SUMMARY: HB 518 allows for branch facilities of private licensed schools to be located outside of the county where the primary private licensed school is located.

ANALYSIS: This bill removes language which requires a branch facility to be located in the same county of the primary private licensed school.

The bill also establishes a school shall be required to pay only one fee for any and all branch training schools.

FISCAL IMPACT: This bill limits revenue from renewal fees, which are biennial and based on gross tuition revenue, by allowing schools that currently pay licensure fees for multiple locations to only pay a fee for one location.

This change would reduce annualized renewal revenue from \$970,000 to \$757,500, a fiscal impact of \$212,500.
