

FISCAL NOTE

September 17, 2020

Bill No:	HB 1509	Printer's No:	1894	Sponsor:	Jozwiak, Barry
-----------------	---------	----------------------	------	-----------------	----------------

COST / (SAVINGS)

Fund (s)	2020-21	2021-22
Motor License Fund	See "FISCAL IMPACT"	"See "FISCAL IMPACT"

SUMMARY: House Bill 1509 creates a 2-in-1 sticker for registration and inspection which must be attached to a driver's license plate.

ANALYSIS: The bill would create a 2-in-1 sticker by reinstating the requirement to display a validating registration sticker on a vehicle license plate and requires a certificate of inspection as the prerequisite for registering or renewing the registration of a vehicle.

Removal of requirement to display a Certificate of Inspection: Immediately. Remainder of the act: March 1, 2021.

FISCAL IMPACT: The new Motor Vehicle Driver's License System is currently being developed and does not support changes at this time. PennDOT will incur costs by the Inspection Program Vendor, but those costs are inconclusive at this time. Further, costs will be incurred to provide the necessary access for the 17,000 inspection stations to have access to an electronic inspection system. Finally, costs do not include a new registration sticker inventory that will need to be developed.
