaps, and MSCI-EAFE swaps are used to gain equity exposure on its absolute return fund-of-funds and global macro investments. Under those arrangements, the SERS receives the net return of the respective equity indices in exchange for a short-term rate plus a spread. The SERS uses multiple contracts with counterparties as well as collateral posting requirements to manage its credit risk. The contracts have varying maturity dates ranging from March 16, 2007 through December 17, 2007. Credit default swaps are agreements with counterparties to either purchase or sell credit protection. The SERS’ advisors use credit default swaps to either increase or decrease credit exposure to certain credit markets. Interest rate swaps are over-the-counter contracts that allow counterparties to exchange a fixed rate liability for a floating rate liability. The SERS uses interest rate swaps as the most cost-effective way of gaining exposure to certain sectors of the fixed income market.

NOTE D – DEPOSITS, INVESTMENTS AND FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK (continued)

The table below presents the SERS’ swap exposure at December 31, 2006 (amounts in thousands):

<u>Swap Type</u>	<u>Notional Value</u>	<u>Receivable/(Payable)</u>
S&P 500 Total Return Index.....	\$ 5,493,078	\$ 440,484
MSCI-EAFE Index.....	2,451,978	97,293
Goldman Sachs Commodity Index.....	1,595,177	(117,788)
Russell 2000.....	498,704	(500)
Interest Rate.....	22,550	867
Credit Default.....	239,200	1,577

The SERS mitigates its legal risk on investment holdings, including the previously discussed instruments, by carefully selecting portfolio managers and extensively reviewing their documentation. It manages its exposure to market risk within risk limits set by management.

The SERS also indirectly holds foreign exchange contracts, futures contracts, and certain swap contracts through its investments in collective trust funds. Those collective trust funds invest in those investments directly and indirectly (through a securities lending collateral pool), to hedge foreign exchange exposure, to synthetically create equity-like returns, and to manage interest rate risk by altering the average life of the portfolio.

Deferred Compensation Program (DCP)

The DCP, through the Barclays Global Investors (BGI) managed accounts, indirectly holds certain derivative financial instruments. Certain accounts directly participate in futures contracts, which are standardized, exchanged-traded contracts to purchase or sell a specific financial instrument at a predetermined price. The accounts enter into future contracts to gain exposure to certain equity markets. In those accounts where the use of futures contracts is permitted, BGI limits the accounts’ positions to a small amount of the account’s total assets, subject to each account’s investment and credit risk guidelines. The exchange on which the futures are traded assumes counterparty risk and generally requires margin payments to minimize such risk.

The BGI-managed accounts may also indirectly hold foreign exchange contracts, futures contracts, and certain swap contracts through a securities lending collateral pool. Those instruments are held to create “synthetic cash transactions.” Generally, synthetic cash transactions involve investing in one or more instruments that taken either individually or together have an interest rate, credit, or liquidity exposure similar to that of a conventional money market instrument. This may be so even though none of the individual instruments themselves have money market risk. Foreign exchange contracts are agreements to exchange the currency of one country for the currency of another country at an agreed-upon price and settlement date. As of December 31, 2006, the portfolio had no foreign exchange contracts. Swap agreements provide for periodic payments between parties based on the net difference in cash flows of underlying assets, indexes, or rates. To reduce the risk of counterparty nonperformance, the collateral pool generally enters into these contracts with institutions deemed to meet high standards of credit worthiness.

BGI mitigates its legal risk of derivative financial instruments by using them only in the accounts for which they are authorized. BGI manages its exposure to market risk within risk limits set for the accounts by buying and selling instruments or entering into offsetting positions. The following table discloses the futures contracts held and the derivatives held indirectly in the security lending collateral pool as of December 31, 2006 (amounts in thousands):

	<u>Notional Amount</u>
Equity Index Fund	
Futures directly held.....	\$ 3,945
Derivatives held indirectly in security lending cash collateral funds.....	21,417
Extended Market Fund	
Futures directly held.....	2,084
Derivatives held indirectly in security lending cash collateral funds.....	21,900
EAFE Equity Index Fund	
Futures directly held.....	3,993
Derivatives held indirectly in security lending cash collateral funds.....	4,909

NOTE D – DEPOSITS, INVESTMENTS AND FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK (continued)

Public School Employees’ Retirement System (PSERS)

The PSERS enters into a variety of financial contracts, which include options and futures. The PSERS also enters into foreign exchange positions, such as forward and spot contracts to obtain or hedge foreign currency exposure; swap agreements to gain exposure to certain sectors of the equity and fixed income markets; collateralized mortgage obligations (CMOs); other forward contracts, and U.S. Treasury STRIPS. The PSERS is not a dealer, but an end-user of these instruments. The contracts are used primarily to enhance performance and reduce the volatility of the portfolio. The PSERS is exposed to credit risk in the event of non-performance by counterparties to financial instruments. As the PSERS generally enters into transactions only with high quality institutions, no losses associated with counterparty nonperformance on derivative financial instruments have been incurred. Legal risk is mitigated through selection of executing brokers and review of all documentation. The PSERS is exposed to market risk, the risk that future changes in market conditions may make an instrument less valuable. Exposure to market risk is managed in accordance with risk limits set by senior management, through buying or selling instruments or entering into offsetting positions.

The notional or contractual amounts of derivatives indicate the extent of the PSERS’ involvement in the various types and uses of derivative financial instruments and do not measure the PSERS’ exposure to credit or market risks and do not necessarily represent amounts exchanged by the parties. The amounts exchanged are determined by reference to the notional amounts and the other terms of the derivatives.

The following table summarizes the aggregate notional or contractual amounts for the PSERS’ derivative financial instruments at June 30, 2007 (amounts in thousands):

<u>Type of Derivative</u>	<u>Notional Value</u>
Futures contracts – long.....	\$ 11,887,271
Futures contracts – short.....	4,528,407
Foreign exchange forward and spot contracts, gross.....	21,675,965
Options – calls purchased.....	1,622,129
Options – puts purchased.....	278,896
Options – calls sold.....	1,675,223
Options – puts sold.....	363,893
Swaps – total return.....	949,347
Swaps – interest rated.....	183,000

Futures contracts are contracts in which the buyer agrees to purchase and the seller agrees to make delivery of a specific financial instrument at a predetermined date and price. Gains and losses on future contracts are settled daily based on a notional (underlying) principal value and do not involve an actual transfer of the specific instrument. Futures contracts are standardized and are traded on exchanges. The exchange assumes the risk that a counterparty will not pay and generally requires margin payments to minimize such risk. In addition, the PSERS enters into short sales, sales of securities it does not presently own, to neutralize the market risk of certain equity positions. Initial margin requirements on futures contracts and collateral for short sales are provided by investment securities pledged as collateral and by cash held by various brokers. Although the PSERS has the right to access individual pledged securities, it must maintain the amount pledged by substituting other securities for those accessed. The value of securities pledged and the amount of cash held at June 30, 2007 represent a restriction on the amount of assets available as of year-end to use for other purposes.

Option contracts provide the option purchaser with the right, but not the obligation, to buy or sell the underlying security at a set price during a period or at a specified date. The option writer is obligated to buy or sell the underlying security if the option purchaser chooses to exercise the option. The System generally uses exchange listed currency, index, stock, and futures options. The PSERS has authorized an investment manager to write covered call stock index option spreads up to a notional amount of \$1.5 billion.

Foreign exchange contracts involve an agreement to exchange the currency of one country for the currency of another country at an agreed-upon price and settlement date. The \$21,676 million of foreign currency contracts outstanding at June 30, 2007 consists of “buy” contracts, which represent the U.S. dollar equivalents of commitments to purchase foreign currencies of \$9,327 million and “sell” contracts, which represent U.S. dollar equivalents of commitments to sell foreign currencies of \$12,348 million. The unrealized gain on contracts of \$26 million at June 30, 2007 is included in the PSERS’ net assets and represents the fair value of the contracts. The PSERS’ has authorized an investment manager to manage a currency hedge portfolio consisting of foreign exchange spot and forward contracts, currency futures, and currency options to hedge up to a notional amount of \$5.1 billion of the MSCI-EAFE Index currencies to U.S. dollars.

NOTE D – DEPOSITS, INVESTMENTS AND FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK (continued)

Swap agreements provide for periodic payments at predetermined future dates between parties based on the change in value of underlying indexes or interest rates. During the fiscal year ended June 30, 2007, the PSERS entered into total return swaps and interest rate swaps. Under the total return swap arrangements, the PSERS receives the net return of certain equity indexes in exchange for a short-term rate minus a spread. The payable on the total return swap contracts of (\$7.11 million) at June 30, 2007 is included in the Statements of Plan Net Assets and represents the fair value of the contracts. The contracts have varying maturity dates ranging from January 30, 2008 to April 11, 2008. Interest rate swap agreements involve the exchange by the PSERS with another party of their respective commitments to pay or receive interest, e.g. an exchange of floating rate payments for fixed rate payments with respect to a notional amount of principal. The PSERS uses interest rate swaps as the most cost-effective way to gain exposure to certain sectors of the fixed income market. The receivable on the interest rate swap contracts of \$2.424 million at June 30, 2007 is included in the Statements of Plan Net Assets and represents the fair value of the contracts. The contracts have varying maturity dates ranging from April 15, 2010 to April 15, 2028.

The PSERS also invests in mortgage-backed securities (MBS) such as CMOs and MBS forwards to maximize yields. These securities are sensitive to prepayments of mortgages, which may result from a drop in interest rates. The MBS forwards are subject to credit risk in the event of nonperformance by counterparties. The fair value of CMOs at June 30, 2007 is \$2.6 billion.

The PSERS invests in U.S. Treasury STRIPS, which essentially act as zero coupon bonds and are subject to market volatility from an increase or decrease in interest rates.

Through certain collective trust funds, the PSERS also indirectly holds various derivative financial instruments. The collective trust funds invest in futures and options thereon; forward foreign currency contracts; options; interest rates, currency, equity, index, and total return swaps; interest-only STRIPS, and CMOs, to enhance the performance and reduce the volatility of their portfolios.

Discretely Presented Component Units**Authority for Deposits and Investments**

Component unit organizations typically control receipt and disbursement of their own deposits, often through a trustee. Enabling legislation provides varying authority for investments; several component unit organizations participate in the TIP.

Deposit Risks

At June 30, 2007, the Pennsylvania Higher Education Assistance Agency had \$15,900 of deposits with financial institutions in excess of federal depository insurance limits that were uninsured and collateralized following an agreement to pledge assets on a pooled basis to secure public deposits in Pennsylvania. The Pennsylvania Housing Finance Agency had \$830,219 of cash deposits that were uninsured and collateralized with securities held by the pledging financial institution, its trust department or agent, but not in their name. Commonwealth Financing Authority had \$335,234 in deposits that were uninsured and collateral held by pledging bank's trust department not in the Authority's name. At June 30, 2007, the State System of Higher Education had \$1,107 uninsured and uncollateralized deposits; and \$19,798 uninsured and uncollateralized deposits, but covered under the collateralization provisions of the Commonwealth of Pennsylvania Act 72 of 1971, as amended. The Philadelphia Regional Port Authority had \$395 in deposits uninsured but collateralized by the financial institution and \$1 in deposits that were uncollateralized. The Pennsylvania Infrastructure Investment Authority disclosed \$399 in deposits that were uninsured and uncollateralized and included both cash and U.S. Treasury money market funds. The Insurance Fraud Prevention Authority had deposits of \$254 that were uncollateralized (amounts in thousands).

Investment Risks

Risk Management Policies: At June 30, 2007 component unit policies for certain risks are established by governing boards; policies for the Pennsylvania Turnpike Commission are established by its bond indentures. Most of the organizations' policies address credit quality risk by establishing minimum NRSRA ratings for allowable investment purchases. Concentration risk is also avoided by most of the organizations by limiting the concentration of investments in any one issuer. Some organizations have policies in place that prohibit a certain percent of the overall portfolio, whereas others determine concentration limits based on security type. Custodial credit risk is typically avoided through registration. The Pennsylvania Higher Education Assistance Agency investment policy does not contain requirements that limit the exposure to custodial credit risk.

NOTE D – DEPOSITS, INVESTMENTS AND FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK (continued)

Investments by Type

At June 30, 2007 the discretely reported component units disclosed a total of \$3,496,120 in investments. This consists of approximately 99 percent fixed income securities (\$3,470,625), and the remaining 1 percent consists of common stock (\$2,805), mutual funds (\$22,561), preferred stock (\$23), and cash and cash equivalents (\$106). The investment types and related amounts are as follows (amounts in thousands):

<u>Investment Type</u>	<u>Amount</u>
Asset-backed securities.....	\$ 48,294
Cash and cash equivalents.....	106
Commercial paper.....	310,452
Common stock securities.....	2,805
Corporate obligations.....	282,331
Fixed income mutual funds.....	3,861
Guaranteed investment contracts.....	281,049
Money market mutual funds.....	166,861
Mortgage-backed securities.....	140,807
Mutual funds.....	22,561
Preferred securities.....	23
Repurchase agreements.....	225,556
State and municipal obligations.....	25,958
Treasury Investment Program.....	509,613
U.S. government agency obligations.....	1,353,338
U.S. Treasury obligations.....	122,505
Total.....	<u>\$ 3,496,120</u>

Custodial Credit Risk: Custodial credit risk for investments is the risk that, in the event a counterparty fails to uphold their agreement to a transaction, with any of the discretely presented component units, they would not be able to recover the value of investment or collateral securities in the possession of an outside party. At June 30, 2007 the Pennsylvania Higher Education Assistance Agency had \$11,970 in U.S. government agency obligations and \$85,924 in commercial paper subject to custodial credit risk that were held by the same counterparty that was used to buy the securities (amounts in thousands).

Concentration Risk: Concentration risk is the risk of loss attributed to the magnitude of the organizations’ investment in a single issuer. Several of the organizations limit concentration to five percent or more of their total investments, with the exception of U.S. Treasury and U.S. Government Agencies. The State System of Higher Education has policies that do not limit the concentration in any single issuer for corporate bonds, collateralized mortgage obligations, and asset-backed securities. The Pennsylvania Housing Finance Agency has not established a formal concentration risk policy. Also, among the organizations, the following concentrations existed as of June 30, 2007 (May 31, 2007 for the Pennsylvania Turnpike Commission) (amounts in thousands):

<u>Issuer</u>	<u>PA Turnpike Commission</u>	<u>PA Higher Education Assistance Agency</u>
Federal Home Loan Bank.....	\$ 234,448	\$ -

Federal National Mortgage Association.....	266,165	-
IXIS Funding.....	-	51,064
MBIA, Inc.....	-	65,620
Trinity Plus Funding Company.....	-	83,326

Credit Quality Risk: At June 30, 2007, \$3,470,625 of total discretely presented component unit investments of \$3,496,120 are fixed income investments, susceptible to credit quality rating. Of the amount of fixed income securities susceptible to credit quality rating, \$2,121,317 are rated and \$1,349,308 of fixed income investments do not have ratings available. The following

NOTE D – DEPOSITS, INVESTMENTS AND FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK (continued)

table discloses aggregate fair value, by Moody’s or Standard and Poor’s credit quality rating category, at June 30, 2007 (May 31, 2007 for Pennsylvania Turnpike Commission) (amounts in thousands):

<u>Moody's Investor Services^a</u>	<u>Amount</u>

<u>Unrated</u>	<u>Amount</u>
U.S. government agency obligations ^b	\$ 391,174
U.S. Treasury obligations ^c	122,505
Treasury Investment Program.....	509,613
Other.....	326,016
Unrated subtotal.....	<u>\$ 1,349,308</u>
 Total Fixed Income Investments.....	 <u>\$ 3,470,625</u>

^a The Moody’s rating represents all of the securities that fall within subcategories of the ratings shown in this table. For example, a security with a rating of Baa1 is shown as a rating of Baa in this table.

^b U.S. government agency obligations rating is assigned to securities issued by Government Sponsored Enterprises (GSEs) and government-owned corporations. Some widely known GSEs include Federal National Mortgage Association, Federal Home Loan Mortgage Corporation and several other entities. Agency (or GSE) bonds are not normally rated. GSE bonds are not explicitly backed by the full faith and credit of the U.S. Government but they have implied government backing and an implied Aaa/AAA rating.

^c U.S. Treasury obligations rating is assigned to securities issued by the U.S. Treasury. They are negotiable debt obligations of the U.S. Government secured by its full faith and credit. U.S. Treasury bonds are not usually rated by the NRSRA.

NOTE D – DEPOSITS, INVESTMENTS AND FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK (continued)

Interest Rate Risk: Interest rate risk is managed using different techniques: weighted average maturity, maximum maturity dates, effective duration, modified duration or operational cash needs. The following table discloses option-adjusted duration (in years) by investment type for the fixed income portfolio of the discretely presented component units, excluding the Pennsylvania Higher Education Assistance Agency, the Pennsylvania Housing Finance Agency, and the Pennsylvania Industrial Development Authority, at June 30, 2007 (May 31, 2007 for the Pennsylvania Turnpike Commission) (amounts in thousands):

<u>Investment Type</u>	<u>Amount</u>	<u>Option-Adjusted Duration</u>	<u>Securities with no Duration</u>
Asset-backed securities.....	\$ 48,294	1.098	\$ -
Commercial paper.....	224,528	0.050	-

Total.....	\$ 658,603	\$ 281,131	\$ 51,339	\$ 55,942	\$ 1,047,015

Foreign Currency Risk: Foreign currency risk is the risk of an investment’s value changing, advantageously or adversely, due to changes in currency exchange rates. The State System of Higher Education disclosed that \$29 of local investments were exposed to foreign currency risk. The amounts invested, by currency, are as follows (amounts in thousands):

<u>Foreign Currency</u>	<u>Amount</u>
Euro Currency Unit.....	\$ 22
British Pound Sterling.....	7
Total.....	\$ 29

NOTE D – DEPOSITS, INVESTMENTS AND FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK (continued)**Financial Instruments with Off-Balance Sheet Risk**

As of June 30, 2007, the Pennsylvania Housing Finance Agency, the Pennsylvania Turnpike Commission, the Pennsylvania Higher Education Assistance Agency, the Philadelphia Regional Port Authority, and the Pennsylvania Industrial Development Authority all had financial instruments with off-balance sheet risk. To obtain further information regarding the nature and notional value of the financial instruments refer to their separately audited and issued financial statements.

NOTE E – CAPITAL ASSETS

A summary of capital assets by category at June 30, 2007 is as follows (amounts in thousands):

Total	<u>\$ 827,971</u>	<u>\$ 404,350</u>	<u>\$ 423,621</u>

The Commonwealth’s initial valuation of general capital assets was made as of June 30, 1986 using appraisal and historical cost reconstruction techniques. Subsequent to June 30, 1986, general capital asset acquisitions are reported at cost or, for donations or confiscations, at fair market value. At June 30, 2007 the amount of general capital assets related to the initial 1986 valuation amounted to \$1,752 million and did not include highway, bridge or waterway infrastructure.

NOTE F – LONG-TERM OBLIGATIONS - BUSINESS-TYPE ACTIVITIES AND PROPRIETARY FUNDS

Tuition Benefits Payable

The reported liability for tuition benefits payable of \$1,231,228 (amounts in thousands) of the **Tuition Payment Fund**, an Enterprise Fund, at June 30, 2007, is based on several actuarial assumptions, including those related to future sales of tuition credits, tuition cost increases, investment experience and program expenses for the Guaranteed Savings Plan of the Tuition Account Program. The June 30, 2007 actuarial analysis includes several changes in assumptions to reflect the current view of tuition inflation, updated expense projections and incorporation of the investment advisor’s outlook regarding investment returns. The per-unit credit expense assumption was increased from 47 to 49 cents. The effect of this change decreased the aggregate actuarial reserve (actuarial value of assets less liabilities) by \$25.5 million.

Insurance Loss Liability

The reported insurance loss liability of the **State Workers’ Insurance Fund (SWIF)**, an Enterprise Fund, is primarily based on historical claims experience. One of the assumptions used to determine the reported liability amount includes using a discount rate of 3.5 percent at December 31, 2006 and December 31, 2005. There is uncertainty as to whether the reported liability will be supported by future claim experience, including payments; this uncertainty must be considered when evaluating the reported insurance loss liability.

For the calendar years ended December 31, 2006 and 2005, the following summary provides information on prior year reported insurance loss liability, incurred claims and payments, and current year reported insurance loss liability (amounts in thousands).

<u>Year Ended</u> <u>December 31</u>	<u>Prior Year</u> <u>Liability</u>	<u>Incurred Claims</u>		<u>Payments</u>		<u>Current Year</u> <u>Liability</u>
		<u>Current</u>	<u>Prior</u>	<u>Current</u>	<u>Prior</u>	
2006.....	\$1,426,177	\$ 496,273	\$ (45,826)	\$ 69,983	\$ 283,772	\$1,522,869
2005.....	\$1,373,810	\$ 486,100	\$ (162,258)	\$ 59,105	\$ 212,370	\$1,426,177

Additionally, nonmajor Enterprise funds reported \$1,002 of insurance loss liability at June 30, 2007 (amounts in thousands).

Compensated Absences

The reported compensated absence liability for the proprietary funds totaled \$32,808 at June 30, 2007. Of that amount, the liability is primarily owed by the State Stores Fund (\$26,770), the **State Worker’s Insurance Fund** (\$2,229), and the **State Lottery Fund** (\$1,573), all enterprise funds. The following summary provides aggregated information reported on June 30, 2006 compensated absence liabilities; additions and reductions during the fiscal year ended June 30, 2007 and reported compensated absence liabilities at June 30, 2007 (amounts in thousands):

<u>Liability at</u> <u>June 30, 2006</u>	<u>Additions</u>	<u>Reductions</u>	<u>Liability at</u> <u>June 30, 2007</u>
\$ 34,945	\$ 20,747	\$ 22,884	\$ 32,808

Capital Lease Obligation

The **State Lottery Fund**, an Enterprise Fund, has entered into an agreement to lease vending machines used for lottery ticket sales. This agreement is an in-substance purchase (capital lease) and is reported as a capital lease obligation. The following is a schedule by fiscal year of future minimum payments under the capital lease agreement, together with the present value of the net minimum lease payments as of June 30, 2007 (amounts in thousands):

Fiscal year ending June 30	
2008	\$ 12,159
2009	6,080
Total minimum lease payments	18,239
Less: amount representing interest	864
Total capital lease obligations	\$ <u>17,375</u>

At June 30, 2007 proprietary fund capital assets included \$42.3 million of equipment being procured by this capital lease.

NOTE G - TAXES, LOANS AND LEASE RENTALS RECEIVABLE

On the governmental funds balance sheet, the **General Fund** taxes receivable of \$1,950,218 expected to be collected after August 31, 2007 is reported as an unearned revenue liability. The total amount of taxes receivable reported on the governmental funds balance sheet, \$2,345,522 (\$2,142,767 reported in the **General Fund**, \$178,355 reported in the **Motor License Fund**, and \$24,400 reported in nonmajor governmental funds), expected to be collected from July 1, 2007 through June 30, 2008 is also reported as current taxes receivable in governmental activities on the Statement of Net Assets. The remaining **General Fund** taxes receivable of \$1,242,012 reported on the governmental funds balance sheet expected to be collected after June 30, 2008 is reported as noncurrent taxes receivable in governmental activities on the Statement of Net Assets. All of the revenue associated with the taxes receivable reported in governmental activities on the Statement of Net Assets is reported as tax revenue in governmental activities on the Statement of Activities.

Loans Receivable: Loans receivable at June 30, 2007 consisted of the following (amounts in thousands):

Primary Government

NOTE G - TAXES, LOANS AND LEASE RENTALS RECEIVABLE (continued)

The **General Fund** reports \$5,356 in loans due after June 30, 2008, Special Revenue funds report \$34,893 in loans due after June 30, 2008 and the Enterprise funds report \$233,706 in loans due after June 30, 2008. Discretely presented component units reported \$16,079,816 in loans receivable due after June 30, 2008 (amounts in thousands).

The **General Fund** reported \$11,113 in loans receivable for program objectives, all of which represented governmental activities lending and of which, \$5,356 is due after June 30, 2008. Agency Funds reported \$2,030 in loans receivable to replace underground storage tanks, of which \$1,812 is due after June 30, 2008 (amounts in thousands).

Lease Rentals Receivable: The Capital Facilities Fund, a Capital Projects fund, reports expenditure amounts related to construction projects for educational institutions funded through the issuance of general obligation bonds, the principal and interest of which are paid through the collection of lease rental payments and deposited in the Capital Debt Fund, a Debt Service fund. At the conclusion of the lease terms, the project facilities are conveyed to the educational institutions. Accordingly, these lease arrangements are classified as direct financing leases. Lease rental receivables and associated deferred revenue equal to the principal lease payments to be received are recorded in the Capital Debt Fund. At June 30, 2007 the total remaining minimum lease payments to be received were \$834, consisting of principal present value of \$652 and interest of \$182 (amounts in thousands).

The Pennsylvania Industrial Development Authority, a discretely presented component unit, reported a lease rental receivable with total remaining minimum payments to be received of \$15.4 million, consisting of principal present value of \$14.5 million and interest of \$.9 million at June 30, 2007.

Minimum lease payments receivable for the four fiscal years succeeding June 30, 2007 are as follows (amounts in thousands):

<u>Fiscal Year Ending June 30</u>	<u>Primary Government</u>	<u>Discretely Presented Component Units</u>
2008.....	\$ 194	\$ 6,582
2009.....	194	3,517
2010.....	127	3,517
2011.....	-	1,759

Except for \$194 owed to the primary government and \$6,582 owed to discretely presented component units, all amounts receivable under lease rentals are due after June 30, 2008 (amounts in thousands).

Governmental Funds Unearned Revenue: The **General Fund**, Special Revenue Funds, and Debt Service Funds reported unearned revenue at June 30, 2007. The following chart provides the portion of total unearned revenue which was 1) unavailable or 2) not yet earned as of June 30, 2007 (amounts in thousands):

	<u>General</u>	<u>Special Revenue</u>	<u>Debt Service</u>
Unavailable	\$ 1,950,218	\$ 24,520	\$ 4,031
Unearned	<u>64,212</u>	<u>211,753</u>	-
Total unearned revenue	<u>\$ 2,014,430</u>	<u>\$ 236,273</u>	<u>\$ 4,031</u>

NOTE H – INTERNAL/INTERFUND BALANCES AND TRANSFERS

Statement of Net Assets

Internal Balances

In the Statement of Net Assets, reported internal balances of (\$88,181)/\$87,331 for governmental activities/business-type activities differ by \$850 because the **State Workers’ Insurance Fund**, an Enterprise Fund, reports for its fiscal year ended December 31, 2006.

Fund Financial Statements

Interfund Balances

The composition of governmental and proprietary funds interfund balances reported at June 30, 2007 is as follows, with Major Fund titles in bold. Aggregate nonmajor governmental funds receivables from other funds and from component units, respectively, amount to \$49,149 and \$25,570; aggregate nonmajor enterprise funds receivables amount to \$2,902 and \$6; aggregate internal service funds receivables amount to \$11,125 and \$606 (amounts in thousands):

Advances – Fund Financial Statements

At June 30, 2007 the **General Fund** reported Advances to Other Funds of \$114,108. Specifically, this amount has been advanced as follows: \$2,300 to the **State Workers' Insurance Fund** and \$85,000 to the State Stores Fund, Enterprise Funds; \$2,175 to the **Motor License Fund** and \$10,333 to the Pharmaceutical Assistance Fund, Special Revenue Funds; and, \$14,300 to the Purchasing Fund, an Internal Service Fund. These amounts have been reported by the respective owing Funds as Advances from Other Funds, except for the **State Workers' Insurance Fund**, which reported an advance of \$1,820 at its fiscal year ended December 31, 2006. At June 30, 2007 the Hazardous Sites Cleanup Fund, a Special Revenue Fund, reported an Advance to Other Funds of \$3,000. This amount was advanced to the Small Business First Fund, an Enterprise Fund. All amounts advanced are expected to be repaid subsequent to June 30, 2008. The Underground Storage Tank Indemnification Fund, an Agency Fund, reported a \$76,500 statutory advance to the **General Fund** at June 30, 2007. Subsequent to June 30, 2008, \$70,500 (amounts in thousands) are expected to be repaid.

Primary Government Transactions with Discretely Presented Component Units

During the fiscal year ended June 30, 2007 (May 31, 2007 for PA Turnpike Commission), Commonwealth support reported by the discretely presented component units is (amounts in thousands):

State System of Higher Education (appropriation, grant, subsidy)	\$ 626,511
PA Higher Education Assistance Agency (appropriation, grant, subsidy)	\$ 452,003
PA Turnpike Commission (oil franchise tax, vehicle registration fees)	\$ 95,071
Ben Franklin Technology Development Authority (appropriation, grant, subsidy)	\$ 50,200
PA Infrastructure Investment Authority (capital contribution)	\$ 13,148

Assigned Investment Income: Certain assigning Funds, as follows, receive but do not financially report investment income that is assigned to (and reported by) another Fund for legal or contractual reasons. Investment income and related interfund transfers are reported by those Funds which assign/receive investment income for other than legal/contractual reasons (in thousands).

<u>Assigning Fund</u>	<u>Receiving Fund</u>	<u>Reason</u>	<u>Amount</u>
Liquor License	General	Legal/contractual	\$ 105
Liquid Fuels Tax	Motor License	Legal/contractual	\$ 580
Land and Water Development	Land and Water Development Sinking	Legal/contractual	\$ 90
Remining Financial Assurance	Land and Water Development Sinking	Other than legal/contractual	\$ 196
Fire Insurance Tax	State Insurance	Legal/contractual	\$ 2,142

NOTE H – INTERNAL/INTERFUND BALANCES AND TRANSFERS (continued)

Transfers

A summary of transfers reported for the fiscal year ended June 30, 2007 is as follows, with Major Fund titles in bold. Aggregate nonmajor governmental fund transfers from other funds amounted to \$1,263,058 during the fiscal year ended June 30, 2007 and include a \$204,000 transfer from the **State Lottery Fund** to the Pharmaceutical Assistance Fund. Aggregate nonmajor governmental fund transfers to other funds amount to \$170,626. Aggregate nonmajor proprietary fund transfers to other funds amount to \$169,500 (amounts in thousands):

<u>PRIMARY GOVERNMENT</u>	<u>TRANSFERS IN</u>	<u>TRANSFERS OUT</u>

NOTE I - RETIREMENT AND OTHER POSTEMPLOYMENT BENEFITS**Pension Systems**

Commonwealth laws established contributory defined benefit pension plans covering substantially all Commonwealth and public school employees. Generally, Commonwealth employees are members of the State Employees' Retirement System (SERS) and public school employees are members of the Public School Employees' Retirement System (PSERS). Both the SERS and the PSERS are reported as Pension Trust Funds, Fiduciary funds. Both the SERS and the PSERS issue stand-alone, audited financial statements, which are available to the public. Written requests for SERS or PSERS financial statements and other financial statement inquiries should be directed to the following addresses:

State Employees' Retirement System
30 North Third Street, Suite 150
Harrisburg, PA 17101-1716

Public School Employees' Retirement System
Bureau of Communications
P.O. Box 125
Harrisburg, PA 17108-0125

State Employees' Retirement System

Plan Description: The SERS is the administrator of a cost-sharing multiple-employer defined benefit retirement system established to provide pension benefits for employees of state government and certain other organizations. At December 31, 2006 there were 108 employer state agencies and other organizations participating in the SERS. The SERS provides retirement, death, and disability benefits.

Retirement Benefits: Article II of the Pennsylvania Constitution provides the General Assembly the authority to establish and amend benefit provisions. Retirement benefits generally vest after five years of credited service. Employees who retire at age 60 with three years of service, or with 35 years of service if under age 60, are entitled to a normal (unreduced) annual retirement benefit. Members of the General Assembly and certain employees classified in hazardous duty positions can retire with full benefits at age 50 with at least three years of service.

Act 2001-9 (Act 9), signed into law on May 17, 2001 established Class AA membership whereby, generally, annual full retirement benefits for electing active members is 2.5 percent of the member's highest three-year average salary (final average salary) multiplied by years of service. State employees hired after June 30, 2001 are Class AA members. Members hired before May 17, 2001 had the option, but were not required, to elect Class AA membership. Substantially all eligible members chose the Class AA option. For legislators in office on May 17, 2001 Act 9 established Class D-4 membership whereby the general annual benefit is 3 percent of final average salary for each year of service.

The general annual benefit for full retirement for Class A members is 2 percent of the member's highest three-year salary multiplied by years of service. State police troopers are entitled to an annual benefit equal to a percentage of their highest annual salary (excluding their year of retirement). The annual benefit is 75 percent of salary for 25 or more years of service and 50 percent of salary for 20-24 years of service. Judges are entitled to a benefit of 4 percent of final average salary for each of the first 10 years of service and 3 percent for subsequent years. District Justices are entitled to a benefit of 3 percent of final average salary for each year of service.

Funding Policy: Commonwealth law determines all member contribution rates. The active plan member contribution rate is 5 percent of covered payroll for most employees in Class A; for Class AA members, the contribution rate is 6.25 percent. Higher contributions are required for certain members of the General Assembly and judges and district justices who elect higher contribution rates. The SERS Board has the authority to establish or amend periodic employer contributions at actuarially determined rates, expressed as a percentage of annual covered payroll. The employer rate-setting process is intended to provide employer contributions which, when combined with member contributions and investment returns, are adequate to pay benefits when due.

Act 9 provided that new benefits arising therefrom were to be funded over a ten-year period, with level dollar funding, beginning July 1, 2002. Act 9 also provided that all the existing actuarial assets and liabilities were to be combined and refinanced over a ten-year period using level dollar funding and future actuarial gains and losses were to be amortized using ten-year level dollar funding. On December 10, 2003, Governor Rendell signed Act 2003-40 (Act 40) into law. The significant provisions of the law were to change certain actuarial methods and periods used to amortize actuarial assets and liabilities.

NOTE I - RETIREMENT AND OTHER POSTEMPLOYMENT BENEFITS (continued)

Pursuant to Act 40, beginning July 1, 2005, the SERS established employer contribution rates which resulted in total 2005 and 2006 employer contributions which were lower than the minimum annual required contribution as defined by GASB Statement No. 25. Since the SERS is a cost-sharing multiple-employer defined benefit retirement system and all SERS-required employer contributions were made, no unfunded pension liability is reported by the Commonwealth as of June 30, 2007.

During each of the three years ended December 31, the annual required employer contributions (amounts in thousands) and the related percentage of that amount actually contributed are as follows (amounts in thousands):

<u>Year ended December 31</u>	<u>Annual Required Contribution</u>	<u>Percentage Contributed</u>
2006	\$ 548,745	35.6
2005	\$ 319,190	46.1
2004	\$ 105,229	100.0

At December 31, 2006, the SERS disclosed no long-term contracts for contributions to the plan.

Summary of Significant Accounting Policies: The SERS financial statements are prepared on the accrual basis of accounting, whereby expenses are recorded when the liability is incurred, revenues are recorded in the accounting period in which they are earned and become measurable, and investment purchases and sales are recorded as of the related trade date. Member and employer contributions are recognized in the period in which employee salaries are reported. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Investment Valuation: Investments are reported at fair value, which is the amount that the SERS can reasonably expect to receive for an investment in a current sale between a willing buyer and a willing seller, that is, other than in a forced or liquidation sale. The investment in the Commonwealth Treasury short-term investment pool is reported at cost plus allocated interest, which approximates fair value. Collateral received under the Commonwealth Treasury securities lending program is reported at cost plus accrued interest, which approximates fair value. United States government obligations, corporate and foreign bonds and notes, and common and preferred stocks are generally valued based on published market prices and quotations from national security exchanges and securities pricing services. Securities that are not traded on a national security exchange are valued by the asset manager or third parties based on similar sales. The System has entered into certain swap contracts with a notional amount equivalent to the System’s original investment in the absolute return fund-of-funds and global macro limited partnerships to provide S&P 500, Russell small/midcap, and Morgan Stanley’s Europe, Australasia, and Far East (EAFE) indices returns. The combination of the swaps and the underlying investments result in a return consistent with an actively managed equity portfolio. Accordingly, those investments have been classified as common stocks and preferred stocks on the statement of net assets. Real estate is primarily valued based on appraisals performed by independent appraisers or, for properties not appraised, at the present value of the projected future net income stream.

Alternative investments, which include interests in limited partnerships invested in venture capital, leveraged buyouts, private equities, and other investments are valued based on estimated fair value amounts established by valuation committees, which are subject to an annual independent audit. The values for real estate and alternative investments are reported on a one-quarter lag (September 30), adjusted for cash flows through December 31. Foreign exchange and futures contracts are marked-to-market daily with changes in fair value recognized as part of investments and investment income. The fair values of swaps are determined no less than monthly based on the return of the underlying indices, which is generally exchanged for a short-term rate plus a spread.

The Collective Trust Funds (CTF) consists primarily of domestic and international institutional mutual and index funds. The funds do not pay interest or dividends to shareholders, and reinvest all income earned on securities held by the fund. The fair value of CTF is based on the reported share value of the respective fund.

Unsettled investment sales are reported as investment proceeds receivable and unsettled investment purchases are reported as investment purchases payable. Investment expenses consist of investment managers’ fees and those expenses directly related to the SERS’ investment operations.

NOTE I - RETIREMENT AND OTHER POSTEMPLOYMENT BENEFITS (continued)

Public School Employees' Retirement System

Plan Description: The PSERS is a cost-sharing multiple-employer defined benefit retirement system established to provide pension and other benefits for public school employee members. At June 30, 2007 there were 739 participating employers, generally school districts. The PSERS provides retirement, death, disability and health care benefits. In most cases, retirement benefits vest after 5 years of credited service. Members are eligible for full monthly retirement benefits upon reaching (a) age 62 with at least one year of service, (b) age 60 with 30 or more years of service, or (c) 35 or more years of service regardless of age.

Act 9 of 2001 provided for members to elect Membership Class T-D and convert from Membership Class T-C effective July 1, 2001. Benefits for full retirement are generally equal to 2 percent (Membership Class T-C) or 2.5 percent (Membership Class T-D) of the member's final average salary multiplied by number of years of credited service. The Commonwealth has the authority to establish or amend benefit provisions.

Funding Policy: The Public School Employees' Retirement Code provides that the PSERS Board has the authority to establish or amend periodic employer contributions at actuarially determined rates, expressed as a percentage of annual covered payroll. The active plan member contribution rates for employees in Membership Class T-C and T-D hired before July 22, 1983 are 5.25 and 6.50 percent of covered payroll, respectively; for employees in Membership Class T-C and T-D hired after July 21, 1983, the rate are 6.25 and 7.50 percent, respectively. The increased member contribution rates for Class T-D became effective January 1, 2002. Commonwealth law determines member contribution rates.

Since 1995, employers defined as school entities (school districts, area vocational-technical schools, and intermediate units) are required to pay the entire employer contribution. The Commonwealth partially reimburses school entities in accordance with Act 29 of 1994. The amount of reimbursement is at least one half of the total employer contribution. For employers that are not school entities, the employer and the Commonwealth pay the employer contribution equally to the PSERS; no Commonwealth reimbursement occurs.

Act 40 of 2003 amended the actuarial cost method in three areas that affect employer contribution rates. Act 40 changed the amortization period from 10 years to 30 years for: unfunded liabilities accrued as a result of Act 9 of 2001; outstanding balances of net actuarial losses during the fiscal years ended June 30, 2001 and 2002; and net gains and losses in future years. Act 40 continued a 10-year amortization period for unfunded liabilities accrued prior to Act 9 of 2001; any future active member improvements; and any retiree cost-of-living adjustments. Finally, Act 40 established an employer contribution rate 'floor' of 4 percent, exclusive of the premium assistance contribution rate, beginning July 1, 2004.

During each of the three fiscal years ended June 30, the annual required employer contributions (in thousands) and the related percentage of that amount actually contributed are as follows:

Fiscal year <u>Ended June 30</u>	Annual Required <u>Contribution</u>	Percentage <u>Contributed</u>
2007	\$1,708,821	39
2006	\$1,328,373	34
2005	\$ 945,107	46

At June 30, 2007, the PSERS disclosed that \$133,608 of \$256,932 (in thousands) of member receivables for purchases of service credit is due subsequent to June 30, 2008.

Summary of Significant Accounting Policies: The PSERS financial statements are prepared on the accrual basis of accounting, whereby expenses are recorded when the liability is incurred, revenues are recorded in the accounting period in which they are earned and become measurable, and investment purchases and sales are recorded as of the related trade date. Member and employer contributions are recognized in the period in which employees' salaries are reported. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Investment Valuation: Investments are reported at fair value, which is the amount that the PSERS can reasonably expect to receive for an investment in a current sale between a willing buyer and a willing seller, that is, other than in a forced or liquidation sale. Short-term securities are reported at cost, which approximates fair value, unless they have a published market price or quotation from national security exchanges or securities pricing services, in which case they are reported at the published market price. Fixed income securities and common and preferred stocks are generally reported based on published

NOTE I - RETIREMENT AND OTHER POSTEMPLOYMENT BENEFITS (continued)

market prices and quotations from national security exchanges or securities pricing services. Securities that are not traded on a national security exchange are valued by the respective fund manager or other third parties based on similar sales. Real estate is primarily valued based on appraisals performed by independent appraisers or, for properties not appraised, at cost or the present value of projected future net income.

Alternative investments, which include private equity, private debt, venture capital and equity real estate, are primarily valued based on amounts established by valuation committees; such amounts include cash flow activity through fiscal year-end. Futures contracts, foreign exchange contracts, and options are marked-to-market daily; changes in market value are recognized as part of net appreciation/depreciation in the fair value of investments. Initial margin requirements for such financial instruments are provided by investment securities pledged as collateral or by cash.

Collective trust fund investments (CTF) consist primarily of domestic and international institutional funds. The funds do not pay interest or dividends to shareholders and reinvest all income earned on securities held by the fund. The fair value of CTF is based on the reported share value of the respective fund. CTF are managed by state chartered banks for which various state banking departments have regulatory oversight and investment advisors for which the Securities and Exchange Commission has regulatory oversight.

Other Postemployment Benefits

The Commonwealth funds certain health care benefits for retired primary government and certain component unit employees (that meet specified length-of-service and age requirements) and their eligible dependents. These benefits are provided as a result of negotiated union contracts and through administrative policy. The Commonwealth recognizes the cost of providing these benefits as paid, which totaled \$580 million for the fiscal year ended June 30, 2007. Approximately 101,000 individuals were covered by these benefits during the fiscal year.

The Commonwealth provides several other postemployment benefits, including disability life insurance and certain benefits to beneficiaries of state police officers killed in the line of duty. The amount expended for these benefits was not material during the fiscal year ended June 30, 2007.

NOTE J - NOTES AND DEMAND REVENUE BONDS PAYABLE

Primary Government

During the fiscal year ended June 30, 2007, the Commonwealth did not issue any tax or bond anticipation notes or any other short-term debt and no short-term debt was repaid. At June 30, 2007 and 2006, no short-term debt was outstanding except for the current portion of a governmental activities statutory liability for an other financing obligation to the Underground Storage Tank Indemnification Fund, an Agency Fund, at June 30, 2007 amounting to \$6 million, and at June 30, 2006 amounting to \$6.5 million; the noncurrent portion of this statutory liability, also reported as an other financing obligation, amounted to \$70.5 million at June 30, 2007 and amounted to \$76 million at June 30, 2006.

Discretely Presented Component Units

The Pennsylvania Higher Education Assistance Agency (PHEAA), a discretely presented component unit, has reported \$9,089,176 of demand revenue bonds outstanding and \$2,695,748 of notes payable and other obligations, consisting of student loan financing of \$960,919, student loan floating rate notes of \$1,547,106, capital financing of \$74,467, term financings of \$69,930 and lines of credit of \$44,000, net of unamortized discount of \$674 at June 30, 2007 as follows (amounts in thousands):

	<u>Balance</u> <u>June 30, 2006</u>	<u>Additions</u>	<u>Reductions</u>	<u>Balance</u> <u>June 30, 2007</u>
Student loan demand revenue bonds due 2017-2047, at weighted average interest rates of 4.91 and 4.86 percent at June 30, 2007 and 2006, respectively.....	\$ 7,774,900	\$ 1,325,000	\$ -	\$ 9,099,900

Less: unamortized discount.....	<u>747</u>	<u>-</u>	<u>73</u>	<u>674</u>
Total capital and other financing obligations.....	<u>\$ 188,917</u>	<u>\$ 128,004</u>	<u>\$ 129,198</u>	<u>\$ 187,723</u>

NOTE J - NOTES AND DEMAND REVENUE BONDS PAYABLE (continued)

The note and bond indentures, among other things, require the PHEAA to comply with various covenants including minimum parity levels as defined, student loan and investment yields, and program expenses. The demand bonds payable are subject to purchase, at par plus accrued interest, by the PHEAA on demand of the bondholders upon seven days prior irrevocable written notice. Under the irrevocable letters of credit, the trustee is entitled to draw an amount sufficient to pay the purchase price of the bonds delivered to it. The letters of credit are valid from 2007 through 2015. The PHEAA is required to pay annual commitment fees ranging from 10 to 30 basis points on the stated amount of the letter of credit coverage. At June 30, 2007 total letter of credit coverage was \$1.8 billion.

All student loan demand revenue bonds payable and financing notes payable are collateralized by student loans and investments. At June 30, 2007, \$11.6 billion of debt was collateralized by \$11.6 billion of student loan principal and related interest receivable and \$329.3 million of investments and related interest receivable. Capital financings are collateralized with capital assets. Amounts due under other lines of credit are generally unsecured. At June 30, 2007 the PHEAA had \$399.1 million of available credit under student loan financing arrangements, \$2.7 million available credit under capital financings, and \$106.0 million available under other lines of credit.

Debt service requirements subsequent to June 30, 2007, based upon stated maturities of bonds payable, notes payable and other financing obligations are as follows (amounts in thousands):

<u>Year of Maturity</u>	<u>Student Loan Bonds and Notes</u>		<u>Other Financing Obligations</u>	
	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>
2008.....	\$ 960,919	\$ 549,457	\$ 4,849	\$ 10,669

Total principal.	<u>\$ 11,607,925</u>	-	<u>\$ 188,397</u>	-

The PHEAA has \$11.6 billion of student loan bonds and notes that are variable-rate debt, of which \$1.7 billion resets based upon auctions every seven days, \$6.7 billion resets based upon auctions every 28 days, \$791.0 million resets based upon auctions every 35 days, \$698.9 million is indexed to 91-day U.S. Treasury bills, \$1.6 billion is indexed to the 3-month LIBOR and the remaining \$112.0 million is indexed to the 1-month LIBOR. PHEAA notes and bonds payable, as well as all other debt, are limited obligations of the PHEAA. The PHEAA has no taxing power, and the Commonwealth is not obligated to pay the principal, redemption price, if any, or interest on any of the PHEAA's debt.

Additionally, at June 30, 2007, the Philadelphia Regional Port Authority reported current and non-current notes payable, respectively, of \$382 and \$2,408; component unit organizations of the State System of Higher Education reported non-current notes payable of \$69,518; and the Philadelphia Shipyard Development Corporation (PSDC) reported non-current notes payable of \$24,432 at its December 31, 2006 year end. Therefore, total reported notes payable – current and non-current for all discretely presented component units totaled \$961,301 and \$1,643,464 (amounts in thousands) at June 30, 2007 (December 31, 2006 for the PSDC).

**NOTE K – GENERAL LONG-TERM OBLIGATIONS-
GOVERNMENTAL ACTIVITIES AND COMPONENT UNITS**

Long-term obligations of the Commonwealth’s governmental activities at June 30, 2007 and changes for the fiscal year ended June 30, 2007 are as follows (amounts in thousands):

**NOTE K – GENERAL LONG-TERM OBLIGATIONS –
GOVERNMENTAL ACTIVITIES AND COMPONENT UNITS (continued)**

Additionally, the Port of Pittsburgh Commission and component unit organizations of the State System of Higher Education reported \$2,000 and \$517,740, respectively, of revenue bonds payable at June 30, 2007. Total reported current and noncurrent component unit revenue bonds were \$282,788 and \$7,997,369, respectively, at June 30, 2007 (May 31, 2007 for the PTC) (amounts in thousands).

Primary Government

The Commonwealth has pledged its full faith and credit for the payment of principal and interest on its general obligation bonds. Typically only the **General Fund** and the **Motor License Fund** transfer amounts to Debt Service funds for general obligation bond principal and interest payments. During the fiscal year ended June 30, 2007, respectively, these two Funds transferred \$820,585 and \$41,862 to the Capital Debt Fund, which reported \$850,648 (nearly 97 percent) of total Debt Service funds principal and interest expenditures of \$879,631 (amounts in thousands). Typically, except for Catastrophic Loss Benefits Claims, which are funded by motorist violation fines, general long-term obligations other than general obligation bonds are funded by the **General Fund** and/or the **Motor License Fund**. In specific, limited instances, a variety of individual Funds will fund some obligations; such instances include capital assets being procured using long-term vendor or other financing; where employees earn compensated absences; or where self-insurance claims originate.

The total “Additions” of \$1,366,190 for General Obligations Bonds Payable at June 30, 2007 consists of total bond and refunding bond proceeds of \$1,130,420 and \$253,892, respectively, for Governmental Funds (including premium of \$60,642), less net principal accretion on maturing debt for capital appreciation bonds of \$3,351 less deferred net refunded loss of \$14,771 during the fiscal year ended June 30, 2007. As part of the total “Additions” the total principal of \$1,320,319 for General Obligations Bonds Payable consists of bonds issued of \$1,073,000 and refunding bonds issued of \$250,670, less net principal accretion on capital appreciation bonds of \$3,351. In December 2006 and May 2007, \$50,000 and \$15,000, respectively, of bonds issued were distributed to the PA Infrastructure Investment Authority, a discretely presented component unit.

The total “Reductions” of \$778,191 for General Obligations Bonds Payable from Tax Revenues at June 30, 2007 consists of total principal of \$761,008, plus \$31,447 of bond premium that was amortized and credited to bond interest expense in the Statement of Activities (unamortized premium in the Statement of Net Assets at June 30, 2007 is \$560,179), less \$14,264 of deferred net refunded loss that was amortized and charged to bond interest expense in the Statement of Activities (unamortized deferred net refunded loss in the Statement of Net Assets at June 30, 2007 is \$168,786) (amounts in thousands):

	<u>Additions</u>	<u>Reductions</u>
Bonds/refunding bonds issued	\$1,323,670	\$ 761,008
Net principal accretion.....	(3,351)	-
Total principal	1,320,319	761,008
Unamortized premium on bonds/refunding bonds issued.....	60,642	31,447
Unamortized deferred net refunded loss	(14,771)	(14,264)
Changes in general obligation bonds payable	<u>\$1,366,190</u>	<u>\$ 778,191</u>

The Commonwealth uses fiscal agents to process payments for the servicing of certain bond issues. Additional cash with fiscal agents is held by the Federal government for unemployment compensation claims.

The balance outstanding at June 30, 2007 for general obligation refunding bonds includes \$8 million of accreted value for capital appreciation bonds. No principal or interest is payable on the capital appreciation bonds until maturity.

Included in “Other” for Other General Long-Term Obligations payable from workers’ compensation assessments, investment income and/or **General Fund** tax revenues are the following at June 30, 2007 (amounts in thousands):

Workers’ Compensation Security Trust Claims.....	\$ 563,855
Catastrophic Loss Benefits Claims	100,482
Public Utility Realty Tax Act (PURTA).....	30,000
Litigation—Note N.....	17,397
Restricted Receipts	2,153
Total	<u>\$ 713,887</u>

**NOTE K – GENERAL LONG-TERM OBLIGATIONS –
GOVERNMENTAL ACTIVITIES AND COMPONENT UNITS (continued)**

The Workers’ Compensation Security Trust Fund provides for payment of valid claims under the Workers’ Compensation Law to individuals whose employers are insured by insolvent insurance carriers. The Catastrophic Loss Benefits Trust Fund provides specific benefits to qualifying claimants who sustained severe injuries in motor vehicle accidents. The PURTA provides for a tax on utility realty property whereby amounts received during the fiscal year are used as a General Fund revenue source. The Act also provides for payment of a majority of the PURTA revenues as a distribution to local taxing authorities during the following fiscal year (normally in October). Such payments are appropriated for expenditure in the following fiscal year and are, therefore, not expendable during the fiscal year the related revenue is received. The other amounts included in General Long-Term Obligations at June 30, 2007 relating to Workers’ Compensation Claims, Catastrophic Loss Benefits Claims, and Litigation are not payable with currently expendable available financial resources.

The Commonwealth’s constitutional debt limit, which allows for the incurrence of debt to be used for capital projects without electorate approval as specifically itemized in a capital budget, was \$51.3 billion as of August 31, 2007, with net debt outstanding of \$6.8 billion.

Discretely Presented Component Units

The Pennsylvania Housing Finance Agency (PHFA), the Pennsylvania Higher Education Assistance Agency (PHEAA), the Pennsylvania Industrial Development Authority, the Pennsylvania Turnpike Commission (PTC) and the Pennsylvania Infrastructure Investment Authority, discretely presented component units, have pledged substantially all of their revenues for the redemption of revenue bonds outstanding. Revenue bonds outstanding as reported in this note disclosure for the fiscal year ended June 30, 2007 (May 31, 2007 for the PTC) include unamortized bond discount, unamortized bond premium, and deferred net refunded losses of \$9.6 million, \$68.3 million, and \$100.6 million, respectively.

The following table presents annual principal and interest payments for long-term debt outstanding for the primary government and discretely presented component units at June 30, 2007 (May 31, 2007 for the Pennsylvania Turnpike Commission) (amounts in thousands):

Additionally, the Port of Pittsburgh Commission and component unit organizations of the State System of Higher Education reported \$2,000 and \$517,740, respectively, of revenue bonds payable at June 30, 2007.

**NOTE K – GENERAL LONG-TERM OBLIGATIONS –
GOVERNMENTAL ACTIVITIES AND COMPONENT UNITS (continued)**

The Commonwealth has entered into certain agreements to lease various facilities and equipment. Such agreements are in-substance purchases (capital leases) and are reported as Capital Lease Obligations. In addition, the Commonwealth also makes purchases using installment purchase arrangements. The following is a schedule by fiscal year of future minimum payments under capital leases and installment purchase obligations, together with the present value of the net minimum lease payments as of June 30, 2007 (amounts in thousands):

	<u>Primary Government</u>		<u>Discretely Presented</u>
	<u>Capital Lease Obligations</u>	<u>Installment Purchase Obligations</u>	<u>Component Unit State System of Higher Education</u>
Fiscal year ending June 30			
2008.....	\$ 6,675	\$ 1,008	\$ 57,633
2009.....	6,585	927	56,551
2010.....	6,348	833	55,547
2011.....	6,224	698	52,802
2012.....	6,195	507	47,121
2013-17.....	24,781	1,258	256,768
2018-22.....	-	-	217,198
2023-26.....	-	-	<u>122,125</u>
Total minimum lease payments	56,808	5,231	865,745
Less: amount representing estimated executory cost included in minimum lease payments.....	<u>7,291</u>	-	-
Net minimum lease payments and Installment purchases.....	49,517	5,231	865,745
Less: amount representing interest	<u>12,879</u>	<u>1,221</u>	<u>263,445</u>
Total Capital Lease and Installment Purchase Obligations	<u>\$ 36,638</u>	<u>\$ 4,010</u>	<u>\$ 602,300</u>

At June 30, 2007 general capital assets included \$89.7 million of buildings and \$8.9 million of equipment being procured by capital leases. A total of \$16.6 million in general capital assets is being procured by vendor-financed installment purchase arrangements.

Capital lease obligations outstanding as of June 30, 2007 reported by the State System of Higher Education (SSHE), a discretely presented component unit, relate to various capital projects currently under construction for which a related public financing authority is the lessor. Revenue bonds were issued by the public financing authority to provide funding for these capital projects. SSHE capital assets include \$159.0 million of construction in progress related to capital leases at June 30, 2007.

Conduit Debt

The State Public School Building Authority (SPSBA), a discretely presented component unit, finances construction and improvement projects for public schools through the issuance of tax-exempt instruments (bonds, notes or other obligations) for the purpose of making lower cost tax-exempt financing available to school districts and community colleges. The debt instruments issued by the SPSBA represent limited obligations payable solely from lease/loan payments made by the borrowing institutions and related assets held by trustees. At June 30, 2007 the SPSBA has \$1.77 billion of debt outstanding. Neither the SPSBA nor the Commonwealth has any obligation for this debt. Therefore, neither the financed assets nor the bonds are included in the accompanying financial statements.

The Pennsylvania Higher Educational Facilities Authority (PHEFA), a discretely presented component unit, finances projects through the issuance of tax-exempt instruments (bonds, notes or other obligations) to provide a source of tax-exempt financing for colleges and universities. The debt instruments issued by the PHEFA represent limited obligations payable solely from payments made by the related borrowing institutions and related assets held by the trustees. At June 30, 2007 the PHEFA has \$5.36 billion of debt outstanding. Neither the PHEFA nor the Commonwealth has any obligation for this debt. Therefore, neither the financed assets nor the bonds are included in the accompanying financial statements.

The Pennsylvania Economic Development Financing Authority (PEDFA) finances projects on behalf of local industrial and commercial development authorities to promote economic growth within the Commonwealth. Revenue bonds issued by the

**NOTE K – GENERAL LONG-TERM OBLIGATIONS –
GOVERNMENTAL ACTIVITIES AND COMPONENT UNITS (continued)**

PEDFA represent limited obligations payable solely from Authority financed project revenues. At June 30, 2007 the PEDFA had \$1.62 billion of debt outstanding. Neither PEDFA nor the Commonwealth has any obligation for this debt. Therefore, neither the financed assets nor the bonds are included in the accompanying financial statements.

The Pennsylvania Energy Development Authority (PEDA) finances projects related to energy conservation and research. Fees are assessed to recover related processing and application costs incurred. The bonds issued by the Authority represent limited obligations payable solely from payments made by the borrowing entities. The majority of the bonds are secured by the property financed. Upon repayment of a bond, ownership of acquired property transfers from the trustees to the entity served by the bond issuance. The PEDA had \$51.6 million in revenue bonds outstanding at June 30, 2007. The Commonwealth has no obligation for this debt. Accordingly, neither the financed assets nor the bonds are included in the accompanying financial statements.

NOTE L - REFUNDED DEBT**Primary Government**

During the fiscal year ended June 30, 2007 the Commonwealth issued \$250.7 million in general obligation bonds, First Refunding Series of 2006, with average interest rate of 4.06 percent to advance refund \$239.2 million of previously issued general obligation bonds with average interest rate of 5.01 percent. The refunding bond proceeds of \$253.9 million (including bond premium of \$3.3 million) after payment of underwriting fees, insurance and other issuance costs, were deposited in an irrevocable trust to provide for all future debt service payments on the refunded bonds. As a result, the bonds refunded are considered to be defeased and have been removed from the Commonwealth's financial statements. The Commonwealth refunded its previously issued bonds to reduce debt service payable on its general obligation bonds by \$14 million and to obtain an economic gain of \$11.7 million.

In prior years, the Commonwealth defeased certain general obligation bonds by placing the proceeds of refunding bonds in irrevocable trusts to provide for all future debt service payments on the refunded bonds. At June 30, 2007, \$1,631.53 million of general obligation bonds outstanding that were previously accounted for in the Commonwealth's financial statements were defeased through advance refundings.

Discretely Presented Component Units

During the fiscal year ended June 30, 2007, in current refundings, the Pennsylvania Housing Finance Agency (PHFA) redeemed prior to maturity \$231.1 million of certain Single Family Mortgage Revenue Bonds. A deferred loss of \$1.2 million and an economic gain of \$6.2 million resulted from the refundings. The PHFA reduced its aggregate debt service payment as a result of these transactions by a total of \$12.5 million over the next 30 years.

Also, in early extinguishments, the PHFA redeemed prior to maturity \$35.2 million of certain Revenue Bonds resulting in current year expense of \$280 thousand.

In prior years, the PHFA defeased Multifamily Residential Development Bonds, Issues H and M. At June 30, 2007, \$3.7 million of bonds outstanding that were previously accounted for in the financial statements of the PHFA have been defeased through advance refundings.

In November 2006, the Pennsylvania Turnpike Commission issued Series A and B Oil Company Franchise Tax Revenue Refunding Bonds in the total amount of \$240.7 million to partially defease Series A and B of the 1998 and Series A and B of the 2003 Oil Company Franchise Revenue Bonds. A deferred loss of \$12.1 million resulted from this advance refunding and resulted in an economic gain of \$7.3 million. Total debt service payments will be reduced by \$22.7 million over the next 26 years.

At May 31, 2007, \$1,085.5 million of bonds outstanding that were previously accounted for in the financial statements of the Pennsylvania Turnpike Commission have been defeased through refundings.

At June 30, 2007, \$38.6 million of bonds that were previously accounted for in the financial statements of the Pennsylvania Infrastructure Investment Authority have been defeased through refundings.

NOTE M – SELF-INSURANCE

The Commonwealth is self-insured for statutory workers’ compensation, which includes indemnity and medical benefits (employee disability), for its employees injured on the job. The Commonwealth is also self-insured for annuitant medical/hospital claims and for tort liability claims. Major tort risks include automobile, employee and general torts. For property losses, the Commonwealth has \$1 million retention with excess commercial insurance coverage up to \$250 million per occurrence (\$350 million, as of September 19, 2007.) The Commonwealth is also self-insured for claims against the Department of Transportation (transportation claims). The Commonwealth has established various administrative policies that are intended to avoid or limit the aforementioned risks. Accrued liabilities for statutory workers’ compensation and annuitant medical/hospital claims are established based on reserves computed from the Commonwealth’s claim experience; such claims are not discounted and do not include non-incremental claims adjustment expenses.

There were no reductions in commercial insurance coverage during the fiscal year ended June 30, 2007. No settlements exceeded commercial insurance coverage during any of the past three fiscal years.

Accrued liabilities for tort and transportation claims are established based on reserves computed from the Commonwealth’s claim experience; such claims are not discounted and do not include non-incremental claims adjustment expenses. These liabilities include liabilities for allocated claim adjustment expenditures/expenses and include salvage and subrogation. Salvage and subrogation were not material for the fiscal year ended June 30, 2007. No accrued liability has been reported for property losses.

At June 30, 2007, none of the accrued liabilities for governmental activities were payable from current expendable available financial resources. It is anticipated that the **General Fund** and the **Motor License Fund**, respectively, will fund governmental activities liabilities of \$505,646 and \$236,425. Business-type activities liabilities are primarily owed by the **State Lottery Fund** (\$1,278), the **State Workers’ Insurance Fund** (\$1,661) and the State Stores Fund (\$18,698), all Enterprise Funds. All accrued self-insurance liabilities at June 30, 2007 are summarized as follows (amounts in thousands):

	<u>Governmental Activities</u>		<u>Business Type Activities</u>		<u>Fiduciary Fund Types</u>	
	<u>Current</u>	<u>Non-current</u>	<u>Current</u>	<u>Non-current</u>	<u>Current</u>	<u>Non-current</u>

NOTE N – COMMITMENTS AND CONTINGENCIES

Construction and Other Commitments: At June 30, 2007, the Department of Transportation and at May 31, 2007, the Pennsylvania Turnpike Commission, a discretely presented component unit, had contractual commitments of approximately \$2,174 million and \$1,066 million, respectively, for various highway construction and mass transit projects. Financing for these future expenditures will be primarily from approved federal grants and general obligation bond proceeds. In addition, the Commonwealth has a variety of contractual and other commitments for future subsidies and purchases of goods and services for approximately \$6.3 billion at June 30, 2007. Actual expenditures are contingent upon approved spending authority and/or availability of financial resources.

Investment Commitments: At December 31, 2006, the SERS had contractual commitments totaling approximately \$3.7 billion to fund future alternative investments and \$548 million to fund future real estate investments.

Loan Commitments: At June 30, 2007, primary government funds had approved over \$120 million in loans that had not been disbursed. Also at June 30, 2007, the following discretely presented component units had approved loans that had not been disbursed (amounts in millions):

Pennsylvania Housing Finance Agency.....	\$	131
Pennsylvania Industrial Development Authority.....	\$	69
Pennsylvania Infrastructure Investment Authority	\$	366
Commonwealth Financing Authority.....	\$	300

Commitment to Purchase Student Loans: At June 30, 2007 the Pennsylvania Higher Education Assistance Agency, a discretely presented component unit, had commitments to purchase approximately \$1.2 billion of student loans.

Operating Lease Commitments: As of June 30, 2007 the Commonwealth has commitments to lease certain buildings and equipment. Future minimum rental commitments for non-cancelable operating leases as of June 30, 2007 were as follows (amounts in thousands):

Fiscal year ending June 30:	<u>Amount</u>
2008	\$ 282,736
2009	179,662
2010	139,513
2011	107,718
2012	76,115
2013-2017	149,277
2018-2022	32,179
2024-2026	<u>10,956</u>
Total Minimum Lease Payments	<u>\$ 978,156</u>

Rental expenditures/expenses for all operating leases for the fiscal year ended June 30, 2007 amounted to \$283.8 million.

Child Support Payments: At June 30, 2007, the Commonwealth was contingently liable for approximately \$21.1 million in payments received by a contractor to be used for child support payments.

Litigation: The Commonwealth is a defendant in numerous legal proceedings pertaining to matters normally incidental to routine operations. Such litigation includes, but is not limited to, claims asserted against the Commonwealth arising from alleged torts, alleged breaches of contracts, condemnation proceedings and other alleged violations of Commonwealth and Federal laws. The Commonwealth has reported accrued liabilities at June 30, 2007 with respect to torts as described in Note M for probable losses, and, separately, other General Long-Term Obligations with respect to litigation cases in the amount of \$17.4 million for which the likelihood of an unfavorable outcome is probable.

Additionally, the Commonwealth is currently involved in certain legal proceedings for which the likelihood of an unfavorable outcome is reasonably possible, for which liabilities have not been reported as of June 30, 2007. Unfavorable outcomes for such cases, which the Commonwealth is vigorously contesting, could range from approximately \$130 million to \$1,487 million for the **General Fund**; \$1 million to \$219 million for the **Motor License Fund**, a Special Revenue Fund; and \$.1 million to \$1.1 billion of possible additional liabilities for the State Employees’ Retirement System, a fiduciary fund. The range of potential liability for governmental activities was from \$130 million to \$1.7 billion; there is no potential liability for business-type activities at June 30, 2007.

NOTE N – COMMITMENTS AND CONTINGENCIES (continued)

Federal Grants: The Commonwealth receives significant financial assistance from the Federal government in the form of grants and entitlements, including several non-cash programs (which are not included in the basic financial statements). Receipt of grants is generally conditioned upon compliance with terms and conditions of the grant agreements and applicable Federal regulations, including the expenditure of resources for eligible purposes. Substantially all grants are subject to either the Federal Single Audit Act or to financial and compliance audits by the grantor agencies of the Federal government or their designees. Disallowances and sanctions as a result of these audits may become liabilities of the Commonwealth. The Commonwealth is currently involved in administrative and legal proceedings, with certain Federal agencies, contesting various disallowances and sanctions related to Federal Assistance Programs ranging from \$19 million to \$1,205 million at June 30, 2007. The Commonwealth’s management believes ultimate disallowances and sanctions, if any, will not have a material effect on the basic financial statements.

Loan Guarantees: The Pennsylvania Higher Education Assistance Agency (PHEAA), a discretely presented component unit, guarantees loans made by private lenders to certain resident students. Total original principal of outstanding guarantees issued by PHEAA approximated \$47.5 billion at June 30, 2007. Under the Federal Family Education Loan Program, as amended, the PHEAA has entered into agreements with the U.S. Department of Education for reinsurance of death, disability, bankruptcy, default, school closure and borrower ineligibility claims paid to lenders. Pursuant to these agreements, PHEAA receives reimbursement of claims paid to lenders, provided that PHEAA is in compliance with numerous Federal requirements. Reinsurance rates vary from 75 percent to 100 percent depending upon default rates in the portfolio guaranteed by PHEAA and upon the time period when specific loans were guaranteed by PHEAA. During the fiscal year ended June 30, 2007, PHEAA’s default rate was in a range that permitted the maximum reinsurance reimbursement from the U.S. Department of Education.

The Commonwealth Financing Agency (CFA), a discretely presented component unit, through various economic development programs, provided loan guarantees for the fiscal years ending June 30 as follows (amounts in thousands):

	<u>2007</u>	<u>2008</u>
First industries loan guarantees.....	\$ 9,220	\$ 1,375
Tax increment financing guarantees	15,000	5,000
Second stage loan guarantees.....	2,660	375
Venture capital guarantees	<u>172,500</u>	<u>-</u>
Total loan guarantees	<u>\$ 199,380</u>	<u>\$ 6,750</u>

The CFA has not been called upon, with respect to any loan guarantees, to make principal or interest payments on behalf of the ultimate borrowers.

Lottery Prizes: The **State Lottery Fund**, an Enterprise Fund, awards a variety of prizes, including immediate, lump-sum cash prizes and certain large prizes, which provide for periodic payments to winners for specific periods of time (in some cases throughout the winners’ lifetimes, and to designated beneficiaries). At June 30, 2007, the amount of future payments owed to prizewinners was \$817 million. To satisfy its financial obligation to these prizewinners, the Fund purchases annuity contracts from insurance companies whereby the insurance companies make periodic payments to prizewinners. Generally, in the event of insurance company default, the Fund is liable for the related annuity payments. However, certain prizewinners voluntarily assign their annuity rights to other parties and receive lump-sum payments in return. In the event of insurance company default where annuity rights have been voluntarily assigned by prizewinners, the Fund is not liable for the related annuity payments. At June 30, 2007, prizewinners had voluntarily assigned future payments of \$474 million.

NOTE O - CERTAIN AGENCY FUND CLAIMS LIABILITIES

The Pennsylvania Medical Care Availability and Reduction of Error Fund, an Agency Fund, acts as a service agent to facilitate the payment of medical malpractice claims exceeding basic liability coverage carried by healthcare providers practicing in the Commonwealth. The Fund levies healthcare provider surcharges, as a percentage of insurance premiums for basic coverage, and receives certain motorist moving vehicle violation assessment surcharges to pay claims and administrative expenses paid on behalf of healthcare providers during the prior year. The actuarially computed liability for outstanding claims for injuries caused by alleged negligence by certain healthcare providers totaled \$2.12 billion at June 30, 2007. The claims will be funded exclusively through surcharge assessment in future years as claims are settled and paid.

The Underground Storage Tank Indemnification Fund (the Fund), an Agency Fund, is used to collect fees from underground storage tank owners and operators sufficient to pay owners and operators for costs associated with corrective actions or for bodily injury or property damage caused by underground tank leaks and other releases. Owners and operators are assessed actuarially determined amounts to accumulate sufficient assets to pay claims. The estimated actuarial liability for existing and potential future claims totaled \$4.3 billion at June 30, 2007. There are statutory limits on the extent of the Fund's liability to participating owners and operators; the Fund is not obligated beyond assets held at June 30, 2007. Owners and operators will be assessed for any claims exceeding Fund assets and no financial liability is reported for those claims.

NOTE P - DEFERRED COMPENSATION

The Commonwealth sponsors a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, which is administered by the State Employees' Retirement System, permits participants to defer a portion of their salary until future years. Amounts deferred under the plan are not available to employees until termination, retirement, death or unforeseeable emergency.

Of the \$1,697 million in net assets reported in the Deferred Compensation Fund, a Pension Trust Fund, at December 31, 2006, \$1,632 million relates to primary government employees and \$58 million relates to employees of discretely presented component units. The remaining balance of \$7 million relates to organizations not included in the Commonwealth's financial reporting entity.

NOTE Q - JOINT VENTURE

The Commonwealth and various labor unions representing Commonwealth employees participate in a joint venture, the Pennsylvania Employees Benefit Trust Fund (PEBTF). The PEBTF establishes and provides health and welfare benefits for active Commonwealth employees and is a third party administrator for Commonwealth annuitant medical/hospital benefits. The Commonwealth has, in its collective bargaining agreements with unions subject to the agreement, obligated itself to provide certain contributions on behalf of all bargaining unit employees. The Commonwealth also remits contractually established contributions on behalf of non-union employees and other employees covered by contracts between the Commonwealth and other unions. During the fiscal year ended June 30, 2007, total contributions amounted to approximately \$1,305 million. Neither the Commonwealth nor the unions have an equity interest in the PEBTF.

At June 30, 2007, the PEBTF reported total assets of \$246 million, total liabilities of \$61 million, total benefit obligations of \$84 million, and an excess of net assets over benefit obligations of \$101 million. The financial status of the PEBTF is monitored on an ongoing basis; financial stress is evident as a result of increasing benefit and other expenses. During the fiscal year ended June 30, 2007 the PEBTF reported an increase in net assets over benefit obligations of \$75 million for the Active Plan program.

On July 15, 2004, the PEBTF received \$30 million from the Commonwealth of Pennsylvania as an interest-free advance payment of the Commonwealth's active employee contribution. The PEBTF repaid the Commonwealth during the fiscal year ended June 30, 2007.

Audited financial statements for the PEBTF are available, by request, from:

William K. Schantzenbach
Chief Financial Officer
Pennsylvania Employees Benefit Trust Fund
150 South 43rd Street
Harrisburg, Pennsylvania 17111-5700

NOTE R – SUBSEQUENT EVENTS

Subsequent to June 30, 2007 (May 31, 2007 for the Pennsylvania Turnpike Commission), the Commonwealth issued general obligation bonds and several component unit organizations issued other debt, as follows:

Primary Government

On December 20, 2007 the Commonwealth plans to issue \$588 million of General Obligation Bonds, Second Series A and B of 2007, at interest rates ranging from 3.45 to 5.00 percent. The Commonwealth will issue the bonds to finance the following: capital facilities projects including construction and major rehabilitation of public buildings, redevelopment assistance projects, and transportation assistance projects; Pennworks Acts grants and loans for construction, expansion and improvement of water, wastewater and sewerage infrastructure; and environmental initiatives related to the Growing Greener program including open space and farmland preservation, watershed protection, abandoned mine reclamation, and acid mine drainage remediation among others.

Also, on December 20, 2007 the Commonwealth plans to issue \$118.145 million of General Obligation Bonds, First Refunding Series of 2007, at an interest rate of 5.00 percent. The Commonwealth will issue the bonds to refund a portion of a previous refunding bond issue to reduce future debt service requirements.

Discretely Presented Component Units

On July 18, 2007 Governor Rendell signed into law House Bill 1590, titled Act 44 of 2007, which include amendments to existing Title 74, Chapter 13, of the Pennsylvania Tax Reform Code regarding the Pennsylvania Turnpike Commission (PTC). The provisions require the PTC to enter into a 50-year lease agreement by October 15, 2007 with the Department of Transportation (PennDOT) for the conversion of Interstate 80 to a toll facility and to provide annual payments to PennDOT to fund highway, bridge, and transit programs throughout the Commonwealth. For the fiscal years ending May 31, 2008, 2009 and 2010, the PTC is required to provide \$750 million, \$850 million, and \$900 million, respectively, to PennDOT. The payment for the fiscal year ending May 31, 2011, and each fiscal year thereafter for the remainder of the lease term, will be the amount calculated for the previous year increased by 2.5 percent. The PTC will issue bonds and beginning in 2009, will raise tolls as necessary to provide funds required to meet its payment obligations to PennDOT.

On July 19, 2007 the Pennsylvania Higher Education Assistance Agency (PHEAA) issued \$400 million of variable-rate student loan demand revenue bonds with an initial interest rate of 3.7 percent; this rate will reset based upon auctions every seven days.

In July 2007, the Pennsylvania Higher Educational Facilities Authority (PHEFA) issued Series AF tax-exempt bonds in the amount of \$68,230,000. In connection with the bond issuance, the State System of Higher Education (SSHE) entered into a loan agreement with PHEFA under which SSHE pledged its full faith and credit for repayment of the bonds. The bonds were issued to provide funds to undertake various capital projects at SSHE universities.

On September 6, 2007 the Pennsylvania Housing Finance Agency (PHFA) issued \$200 million Single Family Mortgage Revenue Bonds, Series 2007-99A through 2007-99D. The bonds are general obligations of the PHFA that bear interest at fixed and variable rates payable on each April 1 and October 1, with a final maturity date of April 1, 2038. The bonds will be primarily secured by program obligations consisting of qualifying single-family mortgage loans purchased using bond proceeds.

Also, on September 6, 2007 the PHFA entered into two separate interest rate swap agreements. The purpose of the swap agreements is to effectively convert the variable rate interest associated with the Series 2007-99C and 2007-99D bonds to a synthetic fixed rate in an effort to hedge the PHFA's exposure to interest rate fluctuations and to take advantage of interest rate environments in the financial markets. Under the term of the agreement, the PHFA is to pay the counterparty a fixed rate of 3.885 percent and 5.149 percent respectively, for Series 2007-99C and Series 2007-99D bonds and receive from the counterparty a variable rate equal to 69 percent of one-month LIBOR and one-month LIBOR, respectively, for Series 2007-99C and Series 2007-99D bonds.

NOTE R – SUBSEQUENT EVENTS (continued)

On September 7, 2007 Congress passed the College Cost Reduction and Access Act and the President signed the Act into law on September 27, 2007. This Act affects the PHEAA and is expected to cause the following revenue decreases or expense increases:

- For Stafford and Consolidation loans first disbursed on or after October 1, 2007, special allowance payments to PHEAA will be 0.4 percent lower;
- For PLUS loans first disbursed on or after October 1, 2007, special allowance payments to PHEAA will be 0.7 percent lower;
- For all loans first disbursed on or after October 1, 2007, lender origination fees paid to the United States Department of Education (USDE) will increase from 0.5 percent to 1.0 percent;
- Effective October 1, 2007, retention of collections on defaulted loans will decrease from 23 percent to 16 percent;
- Effective October 1, 2007, the account maintenance fee received from USDE for outstanding loan guarantees will decrease from 0.1 percent to 0.06 percent;
- Effective October 1, 2007, the exceptional performer section of applicable law will be eliminated;
- Effective October 1, 2012, lender insurance for loans first disbursed on or after October 1, 2012 will decrease from 97 percent to 95 percent; and
- Effective July 1, 2009, the parent PLUS program will be converted to an auction-type program.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

Note 1 - Budget Preparation Process

The process of preparing the General Fund Budget for the Commonwealth of Pennsylvania begins nearly one year before the new budget takes effect on July 1 each year. The budget process begins in August of the year previous to the budget year with the distribution of both the Budget Instructions and Program Policy Guidelines by the Office of the Budget and the Governor's Office, respectively. These provide detailed guidelines and define major policy issues to be considered when agencies complete their budget requests. As required by statute, agencies must prepare budgets that indicate the cost of supporting activities at the level expected in the immediate budget year and the ensuing four budget years. The five-year horizon does not include future program changes but considers the requirements and demands of current law, regulation, policy and program decisions.

Agencies submit budget requests to the Secretary of the Budget beginning in early October. From October through January, the Office of the Budget reviews these requests for accuracy and adherence to policy guidelines and prepares funding recommendations for the Secretary of the Budget and the Governor.

During December, the Governor meets with leaders of the General Assembly to inform them of anticipated spending and revenue levels and to discuss related budgetary issues. The Governor then conducts reviews to make the final budget decisions. The Governor's Executive Budget is finalized in January and is submitted to the General Assembly in early February.

After receiving the budget document, the appropriations committees of both houses of the legislature hold hearings to review agency funding requests. The General Assembly passes the budget in the form of a General Appropriations Bill and individual appropriations bills. At the time of passage of these bills and their presentation to the Governor, the official revised revenue estimates for the budget year are issued. If the combined appropriations bills passed by the legislature exceed the revenue estimates, the Governor is required and has the authority to either veto entire appropriations bills or to reduce the amount of appropriations in order to produce a budget that is in balance. The Governor also has the power to reduce or veto any specific appropriation even if the total appropriations do not exceed estimated revenues. The Governor's signing of the appropriations bills and any revenue bills is the last step in the approval stage of the budget.

Additional information regarding Pennsylvania's budgeting process may be located at: <http://www.oit.state.pa.us/budget>

Note 2 – Basis of Budgeting

On the budgetary basis, certain estimated tax revenue accruals are recorded at fiscal year end for the **General Fund** and the **Motor License Fund**, a Special Revenue Fund. Accruals include sales and use taxes and personal income taxes, both applicable to the General Fund, and liquid fuels taxes applicable to the **Motor License Fund**. These taxes are estimated to be owed to the Commonwealth but are not collected by fiscal year end. Also, estimated encumbrances are established for all funds at fiscal year end to pay certain direct expenditures for salaries, wages, travel, and utility costs payable against current year appropriation authority but expended in the subsequent year. Over-estimates of prior year encumbrances are lapsed in the subsequent year and under-estimates are charged to subsequent year appropriation authority.

Budgeted revenues in the Budgetary Comparison Schedules represent official estimates while expenditures represent amounts originally adopted or legally amended. Actual amounts are presented on the budgetary basis. Because the budgetary basis differs from the modified accrual basis of accounting for governmental funds, a reconciliation of the differences between budgetary basis and the modified accrual basis of reporting is presented.

Note 3 - Reconciliation of Budgetary to GAAP Basis Amounts

The Commonwealth adopts formal annual budgets for two major governmental funds (**General Fund** and **Motor License Fund**, a Special Revenue Fund) and three nonmajor governmental funds (Workers' Compensation Administration, Banking Department, and Milk Marketing, Special Revenue funds). The Budgetary Comparison Schedules for Budgeted Major and Nonmajor Funds presents comparisons of the legally adopted budget, as amended, with actual data on a budgetary basis, which differs from governmental fund statement information primarily by the omission of certain revenue and expenditure accruals.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

The following presents a reconciliation of the budgetary basis to the modified accrual basis of reporting (amounts in thousands):

	<u>Major Budgeted Funds</u>	
	<u>General Fund</u>	<u>Motor License Fund</u>
Budgetary basis — revenues and other sources over expenditures and other uses.....	\$8,753	\$(187,087)
Adjustments:		
To adjust revenues, other financing sources and related receivables and deferred revenue.....	(1,377,766)	933,749
To adjust expenditures, other financing uses and related accounts payable and accrued liabilities.....	1,770,330	(876,959)
Net adjustments.....	392,564	56,790
Modified accrual basis – net change in governmental fund balance.....	\$401,317	\$(130,297)

The above revenue adjustments include net revenue accruals/deferrals, amounts to recognize certain pass-through grants and amounts to recognize certain intergovernmental revenues that are not reported for budgetary reporting purposes. Likewise, the above expenditure adjustments include net expenditure accruals; amounts to recognize certain pass-through grants and amounts to recognize certain expenditures related to Federal and other grants that are not reported for budgetary reporting purposes.

Note 4 – Budgetary Compliance

The General Assembly passes, and the Governor approves (or reduces or vetoes), individual appropriations as part of the annual budget adoption process. Budgetary expenditure control occurs at the appropriation level; this is the lowest level of legislative spending control. Encumbrances and expenditures within individual appropriations may not exceed total amounts appropriated plus actual augmentations (certain revenues credited to specific appropriations). Also, appropriation transfers between or within departments and any supplemental appropriations require both legislative and gubernatorial approval. The legislatively adopted budget for the **General Fund** includes \$291.1 million in supplemental appropriations approved during the fiscal year ended June 30, 2007.

A separately available report, the “*Status of Appropriations*,” demonstrates budgetary expenditure compliance for the **General Fund** for the fiscal year ended June 30, 2007. This report includes a variety of detail information and summaries related to individual appropriations. A second “*Status of Appropriations*” report (for Special Funds) demonstrates compliance for the four budgeted Special Revenue funds: **Motor License**, Workers’ Compensation Administration, Banking Department and Milk Marketing. Both “*Status*” reports are available online at the Office of the Budget internet site: <http://www.budget.state.pa.us>. The Governor controls spending by using executive authorizations for Special Revenue funds not controlled by legislatively adopted budgets.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

Total reported actual expenditures for “Total State Programs” included in the Budgetary Comparison Schedule – Budgeted Major Funds are based on appropriation, augmentation and lapse amounts reported in the respective June 30, 2007 “*Status of Appropriations*” (Total All Current State Ledgers) as follows (in thousands):

	“ <i>Status</i> ” Page Reference	Total Approved <u>Appropriations</u>	Total Actual <u>Augmentations</u>	Total Actual <u>Lapses</u>	Actual Expenditure <u>Amounts</u>
General Fund amounts	7 ¹	\$ 27,368,975	\$ 2,456,439	\$ 20,880	\$ 29,804,534
Less: tax refunds	7 ¹	<u>(1,050,000)</u>	<u>-</u>	<u>-</u>	<u>(1,050,000)</u>
Amount reported		<u>\$ 26,318,975</u>	<u>\$ 2,456,439</u>	<u>\$ 20,880</u>	<u>\$ 28,754,534</u>
 Special Revenue Funds:					
Motor License Fund	52	\$ 3,546,853	\$ 1,327,093	\$ 32,493	\$ 4,841,453
less: reductions ²		<u>(981,448)</u>	<u>(1,270,168)</u>	<u>(21,083)</u>	<u>(2,230,533)</u>
Amount reported		<u>\$ 2,565,405</u>	<u>\$ 56,925</u>	<u>\$ 11,410</u>	<u>\$ 2,610,920</u>
 Workers’ Compensation					
Administration Fund	256	\$ 61,231	\$ 184	\$ -	\$ 61,415
Banking Department Fund	97	\$ 18,009	\$ -	\$ 5	\$ 18,004
Milk Marketing Fund	103	\$ 2,742	\$ -	\$ 5	\$ 2,737

Total actual expenditures for “Federal Programs” for the **General Fund** are derived from the **General Fund** “*Status*”, page no. 241 “Summary of All Current Federal Ledgers by Character of Expenditure” as follows (in thousands): Commitments of \$726,444, Expenditures of \$12,970,598, and Available Balances of \$2,244,759 for a total of \$15,941,801.

Total actual expenditures for “Federal Programs,” for the **Motor License Fund** are derived from the **Special Funds** “*Status*”, page no. 81 “Summary of Federal Ledgers by Type” as follows (in thousands): Commitments of \$2,958, Expenditures of \$17,585, and Available Balances of \$2,367 for a total of \$22,910; plus \$1,268,821 (source in footnote 3 below) for a Motor License Fund total of \$1,291,731.

¹ Page no. 7, “Summary of All Current State Ledgers by Character of Expenditure,” **General Fund** “*Status of Appropriations*.”

² Excludes the following appropriation symbols, beginning on page 55, **Special Funds** “*Status of Appropriations*”: 010-78-571-06-16; 010-78-572-06-16; 010-78-579-06-16; 010-73-132-06-26; 010-38-226-06-26; 010-78-172-06-26; 010-78-173-06-26; 010-78-174-06-26; and 010-78-177-06-26 through 010-78-185-06-26.

³ The amount of \$1,268,821 is found in the Year-to-Date column for “Total Federal Revenue Augmenting Current State Expenditure Symbols” on page 116 of the June 30, 2007 “*Report of Revenues and Receipts*”. This amount, less \$221,585 (for revenue codes 010811-008181-101; 010811-008232-101; 010811-008284-101; 010811-008284-102; 010811-008289-101; and 010811-008289-102) equals \$1,047,236, the net reduction of federal funds from Motor License Fund Actual Augmentations.

Special Revenue Funds

Including
Nonmajor Budgetary Comparison Schedules

Whitewater Rafting, Ohiopyle State Park
Fayette County

**SPECIAL REVENUE FUNDS
DESCRIPTION
NONMAJOR FUNDS**

Special revenue funds account for the proceeds of specific revenue sources that are legally restricted to expenditure for specified purposes.

Banking Department Fund — to account for the administration of the Department of Banking and regulation of financial institutions. Revenue is received from fees, assessments, charges and penalties collected or recovered from persons, firms, corporations or associations regulated by the Department of Banking.

Milk Marketing Fund — to account for the operation of the Milk Marketing Board and to serve as a depository for amounts due to dairy farmers from underpayments by dealers. Revenue is received from license fees, fines, penalties and permits relating to the milk industry.

Workers' Compensation Administration Fund — to account for the administration of the Pennsylvania Workers' Compensation Act and the Pennsylvania Occupational Disease Act. Insurance companies and self-insured businesses are assessed a periodic fee for costs incurred in administering these acts.

Workers' Compensation Security Fund — to account for the payment of workers' compensation claims to individuals who are insured by an insolvent insurance company and for the costs to administer the program. Funds are derived from an annual assessment on all insurance carriers authorized to transact and provide workmen's compensation insurance in the Commonwealth.

Catastrophic Loss Benefits Fund — to account for the payment of medical and rehabilitative expenses over \$100,000 to a lifetime aggregate of \$1 million to residents injured in a motor vehicle accident.

Environmental Stewardship Fund — to account for revenues from certain landfill fees and expenditures for farmland preservation projects, open space protection, abandoned mine reclamation, watershed protection and restoration, water and sewer infrastructure, and the improvement of conservation of Commonwealth and community parks and recreational facilities.

Recycling Fund — to account for grants for recycling solid waste, market and waste minimization studies and public information and educational activities. Financing for the planning, processing, resource recovery and recycling of solid waste is generated by a fee on all waste disposed of in landfills or processed by resource recovery facilities.

Gaming Fund — to account for the administration of the Race Horse Development and Gaming Act. Revenue is received from license fees and a percentage of the gross terminal revenue (GTR) generated by licensed gaming facilities.

Growing Greener Bond Fund — to account for certain bond issuance financing and expenditures for environmental projects such as watershed protection, mine drainage remediation, advanced energy, flood protection, brownfields remediation, state parks and forest facilities, open space conservation, farm land preservation, capital improvement projects for fishing, boating and hunting, and for county environmental initiatives.

Water Supply and Wastewater Treatment Fund — to provide single-year or multiyear grants to municipalities and municipal authorities and loans to municipalities, municipal authorities, industrial development corporations and investor-owned water or wastewater enterprises for projects which construct, expand or improve water and wastewater infrastructure.

Other — to account for programs related to restoration, conservation, protection and management of natural resources; the payment of prescription drugs for eligible citizens 65 years or older; the preservation of historical landmarks; administrative and regulatory activities of various departmental programs; and miscellaneous Commonwealth activities. This "Other" category is an aggregation of sixty-four individual special revenue funds.

There are a total of seventy-six individual special revenue funds; **Motor License** and **Tobacco Settlement** special revenue funds are reported as Major Funds in the basic financial statements.

Reconciliation of Budgetary to GAAP Basis Amounts

The Commonwealth adopts a formal annual budget for the Banking Department Fund. The Budgetary Comparison Schedule presented above presents a comparison of the legally adopted budget, as amended, with actual data on a budgetary basis, which differs from governmental fund statement information primarily by the omission of certain revenue and expenditure accruals. The following presents a reconciliation of the budgetary basis to the modified accrual basis of reporting (amounts in thousands):

Budgetary basis — revenues and other sources over expenditures (from Actual column above).....	\$ 1,813
Adjustments:	
To adjust revenues, other financing sources and related receivables and deferred revenue.....	(320)
To adjust expenditures, other financing uses and related accounts payable and accrued liabilities.....	427
Net adjustments.....	107
Modified accrual basis — net change in governmental fund balance.....	\$ 1,920

The above revenue adjustments include net revenue accruals/deferrals, amounts to recognize certain pass-through grants and amounts to recognize certain intergovernmental revenues that are not reported for budgetary reporting purposes. Likewise, the above expenditure adjustments include net expenditure accruals, amounts to recognize certain pass-through grants and amounts to recognize certain expenditures related to Federal and other grants that are not reported for budgetary reporting purposes.

- The notes on pages 130 to 132 are an integral part of this schedule. -

Reconciliation of Budgetary to GAAP Basis Amounts

The Commonwealth adopts a formal annual budget for the Milk Marketing Fund. The Budgetary Comparison Schedule presented above presents a comparison of the legally adopted budget, as amended, with actual data on a budgetary basis, which differs from governmental fund statement information primarily by the omission of certain revenue and expenditure accruals. The following presents a reconciliation of the budgetary basis to the modified accrual basis of reporting (amounts in thousands):

Budgetary basis — revenues and other sources under expenditures (from Actual column above).....	\$ 157
Adjustments:	
To adjust revenues, other financing sources and related receivables and deferred revenue.....	(196)
To adjust expenditures, other financing uses and related accounts payable and accrued liabilities.....	105
Net adjustments.....	(91)
Modified accrual basis — net change in governmental fund balance.....	\$ 66

The above revenue adjustments include net revenue accruals/deferrals, amounts to recognize certain pass-through grants and amounts to recognize certain intergovernmental revenues that are not reported for budgetary reporting purposes. Likewise, the above expenditure adjustments include net expenditure accruals, amounts to recognize certain pass-through grants and amounts to recognize certain expenditures related to Federal and other grants that are not reported for budgetary reporting purposes.

The Commonwealth adopts a formal annual budget for the Workers' Compensation Administration Fund. The Budgetary Comparison Schedule presented above presents a comparison of the legally adopted budget, as amended, with actual data on a budgetary basis, which differs from governmental fund statement information primarily by the omission of certain revenue and expenditure accruals. The following presents a reconciliation of the budgetary basis to the modified accrual basis of reporting (amounts in thousands):

Budgetary basis — revenues and other sources over expenditures (from Actual column above).....	<u>\$ 6,176</u>
Adjustments:	
To adjust revenues, other financing sources and related receivables and deferred revenue.....	(3,810)
To adjust expenditures, other financing uses and related accounts payable and accrued liabilities.....	<u>4,655</u>
Net adjustments.....	<u>845</u>
Modified accrual basis — net change in governmental fund balance.....	<u>\$ 7,021</u>

The above revenue adjustments include net revenue accruals/deferrals, amounts to recognize certain pass-through grants and amounts to recognize certain intergovernmental revenues that are not reported for budgetary reporting purposes. Likewise, the above expenditure adjustments include net expenditure accruals, amounts to recognize certain pass-through grants and amounts to recognize certain expenditures related to Federal and other grants that are not reported for budgetary reporting purposes.

Debt Service Funds

*Sculpture Garden, Frank Lloyd Wright's House on Kentuck Knob
Fayette County*

**DEBT SERVICE FUNDS
DESCRIPTION
NONMAJOR FUNDS**

Debt service funds account for the accumulation of resources, principally from transfers from other Funds, for the payment of general long-term debt principal and interest.

Disaster Relief Redemption Fund — these funds account for the payment of principal and interest on bonds issued for the rehabilitation of areas of the Commonwealth affected by the floods of 1971, 1972, and 1977. Funding consists of transfers from the General Fund and investment income.

Pennsylvania Infrastructure Investment Authority (PENNVEST) Redemption Fund — to account for the payment of principal and interest on bonds issued for loans to local water companies for the repair, construction, extension and improvement of water supply systems, dams and port facilities and water control systems. Funding consists of transfers from the General Fund and the Pennsylvania Infrastructure Investment Authority Fund and investment income.

Capital Debt Fund — to account for the payment of principal and interest related to general obligation bonds issued for capital projects authorized by Capital Budget Acts. Funding consists of transfers from the General Fund and the Motor License Fund, facility rental and investment income.

Pennsylvania Economic Revitalization Sinking Fund — to account for the payment of principal and interest on bonds issued for the promotion of economic redevelopment throughout Pennsylvania for grants and loans for industrial and small business development. Funding consists of transfers from the General Fund and the Pennsylvania Economic Revitalization Fund and investment income.

Water Facilities Loan Redemption Fund — to account for the payment of principal and interest on bonds issued for the implementation of the water project loan referendum to provide loans to local water companies for repair, construction and improvement to water supply systems. Funding consists of transfers from the General Fund and the Water Facilities Loan Fund, investment income and proceeds from the sale, lease or disposal of loan collateral.

Land and Water Development Sinking Fund — to account for the payment of principal and interest on bonds issued for the acquisition, development and improvements to Commonwealth land and water facilities. Funding consists of transfers from the General Fund, the Land and Water Development Fund and investment income.

Other — these funds account for the payment of principal and interest on bonds issued for loans to nursing homes and volunteer fire companies, compensation to Vietnam conflict veterans, finance of various environmental initiatives and for water and wastewater infrastructure projects related to economic development. Funding consists primarily of transfers from the General Fund and investment income. This other category is an aggregation of eleven individual debt service funds.

There are a total of seventeen individual debt service funds; all are reported as nonmajor funds.

Capital Projects Funds

Farm Animals, Ridley Creek State Park

Delaware County

**CAPITAL PROJECTS FUNDS
DESCRIPTION
NONMAJOR FUNDS**

Capital projects funds account for financial resources to be used for the acquisition or construction of major capital facilities, including those provided to political subdivisions or other public organizations.

Capital Facilities Fund — to account for general obligation bond proceeds used to fund capital projects specifically itemized and authorized by Capital Budget Acts.

Keystone Recreation, Park and Conservation Fund — to account for bond proceeds and a percentage of the state realty transfer tax. The amounts are used to acquire, improve and expand Commonwealth and community parks, recreation facilities, historic sites, zoos, public libraries, nature preserves and wildlife habitats and other recreational areas and facilities.

Local Criminal Justice Fund — to account for the proceeds of bonds issued for grants to counties and multi-county authorities for the repair, expansion, construction, rehabilitation and improvement of local correctional facilities or multi-county regional prison facilities.

Land and Water Development Fund — to account for the proceeds of bonds issued for pollution remediation; grants to local governments for sewage treatment facilities; the development of public outdoor recreation areas; and, acquisition and development of park and recreation lands and related studies to determine such needs.

There are a total of four individual capital projects funds; all are reported as nonmajor funds.

Enterprise Funds

*Coal Mine Tour, Scranton
Lackawanna County*

**ENTERPRISE FUNDS
DESCRIPTION
NONMAJOR FUNDS**

Enterprise funds account for operations that are financed and operated in a manner similar to private business enterprises. Costs of providing goods and services to the general public on a continuing basis, including depreciation, are financed or recovered primarily through user charges.

State Stores Fund — to account for the general operations of the Pennsylvania Liquor Control Board. Expenses include all costs associated with the operation and administration of the liquor store system and enforcement of the Liquor Control Law.

Small Business First Fund — to account for and provide loans to eligible small businesses for capital development projects which will create or preserve employment opportunities and which will enhance business development in Pennsylvania. Sources of revenue and financing include loan principal and interest payments, transfers from the General Fund, Federal funds and investment income.

Volunteer Companies Loan Fund — to account for and provide low-interest loans for acquisition and replacement of volunteer fire, ambulance and rescue company equipment and facilities.

Machinery and Equipment Loan Fund — to account for and provide low-interest loans to finance machinery and equipment purchases for eligible Pennsylvania businesses to facilitate their growth, competitiveness and value-added capacity. Sources of revenue and financing include loan principal and interest payments, General Fund appropriations, capital contributions from the Commonwealth Financing Authority and investment income.

Coal and Clay Mine Subsidence Insurance Fund — to account for and provide insurance coverage to homeowners in mining areas against damages resulting from mine subsidence.

Pennsylvania Infrastructure Bank Fund — to account for and provide loans to, or enter into leases with, qualified borrowers to finance the costs of transportation projects.

Minority Business Development Fund — to account for and provide low-interest and short-term loans, loan and bond guarantees and other financial and technical assistance, to eligible minority business enterprises and for operating expenses of the Pennsylvania Minority Business Development Authority. Sources of revenue and financing include loan principal and, interest payments, transfers from the General Fund and investment income.

Other — to account for enterprise operations including activities associated with low interest loans to manufacturers, vocational rehabilitation services, and loans and grants provided to attract industrial, manufacturing or research and development enterprises to the Commonwealth. This other category is an aggregation of five individual enterprise funds.

There are a total of sixteen individual enterprise funds; **Unemployment Compensation, State Workers' Insurance, State Lottery and Tuition Payment** enterprise funds are reported as Major Funds in the basic financial statements.

There were no material investing, capital or financing activities that did not result in cash receipts or cash payments during the fiscal year.

Internal Service Funds

Tuscarora Academy, Academia
Juniata County

INTERNAL SERVICE FUNDS DESCRIPTION

Internal service funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the Commonwealth, or to other governmental units, on a cost-reimbursement basis.

Purchasing Fund — to account for the purchase of materials, supplies, motor vehicles and other equipment by the Department of General Services for the sale or lease to other Commonwealth departments, boards or commissions. This fund is also used to account for all Commonwealth telecommunication activities, which are accounted for by the Governor's Executive Offices. Revenue is derived from reimbursements from Commonwealth agencies that use Fund services or products.

Manufacturing Fund — to account for the manufacture and sale of goods and services by inmates in the correctional institutions to the Department of Corrections, other government agencies and government-aided organizations.

There are a total of two individual internal service funds.

Pension (and Other Employee Benefit) Trust Funds

*Oil Creek and Titusville Railroad
Venango County*

**PENSION (AND OTHER EMPLOYEE BENEFIT) TRUST FUNDS
DESCRIPTION**

Pension (and other employee benefit trust) funds account for assets that are required to be held in trust for the members and beneficiaries of defined benefit pension plans and other postemployment benefit plan and are held by the Commonwealth in a trustee capacity.

PENSION (AND OTHER EMPLOYEE BENEFIT) TRUST FUNDS

State Employees' Retirement System — is a component unit organization and accounts for the payment of retirement, disability and death benefits to members of the State Employees' Retirement System and their beneficiaries.

Deferred Compensation Fund — is a pension trust fund that collects and administers amounts contributed by Commonwealth employees who are deferring a portion of their income until future years, in accordance with Internal Revenue Code Section 457.

Public School Employees' Retirement System — is a component unit organization that administers and provides pension benefits to public school employees in Pennsylvania.

Agency Funds

Autumn Scene

Potter County

AGENCY FUNDS DESCRIPTION

Agency funds account for assets held by the Commonwealth as an agent for individuals, private organizations, or other governmental units.

AGENCY FUNDS

Statutory Liquidator Fund — to convert the remaining assets of insolvent insurance companies to cash for remittance to creditors, policyholders and stockholders in accordance with the order of distribution established in Article V of the Pennsylvania Insurance Department Act of 1921 and on a court approved percentage of claim basis. Although not yet determined, the actual amounts to be paid based on the amount of the remaining assets are expected to be less than the amounts actually claimed by creditors, policyholders and stockholders.

Medical Care Availability and Reduction of Error Fund — to collect surcharges from health care providers and remit payments for judgments, awards, or settlements in medical malpractice claims which exceed basic limits of coverage provided in professional liability insurance policies. Succeeded the Medical Professional Liability Catastrophe Loss Fund effective October 1, 2002.

Allegheny Regional Asset District Sales and Use Tax Fund — to collect an additional 1% sales tax remitted by Allegheny County business entities to the Department of Revenue, as established per Act 1993-77. On a monthly basis, the Treasury Department distributes the fund balance to qualified County entities in accordance with the requirements of the Act.

Underground Storage Tank Indemnification Fund — to collect assessments and remit claim payments to owners and operators of underground storage tanks who incur a liability for taking corrective action, for bodily injury or for property damage caused by a release from underground storage tanks.

Municipal Pension Aid Fund — to collect foreign (out-of-state) casualty insurance company tax assessments, which are remitted to municipalities to help defray municipal police and fire pension fund costs.

Fire Insurance Tax Fund — to collect a two-percent premium tax received from foreign (out-of-state) fire insurance companies conducting business in the Commonwealth, which are remitted to local governments. The municipalities must pay these monies to the relief, pension or retirement fund of their recognized fire fighting organization.

Agency Custodial Accounts — to account for the assets of patients, residents, inmates and other non-Commonwealth funds for which the Commonwealth is the account custodian.

Other — to collect and administer funds from various sources for distribution to other state and local governments or the Federal Government. This other category is an aggregation of five individual agency funds.

Pennsylvania Life and Health Insurance Guaranty Association and ***Pennsylvania Property and Casualty Insurance Guaranty Association*** — are component unit organizations which protect policy owners, insured persons/organizations and others from losses due to potential insurer failure due to the impairment or insolvency of member insurance carriers.

There are a total of fourteen individual agency funds.

Nonmajor Discretely Presented Component Units

*The Butterfly House at Hershey Gardens
Dauphin County*

NONMAJOR DISCRETELY PRESENTED COMPONENT UNITS DESCRIPTION

Component units are legally separate organizations for which the elected officials of the primary government are financially accountable, or other organizations for which the nature and significance of the relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading.

State Public School Building Authority (SPSBA) — issues limited obligation revenue bonds, the proceeds of which are used to finance the construction of facilities for school districts. These bonds are repaid solely from lease/loan payments from the schools.

Philadelphia Shipyard Development Corporation (PSDC) — assists the primary government (PG) and other governmental entities in financing a shipbuilding facility at the former Philadelphia Naval Shipyard. For the purposes of this report, the PSDC has a December 31, 2006 fiscal year end.

Ben Franklin Technology Development Authority (BFTDA) — promotes economic development through interaction of technology development, modernization and training programs. Industrial resource centers and technology centers, established through the PTDA, also increase Pennsylvania business competitiveness.

Insurance Fraud Prevention Authority (IFPA) — assists in the prevention, discovery, investigation and prosecution of insurance fraud. The IFPA is funded through assessments paid by the insurance industry and through certain criminal and civil fines, penalties and awards.

Pennsylvania Higher Educational Facilities Authority (PHEFA) — issues limited obligation revenue bonds, the proceeds of which are used to finance the construction of facilities for public/private colleges and universities. These bonds are repaid solely from lease/loan payments from the colleges and universities.

Patient Safety Trust Authority (PSTA) — takes steps to reduce and eliminate medical errors by identifying problems and recommending solutions that promote patient safety in hospitals, ambulatory surgical facilities and birthing centers.

Port of Pittsburgh Commission (PPC) — promotes economic development throughout waterways in southwestern Pennsylvania by constructing and/or financing transportation and recreation facilities.

Pennsylvania Industrial Development Authority (PIDA) — collaborates with local industrial development corporations to make loans that help preserve or expand the work force, assist targeted economic areas or assist specific companies.

Philadelphia Regional Port Authority (PRPA) — operates a port facility and manages port-related activities to promote commerce and economic development in southeastern Pennsylvania.

Commonwealth Financing Authority (CFA) — administers and funds economic stimulus programs.

Thaddeus Stevens College of Technology (College) — presents a financial burden to the PG, as the PG appropriates monies for College operations. The College was financially reported as part of the PG through and including the fiscal year ended June 30, 2003; legislation effective July 1, 2003 made the College a legally separate entity.

There are a total of twenty-two component units; sixteen are discretely presented. The State Employees' Retirement System (SERS) and Public School Employee's Retirement System (PSERS) are reported as Pension Trust Funds in the Statement of Fiduciary Net Assets, while the Pennsylvania Life and Health Insurance Guaranty Association (PLHIGA) and Pennsylvania Property and Casualty Insurance Guaranty Association (PPCIGA) are reported as Agency Funds. The **Pennsylvania Turnpike Commission (PTC)**, **Pennsylvania Housing Finance Agency (PHFA)**, **Pennsylvania Higher Education Assistance Agency (PHEAA)**, **Pennsylvania Infrastructure Investment Authority (PENNVEST)**, and **State System of Higher Education (SSHE)** are reported as major component units. The Pennsylvania Economic Development Financing Authority (PEDFA) and Pennsylvania Energy Development Authority (PEDA) are not reported because their only activities involve conduit debt.

Bedford County

Financial Trends

These tables illustrate how the Commonwealth’s financial position has changed over time by providing information on the Commonwealth’s net assets, change in net assets, fund balance and changes in fund balance.

Table 1-Net Assets by Component	183
Table 2-Changes in Net Assets	184
Table 3-Governmental Fund Type Fund Balances	186
Table 4-Revenues by Source and Expenditures by Function-All Governmental Fund Types	187

Revenue Capacity

These tables contain information on the factors that affect the Commonwealth’s ability to generate its own-source revenues. The Commonwealth's largest source of revenues is taxes. Information for the three largest is contained within these tables. Personal income, sales and corporation taxes account for 81% of all general revenues for the June 30, 2007 fiscal year (as disclosed in the Statement of Activities).

Table 5-Personal Income Tax-Personal Income by Industry	188
Table 6-Personal Income Tax-Personal Income Tax Filers and Liability by Income Level	189
Table 7-Sales Tax-Estimated Sales by Industry Classification of the Vendor	190
Table 8-Sales Tax-Sales Tax Remittances by Major Industry Classification	191
Table 9-Corporate Tax-Corporate Net Income Tax	192
Table 10-Corporate Tax-Capital Stock/Foreign Franchise Tax	193

Debt Capacity

These tables contain information on the Commonwealth’s debt burden as well as information about the Commonwealth’s ability to issue additional debt.

Table 11-Outstanding Debt and Outstanding Debt Ratios.....	194
Table 12-Ratios of Net General Bonded Debt Outstanding.....	195
Table 13-Computation of Legal Debt Margin	196

Demographic and Economic Information

These tables contain information on the socioeconomic environment in which the Commonwealth operates.

Table 14-Employment by Nonfarm Related Industry.....	197
Table 15-Population and Per Capita Personal Income.....	198
Table 16-Employment Information	198

Operating Information

These tables provide information about the Commonwealth’s operations and resources and assist in relating financial statement information to the Commonwealth’s economic condition.

Table 17-Commonwealth Employees by Function and Agency.....	199
Table 18-Operating Indicators by Function and Agency	200
Table 19-Capital Asset Information by Function and Agency	202

Source: Statement of Net Assets, as presented in the Commonwealth's Comprehensive Annual Financial Report for the applicable fiscal year.

Note: This schedule presents information beginning with the 2002 fiscal year, when the Commonwealth implemented GASB Statement 34. Also, since implementation additional restricted net asset categories have been created to provide a more refined description of the restrictions. These restrictions were not applied retroactively and are marked with N/A in the years prior to the creation of the new restricted net asset category. These new categories were created either for new funds or funds previously reported in the "Other purposes" category. The "Gaming licensing/regulation" category was created for a new fund, the Gaming Fund, in the 2006 fiscal year. The most significant fund previously reported in the "Other purposes" category that is now being reported in a new classification is the Tobacco Settlement Fund, a major governmental fund type, which beginning with the 2005 fiscal year is now being reported in the "Smoking cessation and other health-related programs" category. Other notable funds being reported in new categories are the Internal Service funds-reported in the "Correctional industries and procurement" category; Machinery and Equipment Loan Fund and Small Business First Fund (both Proprietary fund types)-reported in the "Economic Stimulus" category; and the Volunteer Companies Loan Fund (a Proprietary fund type)-reported in the "Emergency support" category.

Source: Statement of Activities, as presented in the Commonwealth's Comprehensive Annual Financial Report for the applicable fiscal year.

Note: This schedule presents information beginning with the 2002 fiscal year, when the Commonwealth implemented GASB Statement 34. With the original implementation, inheritance, cigarette and real estate taxes were reported within the "Other" taxes category. To provide a more refined description of the Commonwealth's taxes, separate captions were created in the Statement of Activities for these taxes in succeeding fiscal years. Beginning with the 2003 fiscal year, inheritance taxes were reported separately; in the 2004 fiscal year, cigarette taxes were reported separately; and in the 2006 fiscal year, real estate taxes were reported separately. These captions are marked with N/A in the fiscal years prior to when the particular tax was reported separate from the "Other" taxes category. During the 2007 fiscal year, the first licensed gaming facilities opened and the resulting taxes from their activities were reported in the Gaming Fund, a special revenue fund.

Source: The Commonwealth's Comprehensive Annual Financial Report, as presented for the applicable fiscal year. For fiscal years 1998-2001, the information can be found in the Combined Balance Sheet-All Fund Types, Account Groups and Discretely Presented Component Units statement. Beginning with the 2002 fiscal year, the information can be found in the Balance Sheet-Governmental Funds statement.

Notes:

- (1)-Beginning with the 2002 fiscal year, the Commonwealth implemented GASB Statement 34. As a result, two funds (State Lottery Fund and Historical Preservation Fund) were reclassified from the Special Revenue governmental fund type classification to a Proprietary fund type classification. Two additional funds (Workmen's Compensation Security Trust Fund and Catastrophic Loss Trust Fund) were reclassified from an Expendable Trust fund type classification to a Special Revenue governmental fund type classification.
- (2)-The Tax Stabilization Fund was abolished and its last year of existence was the 2001 fiscal year. In the 2002 fiscal year, the new Budget Stabilization Reserve Fund was created by Act 91 of 2002. The reservations for both funds are reported on the same line because they are considered to be the Commonwealth's Rainy Day Fund within the General Fund. Note A in the Notes to the Financial Statements provides additional details.

Source: The Commonwealth's Comprehensive Annual Financial Report, as presented for the applicable fiscal year. For fiscal years 1998-2001, the information can be found in the Combined Statement of Revenues, Expenditures and Changes in Fund Balance statement. Beginning with the 2002 fiscal year, the information can be found in the Statement of Revenues, Expenditures, and Changes in Fund Balances-Governmental Funds statement.

Notes:

(1)-Beginning with the 2002 fiscal year, the Commonwealth implemented GASB Statement 34. As a result, two funds (State Lottery Fund and Historical Preservation Fund) were reclassified from the Special Revenue governmental fund type classification to a Proprietary fund type classification. Two additional funds (Workmen's Compensation Security Trust Fund and Catastrophic Loss Trust Fund) were reclassified from an Expendable Trust fund type classification to a Special Revenue governmental fund type classification.

(2)-The change in the State Lottery fund type classification was not retroactively applied, thus the lottery receipts are reported in the Governmental Fund Types through the 2001 fiscal year. Subsequent years after the reclassification are marked with an N/A.

(3)-Other revenues include immaterial amounts of lease rentals revenues and interest on notes and loans.

(4)-With the implementation of GASB Statement 34, the Commonwealth was required to begin reporting transfers from and to component units as ordinary revenues and expenditures. These changes were made to the Commonwealth's accounting system beginning with the 2003 fiscal year and were not retroactively applied. Subsequent fiscal years are marked with a N/A.

(5)-Ratio is calculated as Principal Retirement plus Interest and Fiscal Charges divided by Total Expenditures less Capital Outlay. There are no expenditures for capitalized assets contained within the functional expenditure categories.

Personal income by industry are provided by the U.S. Department of Commerce, Bureau of Economic Analysis through estimates released September 2007 (<http://www.bea.gov/bea/regional/spi/default.cfm>).

Total personal income subject to the direct tax rate and the direct personal income tax rate are provided by the Pennsylvania Department of Revenue.

Notes:

- (1)-Calendar years 2003-2005 differ from the totals shown in the Commonwealth's Comprehensive Annual Financial Report for June 30, 2006. The amounts shown in the prior year were based on estimates released by the U.S. Department of Commerce, Bureau of Economic Analysis in September 2006. These estimates have subsequently been revised (as provided in March and September 2007 releases).
- (2)-Personal income by industry are reported under the North American Industry Classification System (N.A.I.C.S. Group).
- (3)-Other earnings/deductions include dividends, interest and miscellaneous employee/employer contributions/deductions.
- (4)-Total personal income subject to the direct personal income tax rate consists of taxable compensation, interest, dividends, net profits and other income, prior to the application of various tax credits. This amount is self-assessed by the taxpayer on their tax returns for the tax year. Due to the complexity and length of the tax return filing and review process, the total compilation is not yet available for release by the Pennsylvania Department of Revenue for the 2005 and 2006 tax years.
- (5)-This information is presented by tax year, rather than by calendar year, as the personal income by industry is presented. An individual filer's tax year is defined as that period for which that person must file a tax return. Generally, many filers have the last day of their filing year fall on December 31st; however, for various reasons, other filers have a filing year that falls on a different date (i.e. March 31st). The information presented is based on those returns of the filers whose tax year ended during the the applicable calendar year.

Sources:

The number of filers per taxable income level, the personal income subject to the direct personal income tax rate per income level (used in the Personal Income Tax Liability estimation) and the direct personal income tax rate are provided by the Pennsylvania Department of Revenue.

Notes:

- (1)-Due to statutory requirements protecting taxpayer identification (confidentiality provisions), the Commonwealth can not disclose the names of the ten largest personal income tax filers. Therefore, this schedule is presented as an alternative comparison regarding the sources of the Commonwealth's personal income tax revenue.
- (2)-An individual filer's tax year is defined as that period for which that person must file a tax return. Generally, many filers have the last day of their filing year fall on December 31st; however, for various reasons, other filers have a filing year that falls on a different date (i.e. March 31st). This table presents information based on all filers whose tax year ended during the the 1995 or 2004 calendar years.
- (3)-Also, due to the complexity and length of the tax return filing and review process, the total compilation of personal income subject to the direct tax rate per income level was not yet available for release by the Pennsylvania Department of Revenue for the 2005 and 2006 tax years. This compilation is used in the calculation of the estimated personal income tax liability. Therefore, the 1995 and 2004 tax years are presented as an alternative comparison.
- (4)-The estimated total personal income tax liability is calculated by multiplying the total personal income (as self-assessed by the individual tax filer) for the income level by the tax rate applicable during the tax year. The estimated liability is presented before any applicable tax credits were applied. For the 1995 tax year, the direct tax rate in effect was 2.80% for all income levels, while the rate increased to 3.07% for the 2004 tax year.
- (5)-Totals may not foot due to rounding.

Sources:

Sales tax remittances by industry and total direct sales tax rate (both used in the calculation of estimated taxable sales by industry) are provided by the Pennsylvania Department of Revenue.

Notes:

- (1)-Estimated taxable sales are calculated based on sales tax remittances (made by vendors with their tax returns processed during the fiscal year) divided by the direct sales tax rate of 6%.
- (2)-Estimated taxable sales are organized by major industrial activity of the vendor and do not represent sales by product type. Fiscal years 1997 through 1999 are presented by Standard Industrial Classification (S.I.C. Group). Beginning with the 2000 fiscal year, the Commonwealth began reporting under the North American Industry Classification System (N.A.I.C.S. Group). The two classifications are similar, but not 100% comparable.
- (3)-Beginning with the 2006 fiscal year, the Pennsylvania Department of Revenue reclassified various subcategories within major industrial activity into either a different major industrial activity or a new major industrial activity. New major industrial activity are "Construction", "Service", and "Transportation, delivery, and warehousing". The "Other" category was eliminated. This reclassification had the most effect on the "General merchandise", "Food and beverage stores", "Other retail stores", and "Agriculture and mining" major industrial activity categories. These reclassifications were applied retroactively back to the 2002 fiscal year.
- (4)-Due to the complexity and length of the tax return filing and review process, the total compilation of sales tax remittances was not yet available for release by the Pennsylvania Department of Revenue for the 2007 fiscal year. Therefore, fiscal years 1997 through 2006 are presented as an alternative comparison.
- (5)-Totals may not foot due to rounding.

Sources:

Sales tax remittances by industry and the number of sales tax licenses are provided by the Pennsylvania Department of Revenue.

Notes:

- (1)-Due to statutory requirements protecting taxpayer identification (confidentiality provisions), the Commonwealth can not disclose the names of the ten largest sales tax filers. Therefore, this schedule is presented as an alternative comparison regarding the sources of the Commonwealth's sales tax revenue.
- (2)-Also, due to the complexity and length of the tax return filing and review process, the total compilation of sales tax remittances was not yet available for release by the Pennsylvania Department of Revenue for the 2007 fiscal year. Therefore, fiscal years 1997 and 2006 are presented as an alternative comparison.
- (3)-Sales tax liability is based on sales tax remittances made with tax returns processed during the fiscal year. The direct sales tax rate applicable to both years is 6%.
- (4)-Sales tax remittances are organized by major industrial activity of the vendor and does not represent sales by product type. The 1997 fiscal year is presented using the Standard Industrial Classification (S.I.C. Group), and the 2006 fiscal year is presented using the North American Industry Classification System (N.A.I.C.S. Group). The two classifications are similar, but not 100% comparable.
- (5)-Beginning with the 2006 fiscal year, the Pennsylvania Department of Revenue reclassified various subcategories within major industrial activity into either a different major industrial activity or a new major industrial activity. New major industrial activity are "Construction", "Service", and "Transportation, delivery, and warehousing". The "Other" category was eliminated. This reclassification had the most effect on the "General merchandise", "Food and beverage stores", "Other retail stores", and "Agriculture and mining" major industrial activity categories.
- (6)-Totals may not foot due to rounding.
- (7)-The Commonwealth does not maintain a list of sales tax filers by either the S.I.C. or N.A.I.C.S. standard industry grouping, and as noted in Note (1), can not disclose the names of the largest filers. Therefore, the number of sales tax licenses are presented to indicate the potential number of filers during the applicable fiscal year.

Sources:

Information provided by the Pennsylvania Department of Revenue.

Notes:

- (1)-Pennsylvania is one of only a few states that levy a tax on corporate net income (corporate net income tax - CNIT) as well as capital stock (capital stock/foreign franchise tax - CSFT). Recent legislation will gradually eliminate the capital stock tax so that the last year for which a tax will apply will be the 2010 tax year. This table presents the positive corporate net income tax base, as well as the number of filers associated with this tax by liability range. It also presents the statutory corporate net income tax rate.
- (2)-The CNIT is based on separate company Federal taxable income and includes a number of additions to/subtractions from that base. This table shows the compilation of all reported taxable income (Federal income adjusted to the PA base and then apportioned). Many corporations report negative federal taxable income. In addition, the net operating loss deductions that Pennsylvania allows reduce otherwise profitable corporations' incomes below \$0.
- (3)-Due to statutory requirements protecting taxpayer identification (confidentiality provisions), the Commonwealth can not disclose the names of the ten largest corporate net income tax filers. Therefore, the schedule of the number of filers by corporate net income tax liability range is presented as an alternative comparison regarding the sources of the Commonwealth's corporate net income tax revenue. Those filers that report negative state taxable income are reported in the tax liability range of \$0, which accounts for the large number of filers within that range.
- (4)-Also, due to the complexity and length of the tax return filing and review process, the total compilation of corporate net income subject to the direct corporate tax rate was not yet available for release by the Pennsylvania Department of Revenue for the 2005 and 2006 tax years. Therefore, tax years 1995 through 2004 are presented as an alternative comparison.
- (5)-The corporate filer's tax year is defined as that period for which it must file a tax return. Though some filers have the last day of their filing year fall on December 31st, many filers have a filing year that falls on a different date (i.e. March 31st). This table presents information based on all filers whose tax year ended during the associated calendar years.
- (6)-For tax years 1995 through 2002, the amounts presented are actual. The amounts presented for the 2002 tax year may differ from the amounts presented in the same table in the Commonwealth's Comprehensive Annual Financial Report (CAFR) for the June 30, 2006 fiscal year, since that was an estimate. For the 2003 tax year, the amounts presented are a revised estimate from what was presented in the June 30, 2006 CAFR. And for the 2004 tax year, the amounts presented are an estimate.

Sources:

Information provided by the Pennsylvania Department of Revenue.

Notes:

- (1)-Pennsylvania is one of only a few states that levy a tax on corporate net income (corporate net income tax - CNIT) as well as capital stock (capital stock/foreign franchise tax - CSFT). Recent legislation will gradually eliminate the capital stock tax so that the last year for which a tax will apply will be the 2010 tax year. This table presents the capital stock/foreign franchise apportioned tax base, as well as the number of filers associated with this tax by filing class. It also presents the statutory capital stock/foreign franchise tax rate.
- (2)-The CSFT is based on a fixed formula involving net worth and average book income. This schedule shows the compilation of all reported taxable capital stock value, as reported by corporate taxpayers required to file a tax return with the Commonwealth.
- (3)-Due to statutory requirements protecting taxpayer identification (confidentiality provisions), the Commonwealth can not disclose the names of the ten largest capital stock/foreign franchise tax filers. Therefore, the schedule of the number of filers by capital stock/foreign franchise tax liability range is presented as an alternative comparison regarding the sources of the Commonwealth's capital stock/foreign franchise tax revenue. All corporate filers were required to pay a statutory minimum tax of \$300 through 1998 and \$200 in 1999, which accounts for the large number of filers within the range of \$0-\$300. This minimum does not apply to tax years 2000 and after.
- (4)-Also, due to the complexity and length of the tax return filing and review process, the total compilation of all reported taxable capital stock value subject to the statutory capital stock/foreign franchise tax rate was not yet available for release by the Pennsylvania Department of Revenue for the 2005 and 2006 tax years. Therefore, tax years 1995 through 2004 are presented as an alternative comparison.
- (5)-The corporate filer's tax year is defined as that period for which it must file a tax return. Though some filers have the last day of their filing year fall on December 31st, many filers have a filing year that falls on a different date (i.e. March 31st). This table presents information based on all filers whose tax year ended during the the associated calendar years.
- (6)-For tax years 1995 through 2002, the amounts presented are actual. The amounts presented for the 2002 tax year may differ from the amounts presented in the same table in the Commonwealth's Comprehensive Annual Financial Report (CAFR) for the June 30, 2006 fiscal year, since that was an estimate. For the 2003 tax year, the amounts presented are a revised estimate from what was presented in the June 30, 2006 CAFR. And for the 2004 tax year, the amounts presented are an estimate.

Source: Statement of Net Assets, as presented in the Commonwealth's Comprehensive Annual Financial Report for the applicable fiscal year.

Notes:

- (1)-Each caption includes the reported current and noncurrent amounts of the outstanding debt.
- (2)-Details on the Commonwealth's total outstanding debt for June 30, 2007 can be found in Note K.
- (3)-See Table 15 for summarized totals for personal income and population data that were used in the calculations of these ratios. Personal income detail is presented in Table 5. As detailed in Table 5 or 15 (as appropriate), the personal income and population data have changed in several calendar years from what was presented in those tables in the Commonwealth's Comprehensive Annual Financial Report (CAFR) for the June 30, 2006 fiscal year. As a result, the calculated ratios based on the data from those calendar years may differ from what was presented in this table in the June 30, 2006 CAFR.
- (4)-Debt ratios use total outstanding debt which is presented by fiscal year ended June 30, while the personal income and population data used in the calculations are presented by calendar year.

Ratios of Net General Bonded Debt Outstanding

TABLE 12

For the Last Six Fiscal Years Ended June 30

COMMONWEALTH OF PENNSYLVANIA

(Expressed in Thousands)

Fiscal Year	(1) General Obligation Bonds	(2) Less: Amounts Restricted to Paying Principal	Total Net General Bonded Debt Outstanding	(3) Percentage of Actual Tax Revenues	(4) Per Capita
2002	\$ 6,134,761	\$ -	\$ 6,134,761	29.73%	\$ 499
2003	7,030,618	(32,685)	6,997,933	32.49%	568
2004	7,225,165	(61,029)	7,164,136	30.76%	580
2005	7,150,667	(83,885)	7,066,782	28.30%	571
2006	7,657,674	(8,118)	7,649,556	27.84%	617
2007	8,245,673	(20,474)	8,225,199	28.71%	661

Sources:

Information was obtained from the Commonwealth's Comprehensive Annual Financial Report for the applicable fiscal year. General obligation bonds can be found in the Statement of Net Assets, and the tax revenues used in the percentage of actual tax revenues can be found in the Statement of Activities.

Notes:

(1)-General obligation bonds include the reported current and noncurrent amounts.

(2)-Amounts restricted to paying principal equal the amount restricted for debt service in the Statement of Net Assets.

(3)-The Commonwealth's general obligation bonds are expected to be repaid with general tax revenue. Therefore, the total taxes shown in the Governmental Activities sections of the Statement of Activities is used in this calculation.

(4)-Total net general bonded debt outstanding used in the per capita calculation is presented as of the fiscal year. The population data used in the calculation is shown in Table 15, and is as of July 1 of the applicable fiscal year. As detailed in Table 15, the population data has changed in several calendar years from what was presented in Table 15 in the Commonwealth's Comprehensive Annual Financial Report (CAFR) for the June 30, 2006 fiscal year. As a result, the per capita calculation based on the data from those calendar years may differ from what was presented in this table in the June 30, 2006 CAFR.

Source: The Governor's Office of the Budget

Notes:

(A)-The formula for the legal debt limit is contained in Article VIII, Section 7(a) of the Pennsylvania Constitution, which provides:
 No debt shall be incurred by or on behalf of the Commonwealth except by law and in accordance with the provisions of this section.

(1) Debt may be incurred without limit to suppress insurrection, rehabilitate areas affected by man-made or natural disaster, or to implement unissued authority by the electors prior to the adoption of this article.

(2)The Governor, State Treasurer and Auditor General, acting jointly, may (i) issue tax anticipation notes having a maturity within the fiscal year of issue and payable exclusively from revenues received in the same fiscal year, and (ii) incur debt for the purpose of refunding other debt, if such refunding debt matures within the term of the original debt.

(3) Debt may be incurred without limit for purposes specifically itemized in the law authorizing such debt, if the question whether the debt shall be incurred has been submitted to the electors and approved by a majority of those voting on the question.

(4) Debt may be incurred without the approval of the electors for capital projects specifically itemized in a capital budget if such debt will not cause the amount of all net debt outstanding to exceed one and three-quarters times the average of the annual tax revenues deposited in the previous five fiscal years as certified by the Auditor General. For the purposes of this subsection, debt outstanding shall not include debt incurred under clauses (1) and (2)(i), or debt incurred under clause (2)(ii) if the original debt would not be so considered, or debt incurred under subsection (3) unless the General Assembly shall so provide in the law authorizing such debt.

(B)-Each of the above figures used in the calculation of the legal debt margin are abstracted from a certification of the Auditor General dated August 31 of the subsequent fiscal year.

Source: Information provided by the Pennsylvania Department of Labor and Industry (<http://www.paworkstats.state.pa.us/default.asp>).

Notes:

- (1)-Due to statutory requirements (confidentiality provisions), the Commonwealth can not disclose the number employed by the ten largest employers. As an alternative comparison, this schedule presents the number employed by nonfarm related industries. The ten largest employers are nonfarm related; therefore, the number employed by those employers could be expected to fall within this schedule. Farming related employment is not included on this schedule because most farms are not large enough to be required to provide the necessary data to the Pennsylvania Department of Labor and Industry.
- (2)-Data presented for calendar years 1997-2005 are estimates that were benchmarked to universe counts derived from administrative files of employees covered by unemployment insurance. As a result of this benchmarking, the data provided for the 2005 calendar year has changed from what was presented in this table in the Commonwealth's Comprehensive Annual Financial Report (CAFR) for the June 30, 2006 fiscal year. The amount presented in the 2006 calendar year is a sample-based estimate that has not been benchmarked.

2006	12,441	299,398	4.16%	456,429	10,966,808	4.16%	36,689	36,629	0.16%

Sources: Population data is obtained from the U.S. Department of Commerce, Bureau of Economic Analysis website (<http://www.bea.gov/regional/spi/default.cfm>), whose source is the U.S. Bureau of Census' December 2006 release of annual population estimates. Personal income details can be found in Table 5.

Notes:

(1)-Population data is presented as of July 1 of the calendar year. The U.S. Bureau of Census' December 2006 release included revisions to the annual population estimate back to the 2000 calendar year. Therefore, the totals shown may differ from what was presented in the Commonwealth's Comprehensive Annual Financial Report (CAFR) for the June 30, 2006 fiscal year.

(2)-Personal income data is provided as of the calendar year. Calendar years 2003-2005 differ from the totals presented in the June 30, 2006 CAFR. See Table 5 for details.

(3)-As a result of changes noted in Notes (1) and (2), the Per Capita Personal Income may differ from what was presented in the June 30, 2006 CAFR.

Source: Employees for the Legislature, Judiciary, Auditor General, Treasury and Attorney General were provided by the individual agency. All other agencies fall within the Governor's jurisdiction and were provided by the Office of Administration.

Notes: Beginning with the 2004 fiscal year, employee data was available both by function and agency and is shown appropriately in the table. For the fiscal years prior to 2004 employee data was only available by agency. For purposes of this table, the complement for fiscal years 1998 through 2003 is reported by function based on the agency's most prevalent functional activity.

Sources: Governor's Office of the Budget, comptroller offices, various agencies

Notes:

- (1) Legislation acts and bills are presented per the Legislature's two-year session. Amounts presented for the 2005-2006 session are final. Results are not yet known for the 2007-2008 session.
- (2) Amounts are presented as of December 31.
- (3) Arrests per 100,000 population in State Police jurisdiction areas.
- (4) PreK enrollment is not included through the 2003 fiscal year.
- (5) The decrease in Vital Events from 2001 to 2002 is due to Act 82 of 2001, which eliminated some requirements for the processing of marriage and divorce records.
- (6) Beginning with the 2005 fiscal year, this amount was revised to include individuals receiving services from community mental health funds, Medical Assistance expenditures, and BHSI funds.
- (7) Beginning with the 2005 fiscal year, this amount was revised to remove those receiving Early Intervention services.
- (8) Beginning with the 2002 fiscal year, this category was reevaluated and then no longer measured in its current form. Subsequent years are then marked with N/A.
- (9) For the 2007 fiscal year, a majority of the indicators presented are estimates. For the 2006 fiscal year, the amounts that were presented as estimates in the Commonwealth's Comprehensive Annual Financial Report (CAFR) for the June 30, 2006 fiscal year have been revised. Therefore, the amounts shown may differ from what was presented in the June 30, 2006 CAFR.

Sources: Governor's Office of the Budget, Comptroller Offices and various agencies.

Notes:

- (1)-Beginning with the 2006 fiscal year, the control of the Harrisburg State Hospital was transferred from the Department of Public Welfare (reducing the reported number of hospital complexes) to the Department of General Services (increasing the reported number of buildings).
- (2)-Beginning with the 2003 fiscal year, the reported machinery and equipment includes assets that were depreciated in full.
- (3)-This category was expanded to include all reported projects, including those in the design phase, and was applied retroactively to each of the ten years shown in this table. Therefore, the amounts presented may differ from what was presented in the Commonwealth's Comprehensive Annual Financial Report (CAFR) for the June 30, 2006 fiscal year.
- (4)-Beginning with the 2007 fiscal year, this category was added to this table, and has been retroactively reported for the 2005 and 2006 fiscal years.
- (5)-State Correctional Institutions, police station/troop headquarters and hospital/treatment center complexes include nondepreciable capital assets (i.e. land) and depreciable assets (i.e. machinery and equipment, buildings, improvements, etc.).
- (6)-The State System of Higher Education (SSHE) is a discretely presented component unit. However, each of its universities uses land, buildings, and improvements which were purchased by the Commonwealth and are still reported as governmental activities capital assets in the Commonwealth's Statement of Net Assets. See Note A in the Notes to the Financial Statements for a detailed description of this relationship.
